

PEPS

will promptly STOP Your CHILD'S COUGH

When a child starts coughing, mother's duty is to give the little sufferer a Peps tablet, and thus prevent any weakening of the lungs. As the tablet dissolves in the child's mouth, the soothing medicinal fumes given off pass through the tender breathing passages straight to the lungs and bring immediate comfort and relief.

Peps contains no opium or other harmful drugs, and can be given to a child (either whole or crushed to a powder) with the assurance of absolute benefit.

One little Peps at night will clear the breathing passages and let the little one's sleep be unbroken by coughing fits. A Peps before starting for school in bad weather is also an invaluable safeguard for the children's throats and chests. All dealers, 50c. box.

STRIKE INQUIRY AT EDMONTON

Coal Sold at Mine Cheaper Than Drumheller—Wages Paid.

EDMONTON, Jan. 18.—Testifying on oath before the commission investigating the wage dispute in seven mines in the Edmonton district, Jas. C. Dunn, manager of the Great West Coal Co., stated that in speaking to Mr. Ryan who had come into this district to organize the United Mine Workers, the latter had stated to him that they were going to organize this field if it cost \$50,000 and also had said: "Your coal is competing with Drumheller coal in the Winnipeg market and we are going to put a stop to that."

The witness further stated, in giving details that led up to the strike, that on the morning of November 25, they had found a picket of approximately one hundred men from the mines across the river. This picket had intercepted the men as they were going to the wash house and there were also some inside the wash house.

Output of Mine.

Regarding the output of the Great West Coal Co., Mr. Dunn stated that they mined about 100,000 tons a year and were employing a staff now of about 140 men, while in the summer time this was reduced to 50 to 60 men, but they usually kept running all summer. As to the probable continuation of their present work, they hoped to continue another day or two now, as the present storm helped their orders to a degree. They had been in operation 10 years and this was the first time they had had a strike. Any other differences with the employees had been settled inside of twenty-four hours. He was confident that the men were satisfied until there was outside interference.

Question of Wages.

As to wages, the lowest paid men were laborers, who received 57½¢ an hour and worked eight and nine hours a day. Drivers received \$5.35 and men on day wage \$5.65 for eight hour day. In continuation of this theme, Mr. Dunn gave the wages for 38 men most of whom were employed continuously in the mine, and at the rate paid since the raise last June, and on a yearly basis of what they had earned during the last six months of 1920, the wages ranged from \$3,025 to \$1,887.

Price of Coal.

They received \$5.25 at the mine for their lump coal, as against \$6.68 which Drumheller received for theirs. The coal from his mine was put on the market in Winnipeg at \$13.75 as against \$14.50 for Drumheller and the freight rates were practically the same. They had been staggered at the loss they had had to suffer in their Winnipeg sales office.

STEAMSHOVEL MEN TO GET WAGE INCREASE

TORONTO, Jan. 18.—The engineers, firemen and crane men on eastern lines of the Grand Trunk Railway and Canadian National Railways will probably receive 15 per cent increase in wages shortly according to an announcement of H. O. Jarman, secretary of the local union of the International Brotherhood of Steamshovel and Dredgemen.

EDMONTON EXPECTS NEW STATION AND ROUND HOUSE SOON

EDMONTON, Jan. 18.—That the coming season is bound to see some activity in Edmonton in connection with the Canadian National railways depot and shops is the assurance given to Mayor Duggan by A. E. Warren, general superintendent of western lines, and R. H. Bell, district freight agent, who called on him on Wednesday morning.

The railway officials are reserved in their statements as to what may be done, but it is highly satisfactory to the citizens to know that the government proposals in regard to the lines at Edmonton embody "enormous plans" in the way of extensions. The plans are so large, it is admitted, that it takes them altogether out of the realm of the ordinary management of the line and places them in the hands of the president and the government for the purpose of making arrangements for financing.

The amount of work in Edmonton in the year will depend upon this question of financing and how it is to be treated by the government.

The Man in the Moon SAYS—

A PITTSBURGH clergyman is refusing to marry people in the evening because of the scantiness of their attire on those occasions. He might insist on an opera cloak.

ZERO is a word that is difficult to understand at Prince Rupert.

AMONG the things that won't get you anywhere is wondering what won the last election and what lost it.

ANOTHER thing that won't get you anywhere is wondering when Meighen is going to the country.

AND yet another thing that won't get you anywhere, except down under, is skating on thin ice.

A CORRESPONDENT to a Winnipeg paper wants to know if the term "mean temperature" is merely a local term used round that city.

LUKE is responsible for the remark that it is none of his business, but the world wouldn't be missing much if every skinny girl would fasten her waist up over her more or less perfect 36.

IF people followed the instruction of Moses or Ben Franklin or somebody when he suggested being neither borrower nor lender, how would the banks live and how would the bills get anybody to bill?

"SOMETHING real nifty in shoes" wrote the advertising man after seeing one of the sweetest little footsies pushed into one of the firm's regular threes.

SOME people have the gift of the gab. That is why it is so bad. If they had bought and paid for it honestly, it might not be a nuisance to everybody.

THE reason some people want to go tobogganing is because it gives them an excuse to yell.

PRINTERS RETURN AT OLD WAGE RATE

Demand for Ten Dollars a Day Refused But \$40.50 a Week is to Be Paid.

VANCOUVER, Jan. 18.—The commercial printers' strike is settled so far as the big shops are concerned and the men have returned to work on the basis of \$40.50 a week for a 48-hour week. Negotiations commenced several months ago with a view to a settlement before the end of the year. The employers are said to have informally offered \$15 a week but the unions refused it. As it became more and more evident that the cost of living was coming down the employers offered to sign up on the old basis of \$40.50 but this was refused. The newspaper offices arbitrated and the award was that they continue at the old rate. Men employed in the job offices refused to accept that rate or to arbitrate. They asked \$60 a week for a 42-hour week, and a strike followed. The employers decreased their offer to \$38 but have now agreed to pay \$40.50, the same as last year.

SKATING ENJOYED AT MORSE CREEK

Many Out During Both Afternoon and Evening—Ice Just Fair.

Skating was the popular sport yesterday. In the afternoon a number of people, especially boys and girls, were at Morse Creek enjoying the fun. A stretch of ice was swept off and it made a pretty fair rink.

In the evening there were about fifty people on the ice, and there was a great display of fancy skating. A few rough spots and humps in the ice had a marvellous effect in proving the skill and agility of the skaters.
