

National Chorus Conductor

Dr. Albert Ham, conductor of the famous National Chorus, says:—"PEPs are excellent, and you are at liberty to publish this expression of my opinion."

Madam Clara Butt, writing on behalf of herself and husband, Mr. Kennerley Rumford, says:—"We have formed the very highest opinion of PEPs after using them regularly for some considerable time. They are quite unique in their invigorating effect upon the throat and chest."

PEPs strike directly at the seat of lung and throat troubles. As they dissolve, they release rich, healing mucus fumes, which are breathed down right to the lungs. Cough mixtures, syrups, etc., only go to the stomach. For hoarseness, sore throat, coughs, colds, bronchitis, asthma and all ailments of the throat, chest, and lungs, PEPs are best. Sold in tin boxes, 50c. box, all drugists and stores, or postpaid from PEPs Co., Toronto, Wm. L. P. Co., Montreal.

BRINGING UP FATHER

National Fish Day

A few facts in regard to value of Fish as a Diet.

February 9 has been set aside as a national Fish Day. This is for the purpose of bringing strongly to the attention of the people of Canada that they own a great natural resource that has not been receiving proper attention; and that they stand responsible for a great economic waste by not making more use of fish in their diet.

The per capita consumption of fish in Canada is approximately 19 pounds per annum. In Great Britain the people eat an average of 58 pounds a year. Does it not seem strange that Canada which possesses the greatest fisheries in the world should pay so little attention to the fact? Local consumption of fish is increasing very slowly, and it is the hope that by various means impetus will be given to its expansion. Too much fish is moving now in less than carload quantities and as the overhead charges in small business are proportionately greater than in business of larger volume, fish is dearer than if the demand were greater. A larger appetite for fish would not only mean a cheaper article, but it would remove many of the transportation difficulties which confront the industry today.

Following is a table showing the percentage of protein, the most important food element, to be found in various varieties of sea foods as compared with meats and other articles.

Salmon	24.8
Haddock	8.4
Herring	11.2
Cod	17.
Pollack	15.4
Shad	10.6
Butterfish	11.8
Albacore (sardine)	9.8
Pickered	12.
Flounder	6.4
Salt mackerel	13.9
Boneless Cod	26.3
Haddock (smoked or dried)	15.8
Canned Tuna Fish	21.7
Beef	14.8
Average of Beef, Veal or Mutton	14.5
Chicken	13.7

Considering the cost of these various articles of fish in comparison with the cost of meats, the desirability, from an economic standpoint, of increasing the demand for them is quite obvious. Eminent authorities agree that fish is quite a necessary element in diet. We have only to regard the history of those races which have been fish-eaters for centuries, to be convinced. The Japanese give a striking illustration of the virtue of a fish diet.

\$4,000,000 FIRE AT ATHENS, GEORGIA

Three City Blocks Destroyed at Early Hour Today

ATHENS, Georgia, Jan. 25.—Three city blocks have been destroyed by a fire which was raging at an early hour this morning. The damage was estimated at \$4,000,000.

"MARY'S ANKLE" HERE AT THE WESTHOLME

May Tully, the Author, was Victoria Girl Who Became An Actress.

May Tully was a girl from Victoria, British Columbia, who went out to seek her fortune, took to the stage for a living and made a success both as an actress and a playwright. She often returns to her native city and always takes a keen interest in the ball games. She plays baseball well and as a roofer cannot be excelled.

The play, "Twenty-three and a Half Hours' Leave," taken from the stage play "Mary's Ankle," is as hilarious as Miss Tully herself.

The story is about a Doc Hampton, young and impecunious, who meets a girl on Tag Day and falls in love with her. In order to claim an inheritance from his rich uncle, Doc had fake wedding announcements sent out. His bluff is called, his uncle informing him that he will be on hand to inspect the bride and take them on a honeymoon to Honolulu. In the emergency, fate throws the Tag Day across Doc's path. He persuades her to pose as his bride, and later, of course, she makes good the deception by falling in love with her pretended husband.

The Man in the Moon SAYS—

LIKE says many wives kiss their husbands with all the passion and fire that they use when licking a postage stamp.

ON the prairies the harvest is annual; here it is diurnal.

THREE ships on Prince Rupert drydock at one time is a pretty good start for the Wallace Company. It is like having triplets soon after getting married.

WHAT a good many people are wondering about is whether it is oatmeal or baggins that makes the Scotsman talk with that curious dialect. Or is it liquid instead of solid that does the trick.

THIS talk of a double life may be true, but I doubt it, except for a millionaire. No one else could afford it.

IT takes only a whisper to drive a man to drink in Prince Rupert.

IT'S no wonder people in the south talk about Prince Rupert's weather when Prince Rupert people talk about it so much themselves.

IF it is true that intellectual capacity is gauged by a person's conversation, how many drachms of intellect has the ordinary individual? Having no microscope it is impossible to tell.

A financial paper says that we may look for improvement in business shortly. Yes, yes, it is easy to look.

WHEN a business paper says the tone of the market is improving, it is an indication that somebody is starting to profiteer.

ACCORDING to an official of the Musical Society the ladies will be dressed in white shirt waists and the men in black ties at the concert tonight. It is understood there is already a stampede for tickets.

IMPORTANT CONFERENCE

PARIS, Jan. 25.—Sir Auckland Geddes, British Ambassador to the U.S., arrived here for a conference with Lloyd George and Secretary Curzon.

WATER NOTICE.

USE AND STORAGE.

TAKE NOTICE that KUBERT PAUL and Paper Company, whose address is 707 E. Vancouver Block, Vancouver, B. C., will apply for a license to take and use one thousand second feet of water out of Lower Inlet River, Lower Inlet, B. C., also known as Verney Falls, which flows westerly and drains into Lower Inlet about its head. The storage-dam will be located at (1) Lower Inlet, (2) Upper Lake, (3) Simpson Lake. The capacity of the reservoir to be created is about 250,000 acre feet and it will flood about 4,000 acres of land. The water will be diverted from the stream at a point about at the head of Lower Inlet and will be used for power purpose upon the land described as King-o-wa-dah Indian Reserve No. 3 and crown lands.

This notice was posted on the ground on the 23rd day of November, 1929. A copy of this notice and an application pursuant thereto and to the "Water Act, 1914," will be filed in the office of the Water Recorder at Prince Rupert.

Objections to the application may be filed with the said Water Recorder or with the Commissioner of Water Rights, Parliament Buildings, Victoria, B. C., within thirty days after the first appearance of this notice in a public newspaper.

Lower Inlet, Lower Inlet River, First, Second and Third Lakes, Simpson Lake, Upper Simpson Lake, and the water of the river flowing into Lower Inlet being approximately 150 square miles between Crown (Canada) and British Columbia, in House A, Coast District.

KLIMAT PULP AND PAPER CO., Applicant.
