## Pyorrhea

Pyorrhea is a disease of the dental tissues. It is recognized by soft spongy gums which bleed often on the slightest provocation. Pus is also present, which is not only allowed, but absorbed by the blood and carried to all parts of the body. This produces a toxic effect, some of the symptoms being headache, lassitude and general debility. Lesion of the heart and kidneys are other effects which it produces, while Rheumatism is often accounted for by the presence of Pyorrhea.

## To Be Dyspeptic Is to be Miserable

The poor dyspeptic suffers, untold agony after every meal, and any one who has dyspepsia knows what joy it would give to eat three square meals a day and not be punished for it after. Nearly everything that enters the weak stomach acts as an irritant, and even the little that is eaten causes such torture and is digested so imperfectly that it does little good.

Before you can eat heartily, and not pick and choose your food, you must put your stomach into such a condition that it will manufacture its own digestive ferments.

For over forty years Burdock Blood Bitters has been toning up and restoring weak stomachs to a normal healthy condition so that the food no longer causes distress, but is thoroughly digested and assimilated, and enables one to partake of all the wholesome food required without fear of any unpleasant after effects.

Mrs. Alice Beckwith, Fesserton, Ont., writes:—I have been a great sufferer from indigestion and dyspepsia for several years. I could not eat anything without almost dying from the pain in the pit of my stomach, seeing Burdock Blood Bitters highly recommended I tried a bottle, and can gladly say it relieved me. I can eat anything now, and am in perfect health.

B. B. B. is manufactured only by The T. Milburn Co., Limited, Toronto, Ont.
