Much Interest In Coal Bunkers.

Much interest was taken last evening in the further announcement made in regard to the building of coal bunkers here, the preliminary steps in which were mentioned by the Daily News before the Christmas holiday, on Mr. Stutchbury's former visit to Prince Rupert and backed by an interview with Capt. Nicholson and Mr. Walton who also have taken a keen interest in the matter.

The erection of bunkers means a good deal to this town. It means that boats will call here, which otherwise would stay away. It means that a great deal of money will be spent here, which otherwise would go elsewhere. It means more employment on the waterfront and is one of the important steps in inducing industries to come here and in making this an industrial and shipping centre.

One of the arguments against making this the headquarters for ocean steamships was that coal was too expensive. With the erection of bunkers and the delivery of good steam coal here at about eight dollars a ton suitable for bunkering or general industrial purposes, there is every inducement for the northern boats to call here to purchase coal and for the industrial concerns to purchase their supplies at or through this port.

The fact that the Alberta Government is backing the proposal will give it strength and it is now practically assured that the bunkers will be erected this spring.

When Shall We Be An Important City?

We shall be an important city when we make it such. Everything depends on the citizens. If they are petty in their outlook, we shall have a peanut city with a tribe of peanut politicians who will play petty politics. We have to get away from such a condition. We cannot look to governments or to other outsiders for our success. We must get busy ourselves and make things move. Each citizen should ask himself what he is doing to make this a bigger and better city, rather than to stand at the street corners and criticize others who are trying to do something.

Are you doing anything? If you are not, why not? We are not going to have a city built for us and be made rich in spite of ourselves. We must get down and dig and try to see the brighter side of things. There is a great future for the port, but it will not be tomorrow. The mills of the gods grind slowly and a city to be built permanently must be built slowly and with much tribulation.

Ride on Crest of Prosperity Wave.

It was hoped at one time that someone would build a city here and all would ride in on the crown of a wave of great prosperity and every man would be a Croesus. This has been proved to be a myth. We have to work out our own salvation and sometimes doing so feels like drudgery. There will be no more high prices for real estate until the city is big and prosperous enough to warrant it. Prices here today are twice as high as in bigger cities, in so far as residential sites are concerned. If they go much higher, people will be prevented from coming here to locate. We are probably at a basic price. It is useless to look for any return of the fabulous prices which obtained during the boom days. They have fallen to almost nothing in other cities and this city cannot expect to be an exception to the general rule. Victoria and Vancouver cannot sell a good deal of property for enough to pay the taxes. The same is true on the prairies. Some day it may come back, but it will be a bad day for any city when real estate prices get beyond reach of the workingman who wishes to own a home.

Waiting for someone to make us rich is foolish. Look at things as they are at present and not as they may be if something wonderful happens. The condition to be met is the one which now obtains and, while we expect better things, it is useless to think they will come unless we all put a shoulder to the wheel and help move them along.

PRINCE RUPERT TIDES

Thursday, January 20. High, 10:7 a.m., 20.6 feet. 2:18 p.m., 17.9 feet. Low, 3:36 a.m., 9.1 feet. 10:58 p.m., 4.6 feet. Friday, January 21. High, 11:6 a.m., 21.7 feet. Low, 4:48 a.m., 8.3 feet. 17:53 p.m., 3.1 feet.

The time used is Pacific Standard, for the 120th Meridian west. It is counted from 0 to 24 hours from midnight to midnight.

The table given is for Port Simpson but the time for Prince Rupert varies only a few minutes on some days and on others is the same. The range of the tide may be computed as 5 per cent greater at Prince Rupert than at Port Simpson both at springs and neaps. Therefore the rise in the Prince Rupert harbor is slightly greater than Port Simpson.

The height is in feet and tenths of feet above the average level of lower low water.

"CROOKED STRAIGHT" AT THE WESTHOLME

Charles Ray Pleases Patrons at Big Theatre Last Night

Charles Ray in "Crooked Straight" at the Westholme last night plays the part of Ben Trimble. Ben is an honest boy at heart, but tempted, and, quite human like, falls. He becomes a safe-cracker, as thousands of others would do in similar circumstances. But the good predominates in him and when he is awakened to a realization of the enormity of his offence the good surges to the surface and he comes back with a vengeance. He loves, deeply and sincerely. But he is noble in his passion and before asking the girl to become his life companion he frankly lays before her his past. Then, when the crisis arrives he risks all to save the fortune of her father. He rises to every emergency and proves himself a real hero.

"MARUGA" TONIGHT

H. B. Warner in "Maruga" at the Empress tonight is admirably cast in the role of Harry West, the stranger who going in search of his father, by whom he and his mother had been deserted, to demand an account of his stewardship of his mother's fortune, becomes involved in the machinations of a half-crazed Spanish fanatic. Accused of his father's murder and about to be lynched, he is saved by one of the strangest and most unusual dramatic contrivances ever utilized in drama or fiction.
