DEVELOPMENT AT STEWART

D. B. Morkill Talks of Premier Mine and Other Properties in the North.

D. B. Morkill, the mining engineer, who is on his way to Stewart for the season, and who addressed the Rotary Club yesterday, spoke of the spirit of optimism which was the spirit of the north. The progress of the Portland Canal country depended on the progress of mining. The bulk of the trade of the district centred in Prince Rupert. On that account the business of the district was the business of this city.

"Things on the surface may look quiet," said Mr. Morkill. "There is, however, a gradual and steady development and Prince Rupert will share in the advance."

Price of Silver.
"Mining activity depends largely on the price of the metals. The price went down last year but this condition will soon be corrected." The price of silver a little over a year ago was \$1.30 an ounce and people said it would never go below a dollar. It dropped to fifty cents and now there are people who say it will never get back to a dollar, but it is steadily moving up and I look to see it go to eighty or ninety cents in the near future."

Discussing the Premier mine, Mr. Morkill said it had turned out bigger than anybody expected. He thought in ten years from now it would be bigger yet. Last season they shipped a million dollars' worth, getting the ore out on sleighs. This was not a silver mine, as many people supposed, but a gold mine. There was rich silver mixed in the high grade. The installation of the huge tramway would make it possible to ship much more ore and lower grade. This mine is the leading property of the district simply because more work has been done on it than on other properties.

Several Premiers.
The season was short at Stewart, that is why it was difficult to get ahead with development fast. No doubt several other Premier mines would be found in the district. Several properties were to work this year on the Salmon River. The Leckie and Tubman and other prospects would be developed on the Bear. The Redcliff mine had been sold and would be developed. Everything pointed to a busy season.

Mr. Morkill urged his hearers to think provincially instead of locally. There was too much thinking only of localities. What was wanted now was not a boom but steady development. He hoped all would try to visit the camp when the Vancouver excursion went there early in June.

Without advertisements, this paper would not be as interesting to you, because information about goods for sale in the stores is news--just that.

NOTICE.
IN THE MATTER OF Sections 134 and 135 of the Land Registry Act and in the matter of Lot Four (4), Block Thirty (30), Section One (1), City of Prince Rupert, (Map 923).

Proof of the breach of Covenants, and re-entry and recovery of possession, by Edna Waldron, the registered owner of the above lot, under a lease granted by Charles E. Burgess to you, George Grey, dated the 30th June, 1916, and registered in the Land Registry Office at Prince Rupert, as Number 1943-B, having been furnished, it is my intention after the expiration of thirty days from the service of this notice, to cancel the registration of the said lease upon the register unless in the meantime a good and valid objection thereto is made and unless you take and prosecute the proper proceedings to establish your claim or to prevent such proposed action on my part.

Land Registry Office, Prince Rupert, B.C., 3rd March, A.D. 1921.
