PLANNING FINE PRIVATE HOTEL

J. F. Maguire Promoting Erection of Exclusive Boarding House for Non-Housekeepers

A scheme is being promoted by J. F. Maguire, who organized the Terminal Investment Syndicate in 1909, for the erection of a fine big boarding house or family hotel at the corner of Second and Allin Avenues, Section 2. Plans are being prepared and estimates are being asked for. Some of the capital has been subscribed and many persons have signified their desire of being occupants of the new house which would be the finest of its kind in the city.

The lot, upon which Mr. Maguire has an option for the building, is a large triangular corner facing the new Morse Creek bridge. It measures 66 by 66 by 140 feet and will need but little surfacing to put it into shape. It is at the extreme east or city end of Section 2 and is but ten minutes walk from the post office.

Three Storeys
The proposed building will be of three storeys, triangular in shape, to cover the lot with the exception of a lawn in front and open air courts between the wings. There would be 40 or 50 bedrooms, a large dining room and social hall with large fireplace. Each floor would be amply provided with baths and lavatories. In the basement would be the janitor's quarters and, possibly, a billiard hall. The building would be steam heated and nearly all the rooms would face outward. It may be constructed of either frame or concrete.

Long Felt Need
The house would be conducted along the lines of a high class boarding house. There would be a staff of kitchen and housekeeping help and it would be something like a hotel, only more informal and exclusive. It would fill a long felt need in the city for a place where single people or small families could live and at moderate rates avoid the necessity of housekeeping.
The construction of the new house in Section 2 would be a direct result of the putting in of the new Morse Creek bridge which will bring it close to the business section of the city.

BOILS SO BAD HAD TO GIVE UP WORK

From the days of Job, up to the present time, boils have been one of the afflictions of the human race.

All the politicking and tanning you may do will not prevent them from breaking out again.

Boils are simply caused by the bad blood bursting out; and the bad blood must be made pure before the boils will disappear.

Burdock Blood Bitters, which has been on the market for over forty years, is well known as the greatest blood medicine procurable.
It purifies the blood by removing every particle of food matter from the system, and when this is done, the boils vanish, and should never be troubled again.

Mr. James Fahey, Newport Island, Que., writes: "I was troubled with boils on my back and neck, so bad that I was obliged to give up work. I tried several remedies, but got no relief. Finally I went to a doctor, and he treated me for several weeks, and all without benefit. At last a friend told me of Burdock Blood Bitters, so I decided to give it a trial. I got three bottles, but before I had taken two the boils were all gone. It is eight months now, and I have had no return of the old trouble, and have never felt so well."
B. B. B. is put up only by The T. M. L. Co., Limited, Toronto, Ont.

CARRUTHERS RETURNS HERE

Fishing Steamer that was Wrecked is Back After Being Rebuilt.

Spick and span in new paint and with a new ship flag flying from her foremast, the fishing steamer James Carruthers arrived in port yesterday. She brought north a cargo of supplies for the owners, the Canadian Fish and Cold Storage Co., Ltd., and was in command of Capt. Parsons.

The Carruthers, it will be remembered collided with the Surveyor a short distance north of here and was beached. Later she was raised and brought here and decked and then towed to Yarrow's plant at Esquimaux for repairs. Her new ship flag was particularly noticeable yesterday with the name "James Carruthers" on it, and the Canadian flag on the mizzen.

Raymond Hudson returned last night after a month's visit at Hutton Mills.

FOX FURS AT SPRING SALE

Good Prices Obtained at New York But 40 to 50 per cent Below Last Year.

NEW YORK, Jan. 19.—(Special)—The selling of foxes took up most of the second day of the fur auction in the Masonic Hall here. Prices continued to show declines from those obtained at the annual spring sale last April.

The average prices brought by the furs sold today, as compared with the April averages, were from forty to sixty per cent lower. These were the actual percentage declines:

Gray fox, 40 per cent.
Blue fox, 40.
White fox, 47 1/2.
Cross fox, 45.
Australian fox, 45.
Silver fox, 50.
Kolinsky, 55.
Civet cat, 60.

Judged by current market values, however, the prices received today were considered good.

TIPPED CONDUCTOR TWENTY THOUSAND

Story of Loss of Cash and Reward for Finding it at Paris.

PARIS, Jan. 19.—Railwaymen here are telling a story of a passenger who lost £80,000 in a wallet, of two conductors who found it, and of the magnificent reward of £4,000 (£20,000) which they share between them.

One day last week a young American boarded the boat-train to Paris. He had the £80,000 in bills in a leather case. During the journey he put his precious packet in the rack. In the evening the train arrived at Paris just as it was getting dark. An industrious search failed to reveal the whereabouts of the wallet, and the traveller was obliged to give up the hunt, telling two conductors who were helping him that they would get a "good reward" if they brought it to him in the morning.

Contents Intact.
He was as good as his word. One of them found the wallet, with its contents intact, behind the cushions where it had slipped. At the hotel the scene was short and sweet. The owner of the find quickly counted out in front of the amazed eyes of the railwaymen 50,000 francs each, thanked them briefly, and returned to his business. Those lucky and honest men state that they are going to remain in their jobs. One is going to fix up a little business for his wife with the windfall. The other is making a present of it to his fiancée.

A few days ago another traveller lost \$100,000. But this one contented himself with a reward of five francs—two shillings at the present rate of exchange.
