HEART OF CHICKEN THAT NEVER LIVED CONTINUES TO BEAT

NEW YORK, Mar. 30.—Dr. Alexis Carrel, who is to sail for France soon, will leave at the Rockefeller Institute laboratories one of the surgical marvels of the age. It is the heart of a chicken that never lived, although its heart, which was removed from the embryo in 1912, still beats and adds to its tissues in a special container. The organ has been nourished artificially for eight years.

Long before the war Dr. Carrel startled scientists with the announcement that he had kept organs of animals' hearts alive for months immersed in a special antiseptic solution, and that these portions, after a comparatively short time, surrounded themselves with living cells and grew to more than sixty times their original size.

Dr. Carrel was awarded the Nobel prize in 1912 in recognition of his surgical achievements, notably the transplantation of organs and the suture of blood vessels.

TORONTO PARSON IN FAVOR OF DANCING

Says It Always Has Been and Always Will Be, but should be Controlled

OTTAWA, Mar. 30.—In the last of a series of sermons at the First Congregational Church here, Rev. Dr. Byron Stauffer of Toronto expressed himself in favor of dancing but expressed the opinion that it should be controlled.

In a recent controversy in Toronto over the matter of dancing he had shocked some religious people by declaring that dancing always had been and always would be. But modern dancing needed controlling in three ways. There must not be too much time devoted to it, there must be no improper sexual suggestions and it must be conducted in proper associations. The church could not suppress the life of young people; it must regulate the young people's amusements. So long as the three conditions he had laid down were fulfilled he would give dancing his support.

Take Care of That Cough

Some people get a nasty cough and don't pay much attention to it, saying, "Oh, it will wear away in a short time," but while it may wear off, serious injury may have been done to the lungs and respiratory organs by the prolonged, harsh, racking coughing.

On the first sign of a cough or cold get a bottle of Dr. Wood's Norway Pine Syrup. It will stop that nasty, troublesome cough, ease the tightness across the chest, and loosen the phlegm.

Mrs. Wm. Earnshaw, Apsley, Ontario, writes:—"Last winter I caught a bad cold, had a sore throat and a terrible hacking cough that I could not get rid of. I could not sleep at night. I tried quite a few remedies, but they did not do me much good until I got Dr. Wood's Norway Pine Syrup. By the time I had taken two bottles, my cough was all gone. I feel that "Dr. Wood's" has no equal."

When you get Dr. Wood's Norway Pine Syrup, you are not experimenting with new and untried remedy, but one that has a reputation extending over thirty years. Put up in a yellow wrapper; three pine trees the trade mark; price 35c and 60c, a bottle, manufactured only by The T. Salbourn Co., Limited, Toronto, Ont.

GERMAN EMIGRANTS RUSH TO ARGENTINA

Four Hundred on First Vessel Flying German Flag to Visit Country

BUENOS AIRES, Mar. 30.—Four hundred German immigrants came to Argentina a few days ago to seek their fortunes anew on board the first passenger vessel flying the German flag which entered this port since the beginning of the war. The majority of them were members of the former German middle-class and about 80 were officers of the German army, but few are understood to have possessed any capital with which to start life afresh. Most of them were counting upon prompt employment to provide them with livelihood. The same vessel landed about 300 German immigrants in Brazil and a smaller number in Uruguay. It is understood that this was the first of several steamers which are to bring contingents of German immigrants to these shores.
