Mrs. William Blair and Mrs. Albert Johnson entertained a large number of Ladies at tea Wednesday afternoon at Mrs. Blair's home in South Fort George. There were about fifty ladies present. Mrs. T. W. Jerne poured tea and the hostesses received the guests.

Duke Harris is in the hospital here suffering from pleurisy. He will be out in a few days.

The recent cold snap afforded excellent skating on the lake here.

The snowfall of the past few days has been welcome for it has filled up the ruts in the roads which had almost tied up vehicular traffic.

The first performance of the Hazelton Dramatic Club held recently was a great success and many attended. Those taking part were: J. Bosley, Miss Inez Smith, J. D. Galloway, J. K. Frost, A. A. Connon, Miss M. Hogan, Mrs. H. H. Little, Mrs. A. Leverell, Mrs. E. R. Cox, James Turnbull, A. A. Connon, Miss M. Horbury and Miss M. Watlie.

## WASTE OF ENERGY.

An Arizona cotton grower, in discharging one of his negro hands, was lamenting his hard luck. "Cotton has gone to the dogs, this year, George—I'm a big loser."

"Yassah," returned the dandy. "I reckon you is, boss."

"And," went on the grower, "I'm out all the money I've paid you for wages and the grub you've eaten besides."

"Yassah," agreed the dandy. "I guess you is, white folks."

"Well, confound you," growled the grower, "you don't seem to be worrying your head any!"

"Lawdy," returned the dandy. "Ain't a bit of use of me, an' you both worrying about the same thing, is they?"—Judge.

## PRINCE RUPERT TIDES

Tuesday, November 29.  
High—1:13 a.m., 20.1 feet.  
13:01 p.m., 22.5 feet.  
Low—6:59 a.m., 7.5 feet.  
19:32 p.m., 2.8 feet.

The time used is Pacific Standard, for the 120th Meridian west. It is counted from 0 to 24 hours, from midnight to midnight.

The table given is for Port Simpson but the time for Prince Rupert varies only a few minutes on some days and on others is the same. The range of the tide may be computed as 5 per cent greater at Prince Rupert than at Port Simpson both at springs and neaps. Therefore the rise in the Prince Rupert harbor is slightly greater than Port Simpson.

The height is in feet and tenths of feet above the average level of lower low water.

## NEWSPRINT PRODUCTION IS ON THE INCREASE

NEW YORK, Nov. 29.—Forty-four newsprint companies in the United States and Canada, comprising more than 90 per cent. of total, reporting to the Newsprint Service Bureau, for October had an output of 156,844 tons of paper. Shipments amounted to 165,365 tons. Production includes 1713 tons of hanging paper, usually classed with newsprint.

October production was 13,372 tons (9 per cent.) increase over September output. Shipments increased 22,972 tons, or 16 per cent. There was one more working day in October than in September.

Production by United States mills, according to the bureau, during the first ten months of 1921 was 252,161 tons, or 24 per cent. less than the corresponding period of 1920. A strike which tied up some mills for more than two months early this year restricted the output.

Production of Canadian mills ten months of 1921 decreased 79,447 tons compared with 1920, a decline of 44 per cent. Combined decline in production, both countries, was 341,598, or 18 1/2 per cent., compared with 1920.

Total stocks at mills October 31, 1921, were 31,990 tons, equivalent to about four days' production. Stocks at the end of October were 8640 tons less than September 30.
