

### G. H. ARNOLD, Notary Public

FIRE INSURANCE is a hobby of ours. We take keen pleasure in making sure that all policies are so written that they cover your property exactly as you intend. If you entrust your fire insurance to careless, inexperienced or ignorant agents you may find, when you come to collect your fire loss, that your policies are so worded that the insurance company is not liable, and so will not pay the loss. Why take chances?

## AMAZON ARMY DRIVES MINERS FROM WORKING

Threw Red Pepper, Bricks and Stones and Acted Like Tigresses.

TOPEKA, KANSAS, Dec. 16.—The Grand correspondent tells of riots in the coal fields near that city. An "Amazon army," throwing red pepper, bricks, stones and lumps of coal, swept through the southern Kansas coal fields, mobbing five mines and forcing miners to quit work. Skirts and shawls flying, the women, wives and relatives of "rump" strikers, swept down upon the mines and in to any instances put miners to flight with their fists.

Fiercely, like tigresses, the women clawed and in some instances used their teeth on miners who failed to heed their warning cries of "Get out of here, you dirty traitors."

Several miners were bruised by missiles, others were almost blinded by the shower of red pepper. Between three and four hundred men working at the mines were driven from the shafts by the fierce onslaught of the women who shouted threats, sang, and used bricks and stones actively whenever a miner was reluctant about dropping his tools.

**Men Watch Wives**  
Hundreds of strikers, husbands and relatives of the women, watched the attacks, warning the working miners not to "hit or shoot back."

The women mobilized before dawn at Franklin and other "radical" mine centres. They were organized in three groups under three leaders. Each group of from between 100 to 500 militant feminine fighters, waving fists, descended upon the miners. Sheriff Gould and his deputies were powerless to stop the onslaught on the mines, where as a rule miners dropped their dinner pails and tools and fled. At Gould's office today it was said

*Ask the Cigar Clerk to show you a "Lavello" cigar. Try one. Take another. Hand the clerk two bits.*

no extra deputies would be sworn in in an effort to stop the attacks, as "You can't get men to go into this sort of thing."

That state troops may be asked for or called out was also regarded as doubtful. Any attempt of a body of men to stop the militant women would bring onslaughts from husbands and fathers in force, with bloodshed, it was feared.

**Strikers Jubilant**  
"Rump" miners who are striking because Alexander Howat, Kansas mine chief, who has been ousted from the United Mine Workers of America for refusing to halt outlaw strikes, is in jail for violating the Kansas industrial court, were jubilant over the success of the women in keeping men from work.

### KING OF DENMARK IS DECEIVED BY CONVICT

LONDON, Dec. 15.—An amusing story of the King of Denmark's recent visit to Greenland, was recently told by M. Aagaard of the Danish legation, to members of the Danish Club in London.

As the royal yacht was approaching Greenland a dark speck became visible on the open sea. It proved to be a solitary Eskimo in his little kayak (native canoe). The Eskimo came on board and his loyalty in having braved the perils of the sea in such a frail craft assured him, needless to say, the warmest welcomes. The King presented him with a cigar and, what the Eskimos most highly prize, a rifle.

On landing, the King described the incident to the Danish Commissioner in Greenland and asked who the man was. The Commissioner, in accents of horror replied: "The man's an escaped convict. He broke prison yesterday, stole a canoe and out to sea. We thought he had been drowned."

W. Barr, forest ranger, who was the chief witness for the crown in the Holmes murder trial, sailed for Vancouver on the Prince Rupert last evening.

Advertising is often expensive and it is nothing like as expensive as an empty store and idlers.

### Do Your Bowels move regularly, or do they become constipated

There is no medium through which disease so often attacks the system as by allowing the bowels to become constipated, and there is no other trouble that flesh is heir to that is more liable to be neglected, because material inconvenience may not be felt at once, from irregular action of the bowels. When there is not regular action the retention of the decayed and offensive matter, with its poisonous gases, soon poisons the whole system by being absorbed into it, causing violent sick and bilious headaches, internal bleeding or protruding piles, heartburn, jaundice, etc.

**MILBURN'S LAXA-LIVER PILLS** will regulate the flow of bile to act properly on the bowels, thus making them active and regular, and removing the constipation and all its allied troubles.

Mr. Samuel Barker, Talamagouche, N. S., writes:—"For over a year I suffered with constipation. I took several different kinds of medicine, but could only get temporary relief. I was told to try Milburn's Laxa-Liver Pills. I procured two vials of them, but after I had taken one I found that I was relieved of my trouble. I do not hesitate to recommend Laxa-Liver Pills for any kind of constipation."

Price, 25c a vial at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

### BUFFALO HERD IS VERY VALUABLE NOW

Robes Worth \$100 Apiece and Heads More Valuable Still.

WAINWRIGHT, Dec. 15.—With the buffalo in the government park numbering more than 5000, and with prospects of the herd, now the largest in the world, eventually outgrowing the 100,000 acre park, the Canadian Government is seeking ways to commercialize the surplus animals.

There is an excellent market for buffalo meat. All the buffalo the government cares to kill can be sold at fine prices in both Canada and the United States. Some of the surplus bulls, it is said, will be killed this winter for the market.

Buffalo robes, the Dominion park commission says, command a price of \$100 a piece. They are remarkably durable, and even with the hardest service will last for years. Buffalo robes were in common use fifty years ago when the remnants of the once great herds were still in existence. Now with the source cut off by the almost complete extermination of the bison, they are rarely seen.

**Market for Heads.**  
Mounted heads sell for \$125 to \$250. The latter price was obtained for several recently in Montreal. If several hundred buffalo are killed annually, however, the head market will soon become overstocked.

Experiments have been made in tanning buffalo hides. This may be developed, it is thought, into an important industry, as the leather is tough, pliable and, it is claimed, practically waterproof. The wool which the animals shed every spring has been manufactured into a strong cloth fabric which has industrial possibilities, although of a restricted kind. The wool is gathered up from about the park but it is believed it may be practicable to shear the buffalo annually like sheep.

Wainwright Park is in the heart of a region once roamed by trappers of the Hudson's Bay Company, now selling the last remaining lands of its old empire to farm settlers. The park was stocked twelve years ago with 210 animals purchased in Montana from Michael Pablo, a Flathead Indian.

With our Bread every taste gains in sweetness. You know how it is. With some sweets you like to swallow them down quick. Others are such a treat to the palate you hate to let them go.

### Good BREAD

belongs to the second class. You want to keep on chewing it because it is worth chewing. Insist on our bread—the bread with the bread taste
