DR. KING ON WAY TO TOUR THE INTERIOR

Arrived This Morning and Left on Train After Inspecting Court House.

Hon. Dr. J. H. King, provincial minister of public works, arrived from the south this morning on the Prince Rupert Swimming Club's gala is concerned. Three weeks ago the tide rising high into the Salt Lakes made it impossible to hold the event and both Sundays since have been cold and wet in spite of the fact that both the Saturdays preceding them were ideal days. But the Swimming Club and the swimmers were not the only ones who bemoaned the inclement Sundays for picnickers and campers were hit too and even the good church-goers perhaps might have liked it better had the fates been a little kinder from the weather standpoint.

With several of their older and former players rallying to their side, the Callies were able to stand the Sons of Canada off in Monday night's Gilluly Cup football game by tying the match with one goal each. Now both teams are saying that if they can draw they can win and already the fans are looking forward to the replay when the two will battle again. Some of the unkind Sons' supporters have been telling around how glad the Scots' die-hards were to even get a tie but, on the other hand, some of the other Sons' men are worrying just a little bit and, to say the least of it, they have a good deal of respect for some of the old pioneers who are now appearing for the Callies and to whom victory would not be anything new. There is a natural rivalry between the Canucks and the Scots which will make this game one of the most interesting of the series.

Local nimrods are beginning to think about getting out their rifles and shotguns from their resting places of the summer for the call of the wild is getting in the blood. At that it isn't so very many weeks now until the peaceful woods will give place to the more powerful gun and the banks will be forsaken for the hills. On September 10, the season for ducks and geese will be open and a week later, September 17, it will be lawful to pursue the wily and fleet deer. Those who have tramped the woods during the past few weeks say the prospects are that the deer will be just as plentiful as ever and lots of them have been seen.

Think of all the prominent firms whose products you see in the stores and ten chances to one every firm will be a daily newspaper advertiser. They know it pays.

Sport Chat

It would almost seem that Providence has taken sides with the anti-Sunday sports as far as the Prince Rupert Swimming Club's gala is concerned. Three weeks ago the tide rising high into the Salt Lakes made it impossible to hold the event and both Sundays since have been cold and wet in spite of the fact that both the Saturdays preceding them were ideal days. But the Swimming Club and the swimmers were not the only ones who bemoaned the inclement Sundays for picnickers and campers were hit too and even the good church-goers perhaps might have liked it better had the fates been a little kinder from the weather standpoint.

KENNEDY'S COLTS TO VISIT BURNS LAKE

BURNS LAKE, Aug. 24.—Kennedy's Colts from Smithers are expected here on Sunday to play the local baseball team. The teams are said to be evenly matched and a good game should result.

INDIAN DRINK WAS OF HIGH STRENGTH

Peter Ryan of Metlakatla Made Some that Registered 8 1/2 Percent.

Peter Ryan, of Metlakatla, appeared in court this morning before Indian Agent Perry, charged with having intoxicating liquor in his possession and was released on suspended sentence. The arrest was made at North Pacific Cannery. It appears that Ryan had been brewing some of the Indian national beverage "soopalla," a frothy mixture made out of berries and used commonly by the Indians of the north. The refreshment had reached a high state of fermentation, 8 1/2 per cent in fact. Ryan was let off with a warning to not break the liquor laws.

URGES BURNING DOWN OF CITY

Astrakhan so Filthy Useless to Try Cleaning Up—Million Will Starve.

STOCKHOLM, Aug. 24.—Despatches say the Soviet Commissary in Astrakhan on the Volga has informed the Russian Government that the city is so filthy he cannot combat disease. He asks that the inhabitants numbering over 300,000 be sent to Siberia and the city burned to the ground to kill disease.

Moscow despatches say a total of 30,000,000 people are threatened with starvation in the Volga district and 10,000 of these are children. Whole families are succumbing by asphyxiation to avoid the pangs of hunger.
