VICTORIA, Sept. 7:-Premier S. F. Tolmie, Conservative Premier of British Columbia, today made a statement favoring the establishment of a "Union" government in the province. The Premier, in his statement, said: "Realizing that the trend of thought throughout the

"My statement, which will shortly be issued, will include a clause favoring the establishment of a union government composed of such men, along the lines of the national government in England, as the best method of meeting present conditions.

to co-operate in this movement will be prepared to throw aside personal ambition and will be ready, if necessary, to make some personal sacrifice and thus assure success for British Columbia."
