House Shortage

Throughout World.

There seems to be a shortage of houses throughout the English speaking world. How it has come about nobody seems to know. Men went to war and killed each other by thousands and when those who were left returned they found there were not enough houses for all.

In Prince Rupert there is still a shortage of dwellings and the condition will be accentuated as soon as the spring work starts up. There is no longer a provincial housing fund on which to draw.

Various buildings are being planned. Several people have schemes in mind in regard to business blocks or apartment houses. These should certainly be given every support.

High Prices

For Halibut.

There is no reason why fish should be an expensive food in Canada. If certain varieties are costly in comparison with other fish the fault lies with the Canadian people.

The reason for the higher halibut price is this: It is estimated that from thirty to forty per cent of the catch on halibut lines is cod, which have to be thrown away.

People to Blame

For Condition.

But you cannot blame the fisherman for throwing away other fish to get 60,000 pounds of halibut. He is in business for a living.

The drain that has been made upon the halibut banks during the past few years threatens to seriously curtail the supply unless protective measures are instituted.

Increased Demand

By Means of Bonus.

The substitution of other varieties of flatfish, equally as palatable, but more abundant and procurable nearer home, has for some years been urged by the Fisheries Branch at Ottawa as a means of protecting the halibut fishery.

ANOTHER VICTIM OF RHEUMATISM

Entirely Well After Six Weeks' Treatment With "FRUIT-A-TIVES"

MR. AMEDEO GARCEAU

32 Hickory St., Ottawa, Ont.
"I was for many years a victim of that terrible disease, Rheumatism. In 1913, I was laid up for four months with Rheumatism in the joints of the knees, hips and shoulders and was prevented from following my work, that of Electrician.

I tried many remedies and was under the care of a physician; but nothing did me any good. Then I began to take 'Fruit-a-tives' and in a week I was easier, and in six weeks I was so well I went to work again.

I look upon this fruit medicine, 'Fruit-a-tives', as simply marvellous in the cure of Rheumatism, and strongly advise everyone suffering with Rheumatism to give 'Fruit-a-tives' a trial."

Managers' Convention
A convention of the managers and executive has just been concluded at the London office, at which policies and methods for the ensuing year were discussed and decided upon.

The principles and ethics which have governed the conduct of the business under Messrs. McConnell & Fergusson for the past seventeen years will be continued in the new organization.

It was concluded after a careful survey of conditions in Canada that greater merchandizing effort and more intensive advertising than had ever before been done in Canada was now necessary to solve the marketing problems of Canadian manufacturers.

The McConnell & Fergusson Limited, executive, in view of this situation, have decided to throw into the work of the coming year, the most serious and concentrated effort to bring the work of the various offices to the highest state of efficiency.

With four offices in the leading commercial centres of Canada, Montreal, Toronto, London and Winnipeg, each co-operating with the other in the merchandizing problems of their clients, the new company claims to be in a position to offer the advertisers of Canada a highly efficient service.
