NEW DIRECTORS FOR WANDERERS

Annual Meeting Held Last Evening—W. O. Fulton Resigns Secretaryship

The annual meeting of the Wanderers' Club was held last night when officers were elected and general business for the year transacted. The club was shown by financial reports to be on a very stable basis at the present time due to the capable management of the outgoing board of directors. The resignation of W. O. Fulton, who has been secretary for some years, was received with regret and a vote of thanks was accorded him for his faithful service.
The election of directors for the ensuing year resulted in Joseph Howe, Dr. J. P. Gade, W. H. Vickers, J. A. Macdonald, R. O. Miller, H. F. Wearmouth, T. B. Hooper and Douglas P. Sterk being chosen. The directors will later appoint the president and secretary.

Railway Policy.
The speaker mentioned the way in which the Canadian Northern had been sloughed off on to the Government and the Grand Trunk taken over. Walter Scott had predicted that a condition like the present would follow and that an effort would be made to hand the railway over to some interests who were anxious to get it. This seemed to be the present move. The railway was opening magnificent offices at San Francisco, Los Angeles and in other American cities but here at Prince Rupert we could not get even a station as big as a packing case. The expenditures in the States were useless and the money might better be expended in fishery. The only advantage in the present policy was that it was a magnificent opportunity to furnish jobs. It was no wonder the railway was broke today.
Mr. Sterk referred to the working of the Government press bureau at Ottawa. The present leader had been chosen in a democratic way and he was worthy of their support.

probably have come here. Short speeches were made by several others and the meeting then adjourned.

17:14 p.m., 17.9 feet.
Low, 10:41 a.m., 1.9 feet.

Low, 11:31 a.m., 6.1 feet.
23:32 p.m., 9.1 feet.

The time used is Pacific Standard, for the 120th Meridian west. It is counted from 0 to 24 hours from midnight to midnight.
The table given is for Port Simpson but the time for Prince Rupert varies only a few minutes on some days and on others is the same. The range of the tide may be computed as 5 per cent greater at Prince Rupert than at Port Simpson both at springs and neaps. Therefore the rise in the Prince Rupert harbor is slightly greater than Port Simpson.
The height is in feet and tenths of feet above the average level of lower low water.

GERMAN WHO PLOTS TO BRING MONARCHY

Hugo Stinnes, Owner of Chain of Newspapers Pulls Strings
LONDON, Mar. 30.—Hugo Stinnes, generalissimo of German industry, recently accused of plotting a strike of several hundred thousand workers in the Ruhr district to make more difficult the Allied occupation of Düsseldorf, Duisburg and Ruhrort, is referred to by the Berlin correspondent of the Times as "an earnest and dangerous patriot."
Stinnes, a multi-millionaire member of the Reichstag, has put through some of the greatest financial deals of his career since the armistice. He has been called "a relentlessly efficient calculating machine." It has been said that he would sacrifice every mark of his enormous fortune to bring back the monarchy.
Mine-owner and coal merchant, ship-owner, landed proprietor, head of a great chain of newspapers, proprietor of the finest hotel in Berlin, trader in oils, paper, hides, jute, peat and manufactured wares of many kinds, Stinnes, the Times correspondent says, "is today the wealthiest, most influential, best known, and at the same time the least well-known man in Germany."
Publicity and notoriety are alien to him, it is stated, and it is stated, he prefers to remain behind the curtains in the Reichstag, permitting his henchmen and lieutenants to do the talking while he pulls the strings.

SIMPLON TUNNEL TO BE COMPLETED BY THE END OF JULY

GENEVA, Mar. 30.—The second Simplon tunnel under the Alps between Switzerland and Italy will be completed by the end of July, engineers say. Railroad traffic will be diverted through it immediately and repairs made in the first tunnel, opened 30 years ago. Both will be used sometime in 1922.
The first tunnel 4 1/2 miles long, cost £2,940,000. The new bore will cost only about one-third that amount. Construction was begun before the war, but work was abandoned because the workmen were nearly all mobilized. Half-way through, sulphuranean boiling springs were uncovered and many workmen were killed.
