TORPID LIVER For over 4 Months

The duty of the liver is to prepare and secrete bile and serve as a filter to the blood, cleansing it of all impurities and poisons.

When the liver becomes lax, slow or torpid it is not working properly, and does not supply sufficient bile to thoroughly act on the bowels and carry off the waste products of the system, hence the bowels become clogged up, the bile gets into the blood, constipation sets in and liver troubles follow.

Milburn's Laxa-Liver Pills quickly remove the secretions, clear away the waste and effete matter by acting directly on the liver, and making the bile pass through the bowels instead of allowing it to get into the blood, and cause so many troubles.

Mrs. Alice Mehl, Nanaimo, Ont., writes: "I was very badly run down, and had a torpid liver for four months. I tried several remedies, but got no relief. One day my husband brought me home a vial of Milburn's Laxa-Liver Pills, and before I had used half of it I was much better. I only used two vials, and am a different person today. I can safely recommend Laxa-Liver Pills to any one troubled with liver trouble."

Milburn's Laxa-Liver Pills are 25c. a vial at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

WM. HOHENZOLLERN AND NORTHCLIFFE

Campaign of Famous Journalist Much Admired by Former Kaiser

In an article published in the Weekly Dispatch Lady Norah Bentinck gives particulars of her visit to Amerongen when the ex-Kaiser was there. She tells of the ex-Kaiser's admiration for the propaganda carried on during the war under the direction of Lord Northcliffe and the bitterness and personal animosity he showed when speaking of that campaign. She says:

"Talk of the war in all its aspects was never-ending during the ex-Kaiser's stay at Amerongen, and so it is now at Doorn and in his visits to his old host. And when, as often happens, the sudden and dramatic end of the war is discussed, it is always to the British propaganda, with its deadly effect on the spirit of resistance of the German people, that he attributes his downfall."

"Ach, diese Propaganda von Northcliffe! Es war ko-loss-ah!" (Oh, that propaganda of Northcliffe! It was colossal!) And after repeating these words to me his aide-de-camp, tapping his brow with his finger-points and screwing up his eyes, ejaculated: "Was fur ein Mensch!" (What a man!) "If we had had a Northcliffe we could have won the war," he added.

Intense Bitterness

"I heard this often. And I learned while I was at Amerongen that this, so far as the ex-Kaiser was concerned, was not a willing tribute, but one wrung from him. He regards Lord Northcliffe with intense bitterness and looks on him as his worst and most deadly enemy; he cannot speak of the propaganda without his personal animosity clearly showing itself."

"Captain von Hseemann told me that the power wielded by Lord Northcliffe was a constant source of wonderment to the exile. 'It is incredible! What Lord Northcliffe thinks today England thinks tomorrow,' he says. And he is puzzled to know why."

EXPLOSION WHILE POLICE SEARCHING HOUSE IN DUBLIN

Five Policemen Were Wounded and Two Civilians Were Killed.

DUBLIN, March 15.—Five policemen were wounded and two civilians killed in an explosion while the police were searching a house last night.

POOR FISHING SEASON IN NEW BRUNSWICK

Lobsters Scarce and Smelts Less Numerous than Usual

ST. JOHN, N.B., Mar. 15.—The fisheries of New Brunswick have not been successful this winter as they usually are. An open season is partly to blame for the small size of the take and the decline in the fish market is another important factor.

In the Grand Manan district there has been a decided falling off in the quantity of lobster taken, while the low price of herring has discouraged the fishermen and resulted in a good proportion of them deserting their business. The lobster feeding grounds are reported to have been abandoned by the long-tailed crustacean.

There is a report from all parts of the northern shores that smelt are less numerous this season than usual. In some places in which they are expected to be present in great quantities hardly any are taken. Their scarcity is attributed to the mild winter which most of the Province has enjoyed.
