OIL WAS DANGER TO MANY LOBSTERS

Ten Thousand Dollars' Worth Were Taken Out and Washed Off.

HALIFAX, N.S., April 30.—Neville's Lobster Canneries here very narrowly averted a loss of upwards of ten thousand dollars a few days ago by incontinently scooping one hundred and fifty crates of lobsters which were floating off their wharf out of the oil covered waters of the harbor and carrying them outside to Sambro where they were put overboard again and washed off. The loss was small but lobster fishers here are apprehensive of a recurrence of the oil difficulty and are considerably exercised over the matter.

John Neville of the Neville Canneries says that owing to the smallness of the penalty imposed for dumping oil into Halifax harbor, this practice is much worse in Halifax than in any other port on the continent. It is, he says, a serious menace to certain lines of harbor trade. Representations have been repeatedly made by the Halifax Board of Trade to the Dominion Government in an attempt to have penalties remedied.

The fine for dumping oil into Halifax Harbor is fifty dollars, while in New York it is said to be five thousand.

OPPOSES SALE TO GERMANY

Would Be Shame If Surrendered Ships Went Back to That Country.

LONDON, April 30.—The British Chamber of Shipping has decided to oppose the sale to foreigners of any of the merchant ships surrendered by the Germans. It holds that under no circumstances should any of them be sold back to the Germans. A vote to this effect was taken at a meeting of the Council just held to decide what disposition should be made of the vessels remaining in the possession of the British government.

Lord Inchiquin, who has been entrusted with the sale of the vessels on behalf of the British Chamber of Shipping, said that 168 German ships had been previously disposed of to British nationals, but a good number still remained to be sold and the demand for them, owing to the slump in the shipping trade, had slackened. It had been suggested that some arrangement might be considered whereby the market for the ships might be thrown open to the whole world.

One Newcastle ship owner affirmed that England would be disgraced in the eyes of the world if, after all her commerce had suffered from German submarines, any of the German ships were allowed to go back to Germany, particularly at the present prevailing low prices.
