Crerar's Address to the People.

The address of Hon. T. A. Crerar to the people of Canada contains nothing new. It is the Liberal policy to a very large extent. Mr. Crerar even goes so far as to speak of the farmer movement as a Liberal movement. He says: "In this election a new party makes its appeal to the Canadian people. It began in a humble way among the agricultural portion of our people. Every aspiration for purer government, every protest against public wrong in high places, has its origin in small beginnings. If there is good in it, if its spirit is right and true it will grow, and the proof of its justice lies in the strength it attracts to itself."

"No one who has studied closely the farmers' movement, so-called, in Canada but will admit it has imperfections. But no one who studies it and is honest will deny that it embodies an aspiration for purity in government, for higher standards of morality and for the sweeping away of special privilege in all its forms. From a small beginning it has spread over almost the entire country, attracting to itself support from all classes and sections of our people."

"The tendency of political parties is toward reaction until a protest arises instinctively from the people against such a reaction. The new political movement in Canada is such a protest and further is essentially a movement of liberalism—not in the sense of a party name but in the liberal and true sense of the word—that seeks to sweep away abuses in government and to provide policies that will meet the needs of the people. It is to all those throughout the broad expanse of Canada who desire to see purity in the government of this country restored, who desire to see public morality supplant public corruption, who desire to sweep away the abuse of the function of government for the advancement of the interests of the privileged few."

"That is the pith of the farmer movement, and it is the same policy identically that the Liberals hold and that has aroused the people of Canada to action today so that they are ready to slough off the Meighen monstrosity which has been kept in power too long and kept in power by people who ought to have known better."

Profiteers in War Profiteers in Peace.

The profiteers have become so accustomed to grafting on the public that they are at a loss what to do since the close of the high price period. They have under their control a group of men calling themselves statesmen who are willing tools to their profiteering schemes. They have induced this group to appeal to the people on a policy of high tariffs and have promised to back them with millions of dollars of campaign funds, these millions to be recouped with immense profits made possible through the high tariff.

The tariff profits form a terrible weapon with which to fight the people. With money it is hoped to subvert a majority of the voters of Canada, including the women of the country. Insidiously they are placing the issue before them and the cry for purer politics as sent up by Mr. Crerar was never more necessary than it is today. Happily for the country there is still a united Liberal opposition that will have a sufficient majority to carry on the government after the election, and there are in the party enough men of sterling character to make profiteering, as we have seen it in the past, impossible.

We have great sympathy with the farmer movement, but it has no effect except to divide the forces of Liberalism and give opportunity for the common enemy to get back to power. Mr. Crerar doubtless means well, but his movement, while it is fairly widespread, has few followers in this province, where all nominations so far have been by the old parties, with one possible exception.

INDIAN SCHOOL FRASER LAKE

Splendid New Building Equipped For Teaching Natives Useful Trades.

READY BY OCTOBER 1

Formal Opening to Take Place Before Christmas With Big Celebration.

BURNS LAKE, Oct. 19.—R. Moncrieff, the contractor for the building of the Indian Industrial School at Fraser Lake is visiting the Burns and Francois Lake districts accompanied by W. J. MacAllan, the local representative of the Department of Indian Affairs.

The school and grounds are situated on the south shore of Fraser Lake, about eight miles west of the town of Fort Fraser, and occupy one of the most beautiful sites on the lake front. The surrounding grounds embody some three hundred acres of choice agricultural land.

The building was erected at a cost of \$700,000.00 by the Indian Department, and the management and education of the Indian children will be in the hands of the Roman Catholic Church to which religion all of the Indians of the district belong. The school will provide accommodations for 150 children with commodious quarters for the teaching staff.

Technical Training.
The training of the children will be largely on technical lines, and agriculture, carpentry, blacksmithing, shoe making, etc. will be taught, this policy being decided on with the idea of fitting them for the various walks in life, and putting them on an equal footing with the white people in order that when they are prepared they may be given the franchise and eventually relieve the Government of a huge responsibility.

The building is of brick veneer with concrete basement and a notable fact is that Mr. Moncrieff made the brick on the ground and proved the clay to be of excellent quality.

The brick is almost a salmon red in color. With the roof finished in green, the building presents a most picturesque appearance.

It will be ready for occupancy by the end of October and will be lighted by electricity, and amply supplied with water of best quality.

Opening Soon.
The opening ceremonies will take place some time before Christmas, when Indians from

The Kidneys

The office man and the outdoor worker suffer alike from derangements of the kidneys.

Backaches and headaches are among the symptoms. In some cases Bright's disease soon develops, others suffer from high blood pressure until hardening of the arteries sets in.

In order to forestall painful and fatal diseases prompt action should be taken at the first sign of trouble.

Mr. A. D. MacKinnon, Kirkwood, Inverness county, N.S., writes:

"I can highly recommend Dr. Chase's Kidney-Liver Pills to all suffering from weak kidneys. I suffered from kidney disease for a long time. I may also say that for three years I was nearly always troubled with headaches, and no treatment seemed to do more than afford temporary relief. I was finally told of Dr. Chase's Kidney-Liver Pills, and after using a few boxes was completely relieved. I have also used Dr. Chase's Ointment with the best results, and never fail to recommend these wonderful remedies."

Dr. Chase's Kidney-Liver Pills, one pill a dose, 25c a box, all dealers, or Edmanson, Bates & Co., Limited, Toronto.

J. F. MAGUIRE
Next the Prince Rupert Hotel

far and near who are taking great interest in the school will concentrate at Fraser Lake close to the site of one of the oldest of the H. B. Co.'s forts and in a district which has been conspicuous in Indian history ever since the advent of Simon Fraser.

The Indian Department will be well represented, and many members of the O. M. L. including such well known pioneers as Bishop Bunzer, Father Cocola, Father Ajjard and many others will be present.

BURNS LAKE

Inspector Parsons of the Provincial Police is visiting Burns Lake and appears to sympathize with the local feeling in regard to the certain extermination of the beaver.

Mr. and Mrs. T. G. Lang pass through Burns Lake village on the last lap of their honeymoon trip from Vancouver to their little new home near Wistaria, B. C.

Mr. and Mrs. J. Johns of Smithers have leased the Burns Lake Hotel from the owner Robert H. Gerow, who will give all his attention to the development of his oil interests.

Harry McLean is bringing his big canoe out from Ootsa to ply on the vast waterways of the Babine District.

Ten Years Ago in Prince Rupert

The Porcher Island tug "Swallowtail" was wrecked in Kitkatla Narrows at 4 o'clock this morning when she struck a rock. Captain Miller, her owner, and his mate, John Brogan, had a narrow escape from drowning and were rescued in the nick of time by Rufus Taylor in his launch.

Indian Agent Thomas Deasy, of Massett, is in town. He has in his possession for safekeeping \$125 belonging to an Indian, Mark Spence, who fell off the wharf on Tuesday night and was stranded on Metlakatla Bar last night. Mr. Deasy reckons he has saved his ward's \$125 for him.

MILL IS OPERATING ON MAROON MOUNTAIN; IMMENSE ORE VALUES

FERRACE, Oct. 19.—The Ross mill, which was recently taken up the Kitsumkalum Valley on Maroon Mountain, situated on the East side of Kitsumkalum Lake, on a free milling gold property. The operations are being undertaken by Jack Hoar and the mill has just been erected. The showings have run as high as \$2200.00 per ton on the Allard claim. The mill site is on an elevation of 4000 feet and about five miles from the lake so that operations can only be carried on in the snow prevents further work.

The Man in the Moon SAYS--

WHAT puzzles a mind reader is to try to read the mind of a man when he has none.

WHEN priors are slumping the people who strike hit themselves worst of all.

IF women are so crazy about clothes why don't they wear more of them?

A husband is a man that takes orders and a child is a person that takes disorders.

WE all know it is wrong to strike a woman but when a nurse says the patient is getting on as well as could be expected under the circumstances she deserved to be slapped at the very least.

TIME was when no matter how small the youngster it could always hang on to its mother's skirts. But times have changed and so have skirts.

QUEEN CHARLOTTE LAND DIVISION.
