DAILY EDITION

Saturday, Sept. 17, 1921

Wonderful Scenery
Throughout the North.

The scenery of the great north country is one of the great attractions. To everyone who visits Prince Rupert the mountains and sunsets and unusual cloud effects are most attractive. To make side trips up the rivers or into some of the natural canals or inlets is a revelation. A run up Gardner's Canal cannot be beaten from a scenic point of view. Everywhere one goes there are things to see that are not only attractive but fascinating.

A resident of the north country in discussing the outdoor life of the district went into ecstasies over the opportunities for hunting and fishing. Everywhere were opportunities, and amidst surroundings that cannot be beaten. He said he had travelled the Naas, he had been up and down the coast and into all sorts of out of the way places, and wherever he went there was good fishing, goat hunting, bear occasionally, and birds and deer. In what other part of the world is it possible to strike into the woods almost anywhere during the season and pick up a fine buck? This north country has all the others beaten when it comes to outdoor attractions.

Go Carefully
With a Camera.

The modern hunter carries a camera. Some hunters take nothing more dangerous, but whether they also take a rifle or shotgun, they take a kodak too. The thing to avoid is under-exposure, especially in winter or spring or autumn. Often it is necessary to speed up, but the lens should be as wide open as possible, consistent with common sense. Most photographs are spoiled by under-exposure.

Hunting Days Are
Days of Danger.

The fool with the gun is the most dangerous fool there is. There are some who go out into the woods and when they hear something blaze away before making sure that it is not another hunter instead of game. Every year sees shooting accidents, usually caused by the excitement and carelessness of so-called sportsmen. Before going out, as many will do tomorrow, it is well to think carefully of the danger some other hunter may possibly run through your carelessness.

Bylaws Vote
Taken Next Week.

While this has been a week of festivity, we must not forget the serious business of voting on the bylaws which are to come up next week. There is a letter in another place in this paper explaining what they mean. The school has been built and must be paid for; water extensions are necessary with the growth of the city; the proposed new pulp industry should be encouraged, especially when such encouragement does not cost us anything. We ask consideration for all these bylaws on the part of the ratepayers who, by the way, are the only ones eligible to vote.

Ball Teams
Cannot Go South.

Ball teams cannot go south to play any of the amateur teams because they have not amateur standing. All the baseball clubs in Victoria and Vancouver and at most other centres, with the exception of the regular professional teams, are affiliated with the B. C. A. A. U., and as there is no such affiliation here games cannot be played.

There is no reason why outlying places should not develop good baseball teams, just as Cumberland and Ladysmith developed good football teams. The question of amateur affiliation will have to come up, however, before any attempt can be made to take a team south to play in Vancouver.

BRONCHIAL
ASTHMAChoking and Gasping for Breath
Relieved by "FRUIT-A-TIVES"MRS. PENNINGTON
NEW ROCKLAND, P.Q.

"In 1919, I was taken with Bronchial Asthma and no one knows what I suffered with it during the winter. I began having Choking Spells—gasping for breath and could not speak. I would have one of these bad spells in the evening, one during the night, and one in the morning. The doctor said he could do nothing for me.

"In the spring of 1920, I started taking 'Fruit-a-tives' and in a few days, the choking spells stopped, and I have had none since May 7th, 1920. I have so wanted to tell other sufferers who have the same trouble about 'Fruit-a-tives' for I know how they must suffer.

Some thought the Asthma would come back on me as winter came on but it has not, thanks to 'Fruit-a-tives.' Mrs. J. M. PENNINGTON, 50c a box, 6 for \$2.50, trial size, 25c. At dealers or sent postpaid by Fruit-a-tives Limited, Ottawa.

The Man in the Moon
SAYS:

MR. and Mrs. Noyes, already parents of five children are now the proud parents of triplet boy babies. They live in Victoria. The indications point to lots of Noyes in that home.

ASIATIC Exclusion League seeks to save British Columbia from being Japanned.

WHERE are the bright girls of the past? Inquires a Vancouver daily, reminiscently. Our own observation is that some of them are administering doses of paregoric to the bright girls of the future.

THE newer forces such as electricity and magnetism are being used in thousands of different ways. By the magnetism of the toes or fingers a person can pick up a pin and by the magnetism of the eyes a girl can pick up a man.

THE only thing lacking about the fair was a beauty contest.

IF you are going to give a prize for the best cattle, the best cabbage and the best fancy work, why not a prize for the best girl, the best behaviour, and the best dresser.

DON'T someone come along and say there is already a prize for furniture display.

AND of course there is someone who suggests that in these days of speed contests there be a prize for the speediest girl.

WHILE the exhibition has been a success and we all owe thanks to the men who donated time and money to the work, it must not be forgotten that the weather man is entitled to his share of credit.

TRAVELLER IS
ENTHUSIASTIC
OVER SCENERYSays Skeena Canyon is Finer
Than Anything He Has Yet
Passed.

"That was the finest scenery I have ever seen and I have travelled across the continent several times and by several routes," said a stranger, who stepped off the train at Prince Rupert the other day and looked around for the Railway Station and then inquired why he had been dropped on a siding.

It was explained that the contract was let for the new station and that next time he came it would probably be ready for him right here.

The traveller went on to tell of the wonderful Jasper Park, a place almost unknown to the multitudes of the East, of that mecca of the discerning few, the playground which has seldom been heard of beyond the confines of Western Canada and to the thousand and one beauties along the line of the Canadian National between Edmonton and Prince Rupert.

Speaking of the Skeena Canyon he said: "There is nothing in the world just like it. The C.P.R. has nothing to offer that can equal it. Those gorgeous snow capped mountains with the splendid reaches of river are simply wonderful. Give me the Skeena every time. I want to make the trip in the opposite direction so that I can see it from a different angle and at a different time of day. I hope to make the trip in winter, when I am sure it would be even finer than in summer. What you want is advertising. Your railway company must be asleep or your scenic wonders would be known all over the world."

It was intimated to the visitor that while the railway was owned by a company, the country owned the company or in other words it was a Government owned railway.

"I might have known it," was the comment. "Yes, it must be Government owned. If a real company had it with a live publicity end, the traffic this way would compel the building of a double track in a few years."

BASKET OF FLOWERS
COMES FROM LONDON

E. R. Ault of this city received a letter from his father, Roland Ault of Finsbury Park, London England, asking him to convey to the editor of the Prince Rupert Daily News appreciation of the paper, which he considers one of the most interesting he reads. It is the only British Columbia paper he sees. He gets them in bundles one a week from his son here.

Ten Years Ago
in Prince Rupert

September 10, 1911.

Duncan Ross, Liberal candidate in the federal election, returned yesterday from a visit to the Queen Charlotte Islands. He is confident of the development that reciprocity would bring to the Islands. J. S. Cowper accompanied him on the trip and made a record horseback ride from Queen Charlotte City to Masset doing the trip in twenty three hours.

At Kitselas last night, H. S. Clements delivered a campaign speech. He will visit Kitsumkalum tonight.

Mr. Whyte, of Tow Hill, O. C. L., aged seventy, had a terrifying experience last week when he was lost for three days and three nights in the bush. He ate wild berries and is little the worse of it.

September, 17, 1911.

H. S. Clements and J. S. Cowper met on the election platform at Kitsumkalum last night. Mr. Clements was seconded in the debate on Reciprocity by Mayor William Manson while Frank Anger seconded Mr. Cowper.

Vancouver, for the first time in the history, won the Minto Cup yesterday by defeating New Westminster, six to two.

Auctioneers

When you sell goods by private sale you eliminate competition. It is human nature for an individual to bid a higher price against competition.

If you wish to dispose of any article, send it to us. Sales held at private residences or at our Auction Rooms, Pattullo Block, Second Avenue.

Coal

The Mountain Park Steam and Furnace Coal has been tested by the largest local firms and business houses, and the opinion is unanimous that it is a first-class steam and furnace coal. We only ask you to give it a fair trial. We know that this coal has great heating and lasting power, and the price compares favorably with any other coal in town.

It is not our business or our policy to "boost" a coal which is not satisfactory.

Insurance
of all kinds

It is useless to "cry over spilt milk." The city has been exceptionally free from serious outbreak of fire, but don't let this lull you into a false sense of security. Fires happen at the most unexpected times and places. You cannot be too careful for the people "next door." Insurance companies will be.

Ask us for rates.

Steel Wire Ropes
Stocks Carried

You cannot beat the price and quality of our "STERWEB" brand wire rope. Purchase direct from the manufacturer. We are "out" to get the business price our ropes accordingly.

We also sell

Finest Quality Manilla Ropes
