**LUMBERMAN OPTIMISTIC**

F. G. Brynolson, Who Returned Yesterday, Says Market Is Improving.

F. G. Brynolson of the Northwest Spruce Co. of this city, who returned from the south yesterday after taking part in the salvaging of the Canadian Exporter, says the lumber market is improving. Enquiries are much more frequent for Australian deals and Atlantic rough spruce for delivery at the Atlantic seaboard. Tidewater mills are practically all selling for export and prices are stiffening. Most of the mills in the south are shipping to Japan and China, with frequent shipments to Australia and an occasional cargo to England.

Prairies and other interior business continues very quiet, but it promises to be a lot better in the spring. The low price of wheat seems to be responsible for the lack of demand, the farmers holding their wheat in the hope of prices stiffening.

There is prospect of improvement in the northern tidewater spruce business. The Sitka spruce of the Queen Charlottes is far superior to that being shipped from Grays Harbor and Willapa Harbor at the present time.

**PEPS**  
THE REMEDY YOU BREATHE

patients, suffering from acute throat or lung troubles, to get away from the cities to the pine-forest mountain resorts, and there live in the open-air as much as possible. Why? Because there is a wonderful exhalation from Pine trees, which, breathed into the lungs and air-passages, heals, strengthens and reinvigorates them.

To-day, by the wonderful aid of Science, these volatile fumes and other medicinal agents are compressed into unique breatheable tablets known as Peps. These bring the healing pine forest air into your own home. You strip Peps of their silver wrappers and dissolve the tablets in your mouth. The germicidal air-like medicine which is liberated is carried with the breath into your air-tubes and lungs where it quickly stops the most troublesome cough, relieves soreness and tightness, and soothes and heals the inflamed bronchial tubes.

Peps are the *dux* of scientific treatment—the remedy that has revolutionized treatment of coughs, colds, chills, bronchitis, and all soreness or irritation of throat or chest. 50c. box, 3 for \$1.25.

**PRESBYTERIAN WOMEN HEAR ABOUT STARTING OF P.T. ASSOCIATION**

Mrs. Hall Read Interesting Paper at Meeting of Newly Formed Club Yesterday.

The newly organized Presbyterian Club met in the Manse yesterday afternoon and listened to an interesting paper delivered by Mrs. Hall on "Parent-Teachers' Association." Mrs. Jarvis McLeod sang a solo and Miss Lorna Tate rendered a piano selection, "Autumn." There were 28 ladies present and Mrs. T. H. Hooper, the president of the club, was in the chair.

In her paper, Mrs. Hall explained the aims of the Parent-Teachers' Association and the great success which had attended the organization of such societies in other cities. She also told how they were organized and expressed the belief that such an organization here would be very beneficial. As such organizations were entirely non-denominational the club did not act on the matter. It is open for the parents and teachers of the city to organize if it is thought advisable. Mrs. Hall volunteered to assist in any way possible if organization is proposed with.

The officers of the Presbyterian Women's Club are as follows:

President, Mrs. T. B. Hooper.  
Vice President, Mrs. R. W. Grieve.  
Secretary-Treasurer, Mrs. J. Greer.

Committee conveners—Advisory, Mrs. H. R. Grant and Mrs. G. A. Eggert; stragulars, Mrs. A. R. Holtz; membership, Mrs. G. E. Starr; tea, Mrs. A. M. Manson and program, Mrs. L. W. Keegan.

**IMPROVEMENTS TELKWA HALL**

Being Extended to Provide Stage—Interior to Be Plastered.

TELKWA, Nov. 17.—Extensive improvements and alterations to the community hall here are under way. The back of the hall is to be torn out and 14 feet added to its length. A stage will be put in, and on either side of it dressing rooms will be built. Besides this the interior is to be completely renovated and it will be plastered, its appearance being thus much added to. The lathing work is now going on and the materials for the plaster are already on hand. When the work is done the hall will be one of which the shareholders and the community at large may be justly proud.

**DEBORA LOST AT SQUADEREE**

Two Fishermen, Fred Miller and Jack Williams Have Narrow Escape.

**ALL BELONGINGS LOST**

Lived For Seven Days on Raw Clams in Rain with Only One Blanket.

After losing their boat and almost losing their lives living on raw clams for a week and having generally a hard time, two fishermen, Fred Miller and Jack Williams, arrived home yesterday evening, having been away from Prince Rupert since September 30 and yet scarcely out of sight of Kaich Mountain. The boat on which they sailed, the Debora, is broken up and the belongings of the fishermen are gone.

Miller and Williams left here on Sunday, September 30, for the halibut banks in the Debora, a 30 foot boat owned by J. Ryan. The weather was bad and they did not get very far by Tuesday. Then they had to run for shelter. They struck a rock just this side of Anderson's harbor and immediately the boat began to fill. One of the men realized the situation at once and rushed into the cabin for a blanket, gun and can of matches. There was not time to get food or any of their belongings. The boat sank and broke up, and they took to the skiff, rowed ashore and camped in the rain.

**Wear Seven Days.**

After a cold and weary night the two fishermen rowed to Squaderree harbor, thinking to find a fishing boat in the neighborhood but nothing was in sight. For seven days they waited, eating nothing but raw clam and not daring to trust themselves to the sea to return to their skiff owing to the bad weather.

On Wednesday of last week the weather was better. It was the day the Canadian Britisher had her trial trips. Miller and Williams could see her, and wished themselves aboard, taking a shift in her dining room or galley for half an hour. However no one could see them. There was nothing for it but to row their hardest. It took their nine hours of hard rowing to reach Lucy Island. They were in an exhausted condition when they arrived but they went to the lighthouse where Mr. and Mrs. Lock looked after them and yesterday the Birnie came along with provisions for the light house and the two marooned fishermen were taken by her to Melakatta, from which point an Indian brought them home to Prince Rupert.

**Formerly Trolling Boat.**

The Debora was formerly a trolling boat but had just been converted by the two fishermen for halibut fishing. It was her first trip. The men had a terrible time on the island with only one blanket between them and it raining almost all the time. The nights were long and sleepless and the days not much better. Naturally they are glad to be back in Prince Rupert.

**QUALITY CLEANLINESS**

It's Better when Baked by Electricity!

**PIMPLES ON FACE**

DIDN'T LIK TO GO OUT

Those nasty little pimples that break out on the face and other parts of the body are simply indications that the blood is out of order and requires purifying.

There is only one way to get rid of his obnoxious skin trouble, and that is by giving the blood a thorough cleansing which can best be done by that old reliable blood medicine

**BURDOCK BLOOD BITTERS**

and when the blood is purified the pimples will vanish and you will have a clear, healthy complexion.

Miss Mary E. Flanagan, R. R. No. 3, Stella, Ont., writes—"I suffered for about two years with pimples and blotches breaking out on my face. The doctor said it was caused by bad blood. My face was so bad that I didn't like to go out among a crowd of people. One day I was talking to a friend, and she advised me to get a bottle of Burdock Blood Bitters and try it. I just took three bottles, and there was not a blotch or pimple of any kind left. Some of my friends asked me what I had used and I said, 'Burdock Blood Bitters' chased them."

B. B. B. has been on the market for the past 45 years, so you are not experimenting with some new and untried remedy.

Put up only by The T. Millar Co., Limited, Toronto, Ont.

**CHANDLER CAR WAS DESTROYED BY FIRE**

Fred Miggins' Machine Backfired With Disastrous Results in Westview This Morning.

Fred Miggins' Chandler automobile was destroyed by fire at the corner of Moresby Avenue and Seventeenth Street, Westview, at 10 o'clock this morning. The car had recently been repaired and it was taken out for a trial. Backfiring, it became ablaze and was soon a wreck. The fire department was called to the scene.
