To Be Dyspeptic Is to be Miserable

The poor dyspeptic suffers untold agony after every meal, and any one who has dyspepsia knows what joy it would give to eat three square meals a day and not be punished for it after. Nearly everything that enters the weak stomach acts as an irritant, and even the little that is eaten causes such torture and is digested so imperfectly that it does little good. Before you can eat heartily, and not pick and choose your food, you must put your stomach into such a condition that it will manufacture its own digestive ferments. For over forty years Burdock Blood Bitters has been toning up and restoring weak stomachs to a normal healthy condition so that the food no longer causes distress, but is thoroughly digested and assimilated, and enables one to partake of all the wholesome food required without fear of any unpleasant after effects. Mrs. Alice Beckwith, Resurrection, Ont., writes: "I have been a great sufferer from indigestion and dyspepsia for several years. I could not eat anything without almost dying from the pain in the pit of my stomach. Seeing Burdock Blood Bitters highly recommended I tried a bottle, and can gladly say it relieved me. I can eat anything now, and am in perfect health." B. B. B. is manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

A LESSON THE GOVERNMENT PAID FOR.

Before 1914, Bond Brokers and Bankers were indifferent advertisers. Many who advertised regarded their expenditures as "sop," and thought they were doing publishers a favor.

Then came the Call for War Loans. On the advice of this Association, yet contrary to some Brokers' and Bankers' views, the advertising of these loans was made humanly interesting.

The results you are aware of.

But—here is the real point.

Nearly every Bond House and Bank in Canada is, today, aggressively advertising, and using all the interest and ingenuity at their command to attract business. They observed the power of newspaper advertising, when properly used, and have profited by the lesson.

The same thing is true of some manufacturers, who, noting the results of the Imperial Munitions Board newspaper advertising, have commenced to use the same force to introduce post-war products.

The Government paid for this lesson.

Have you considered profiting by it?

Advertising is not a matter of guesswork. It requires skill and knowledge and experience. It is not something to be lightly undertaken, but it can be undertaken with assurance of success if it is done properly.

If you have ever thought you would like to advertise if you could get proper advice on how to go about it, write to this Association. We will give you the benefit of our experience in starting you on the road to successful publicity
