

Getting Out Railway Ties from Camps along Railway

Approximately two hundred and fifty men are being employed by the Hansen Tie and Timber Company making ties and other timber requirements for the Canadian National Railway Company between Prince Rupert and Endako this winter. This company, of which Olof Hansen of Prince Rupert is the head, is the main company participating in the railway business this year, and it has contracts for 250,000 ties, about half the quantity cut last year. The 250 men engaged in the work comprise settlers who cut the ties on their own lands and skilled tiemakers who are engaged in the camps of the company. Of the 250,000 ties, 150,000 are being put out by the settlers and the balance, 100,000, in camps.

The company has three tie camps, one at Quick and another at Walcott Station, both of which points are located about 250 miles east of Prince Rupert. The third camp, and the largest, is located near Decker Lake, 311 miles from Prince Rupert. About 50,000 are being cut at Decker Lake, and the remaining 50,000 between the two camps at Quick and Walcott which, being close together, come under the same camp management.

The actual tie cutting for the present contracts is now about finished and as soon as the frost comes and the snow and grounds become solid the work of hauling them out on sleighs to the railroad will commence. The cold weather has been unusually late in coming this fall and the ground is still soft and muddy, little snow having fallen yet.

Forty Tie Makers.
In the Decker Lake camp forty tie makers have been employed and between the two camps of Quick and Walcott there have been thirty-five. With the finishing of the requirements these men will be replaced and the teamsters and the helpers for the hauling work will take their places. Five teams will be used at Decker Lake and five between Quick and Walcott, about forty men, evenly distributed, being needed to carry on the hauling. As soon as this work is done the camps will be closed. This will likely be about March or April.

The Walcott tie camp is located right on the railroad track about three miles west of the station. The Quick camp is three miles west of the station of that name and is about one mile south in the bush from the track. The Decker camp is

HALIFAX EXPLOSION WRECKED HER NERVES

The reader will, no doubt, remember when a few years ago there was a collision in the Halifax, N. S., Harbor and one of the merrymen was blown up, causing great loss of life and laying a large portion of the city in ruins, and causing a great deal of suffering and distress among the inhabitants.

Mrs. Windfield Hill, now of Windsor, N. S., was living in Halifax at that time and went through this trying experience and the shock wrecked her nerves. She writes as follows:—"I was living in Halifax at the time of the explosion, and it wrecked my nerves so that I could not do my housework. I would take such nervous spells I would be under the doctor's care. I saw Milburn's Heart and Nerve Pills advertised, so I took two boxes, and they helped me so much I took six more, and now I am completely relieved. I can recommend them to anyone suffering from heart and nerve trouble."

To all those who suffer from nervous shock we would recommend our

MILBURN'S HEART AND NERVE PILLS
as the best remedy to tone up the entire nervous system and strengthen the weakened organs. Milburn's Heart and Nerve Pills are the original heart and nerve food, having been on the market for the past 27 years. Price, 50c a box at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

LAND ACT.
PRINCE RUPERT LAND DISTRICT—DISTRICT OF COAST RANGE 5.
Take notice that I, John Lockhart, of Vancouver, occupation consulting engineer, intend to apply for a license to prospect for petroleum and natural gas on the following described lands: Commencing at a post planted at the N.W. corner of Lot 439, thence west 80 chains, thence north 80 chains, thence east 80 chains to point of commencement, containing 640 acres, more or less.

Is It Worth 150 Cents?

"Money can't buy anything else like this wonderful herbal Zam-Buk. It's simply priceless!" says one enthusiastic mother.
For injuries, Zam-Buk is the indispensable ever-ready healer. Where there is any skin or scalp disease, Zam-Buk is magical in extracting germs and poisonous impurities and growing new healthy skin. Being prepared exclusively from pure refined herbal essences, all highly concentrated, Zam-Buk retains its medicinal virtues indefinitely. It never goes rancid and useless like fatty savives and ointments do. Yet, while so much "cosmetics" are sold, the real, herbal Zam-Buk costs no more to buy.
From Stadacona St. Montreal, Mrs. Villiers writes:—"For healing, give me Zam-Buk! It is the finest thing I know. It saved me from a poisoned hand, rid my three children of scab sores, and healed my husband's badly crushed finger. We won't do the world if it's any price."
Get a 50c. box to-day, or for FREE SAMPLE, mention paper and enclose 1c. stamp to Zam-Buk Co., Toronto.

to an office that has been built near the station. J. Erickson is foreman of the Quick and Walcott camps and P. M. Olsen is timekeeper. These men comprise the management staff of the Hansen Tie and Timber Co.

VANDERHOOF

Armistice Day was celebrated in great style in Vanderhoof. In the morning the school children paraded and were addressed by Rev. George Gray. In the afternoon there was a cabaret and in the evening a great masquerade ball.

Dr. J. W. Frank, Dominion government veterinary surgeon, chief of the department for this province is touring the district inspecting cattle and hogs.

William J. Milne left last week for Vancouver by automobile. He will return in the spring.

A quiet wedding took place recently at the home of Mr. and Mrs. A. W. Brain when Miss Lily Birk became the bride of Isaac Hechtel Jones. Rev. Geo. J. Gray performed the ceremony.

E. A. Mitchell left last week for Vancouver where he expects to spend the winter months recuperating from his lengthy illness.

Settlers Get Work.
The settlers, who are given first chance on this work, cut ties on their lands and deliver them to the railroad track. About 10 are engaged in the work between Smithers and Endako this winter and 16 or 17 between Pacific and Smithers. The usual cut of each settler is 2,000 ties but some will help cut more. They are paid 50c for first class ties, 40c for second and 20c for third class or culis. The tie makers in the camps, who are employed on the piece work basis, receive 17c per tie, the delivery of which, of course, the company is responsible for. These men pay 81 per day for board and sleeping quarters in the camps.

Besides the tie cutting contracts, the Hansen company is also supplying the railway company and others this winter with poles and piling. There is one pole camp located at Carnaby, 180 miles from Prince Rupert. This camp is not directly conducted by the Hansen company but is run by a subcontractor, Frank Griffin being one of the principals.

Tie Officials.
The head office of the Hansen Tie and Timber Co. is located at Smithers, where H. G. Olsen, the general manager of the office business, is located. Harry Orme the superintendent of the work east of Smithers, and Austin Goodenough, western superintendent, also make headquarters here although they spend the most of their time travelling backwards and forwards between the various scenes of operations. Gus Lindstrom is foreman of the Decker Lake camp and John Bergman, well known in Prince Rupert, is timekeeper. The latter is at present located in the camp in the woods but when hauling commences he will move
