Possess Good Health By Looking after THE BOWELS

A free motion of the bowels, once or twice a day, should be the rule of every one, as half the ills of life are caused by allowing the bowels to get into a constipated condition.

When the bowels are allowed to become constipated, the stomach gets out of order, and the liver does not do its work properly on account of holding back the bile so that it does not pass through the bowels, but is allowed to get into the blood, thus causing a poisoning of the whole system.

If you would escape constipation, sick and bilious headaches, heartburn, floating specks before the eyes, coated tongue, foul breath; the nasty irritating, bleeding, itching and protruding piles, you should keep your liver stirred up by the use of Milburn's Laxa-Liver Pills.

These pills, being purely vegetable, keep your liver working actively, helping it to resume its proper functions, and thereby removing the bile that is circulating in the blood and poisoning the whole system.

Mrs. H. Barrows, Enfield, N.S., writes:—"I was troubled with such headaches and constipation. One day a friend told me of Milburn's Laxa-Liver Pills. I got two vials, and found they did me a world of good. I therefore have great faith in them."

Milburn's Laxa-Liver Pills are 25c. a vial, at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

PAID VISIT TO HOMELAND

Theo. Collart says Belgium Recovering Rapidly from Germany's Ravages

Theo Collart returned yesterday on the Princess Mary after having spent a six months' visit in England, France and Belgium, his native land. Mr. Collart did not cross to the United States during the course of his trip, but went by way of Montreal last October and returned to Canada at St. John's, N.B., the winter route. Mrs. Collart also returned with her husband, but is spending a fortnight in Winnipeg and will then return to Prince Rupert. The house in Section 2 will again be occupied. Mrs. Collart is accompanied to Canada by her mother, Mrs. Gardner, a Scotch lady who makes her home in Folkestone.

In the course of his long trip Mr. Collart saw many interesting sights and places. He was on the go all the time and says that he stayed in no one place more than three weeks. While on the continent he spent the time visiting places between Brussels and Paris. Many of the cities in Belgium that were under the German occupation during the great war, including his own home town of Wavre, were visited and great progress is being made in the work of reconstruction and reorganization.

Belgium's Great Recovery.

Mr. Collart served with the Belgian army from 1915 until 1919, when he returned to Canada. In the year that elapsed between his return from the war and his visit to the homeland again a great change has been brought. A great deal of the machinery that was removed by the Germans has been returned and the little nation is actually back to a 65 per cent standard of efficiency as compared to its condition when its borders were crossed and the ruthless work of devastation commenced in 1914. The coal mines are producing now on a larger scale than ever before. Among the places visited were Brussels, Liege, Antwerp, Bruges, Ghent, Charleroi and Namur, all of which had been occupied.

Speaking of conditions generally in the three countries he visited Mr. Collart says that prices are gradually coming down although he does not expect they will ever reach the low level of 1913 and 1914. England is facing a most serious situation caused by unemployment which has not struck Belgium and France so badly. The only remedy in England, says Mr. Collart, will be a general reduction in wages.

Mr. Collart's trip was not all on pleasure bent but he returns with a number of new Belgian agencies to set up with his business already established here. Shortly he will commence a general importation and exporting business.
