DAILY EDITION.

Saturday, May 21, 1921.

Fish Payroll Is Large One.

There was a nice little payroll of five and a half million dollars here during the year ending March 31 last. While not all the money was spent here, a good deal of it was. The amount is equal to several ship contracts. In a ship contract a good deal of the money is sent away to pay for material. In the fish business a good deal of it is spent in wages.

In the salmon fisheries the Indians earn a good deal of the money spent for the fish that are caught and they spend it practically all in the neighborhood. The halibut is paid for here and much of it goes to local people. The other fish do not amount to much but the herring fisheries provide work for a few of the fishermen at a time when there is nothing else for them to do.

With all that money spent in the city, the wonder is there are not more people living here. A city of ten or twelve thousand people should be able to live easily on the amount of money spent in the district on fish alone. And then there are the other industries.

Present of Chair to House of Commons.

The presentation of a speaker's chair to the House of Commons by the members of the British House was an act of kindly courtesy which tends to make a friendly feeling between the people of Great Britain and Canada. It was one of those little acts of courtesy between countries which resemble the little acts of courtesy which commonly take place between individuals.

No person was better qualified to make the presentation than Former Speaker Lowther, a man with a fine sense of humor and with a love for his work and a respect for the office he held—a spirit which is worthy of emulation. The newspaper account of the leave taking, when the speaker resigned his position in the British Parliament after a long term of service, was most touching. Mr. Lowther said he resigned at this time rather than at a time when the government changed so that there should not be a change in speakership and change of government simultaneously, thus giving the new man a chance to get some experience before a new government took charge. It was a considerate act.

The people of Canada will value the new chair. It will be one of the things to point out to visitors as the one which is exactly the duplicate of "the one"—the seat of which is made from the famous stone of Scone on which all kings of Scotland are crowned.

Everyone is interested in Oil.

Everyone is more or less interested in oil. The finding of a gusher at Fort Norman has given an impetus to prospecting throughout the north. In almost every district there are spots which give oil indications. Possibly from some of these oil may be obtained if wells are put down.

Drilling is an expensive operation. There is no line of prospecting so difficult as prospecting for oil. It is to be hoped that some of the efforts will be successful and that oil will be found, either on Queen Charlotte Islands or on the coast and that before very long.

A find of oil at any point in the neighborhood would have a stimulating effect on business. It would mean that there would have to be a refinery, that cheaper fuel would be obtained on the Canadian side of the line, that the fleet of local boats would be able better to compete in the fishing and carrying business and that there would be greater prosperity for all.

FREE OF TERRIBLE KIDNEY TROUBLE

After Three Years of Suffering, "FRUIT-A-TIVES" Brought Relief

MADAME HORMIDAS FOISY

624 Champlain St., Montreal.

"For three years, I was ill and exhausted and I suffered constantly from Kidney Trouble and Liver Disease.

My health was miserable and nothing in the way of medicine did me any good. Then I started to use 'Fruit-a-tives' and the effect was remarkable.

I began to improve immediately and this wonderful fruit medicine entirely restored me to health. All the old pains, headaches, indigestion and constipation were relieved and once more I was well.

To all who suffer from Indigestion, Constipation, Rheumatic Pains or great Fatigue, I advise the use of 'Fruit-a-tives'.

Madame HORMIDAS FOISY.

50c. a box, 6 for \$2.50, trial size 25c. At all dealers or sent postpaid by Fruit-a-tives Limited, Ottawa, Ont.

ATHON COMPANY STILL PLEASURES

First Week's Stand Finds Company Enjoying Good Measure of Popularity.

The Athon Stock Company continues to play to good houses at the Westholme Theatre and since its arrival in the city has gained a good deal of popularity. Its first week's stand in the city has shown that it is offering a show here that exceeds any performances that have been put on for some time. Tonight the same show that was put on last night will be repeated.

"Young Mrs. Winthrop" is a well conducted condensed version of the well known drama of that name. It is interesting to note that this same show will be shown on the screen here early next week. The play shows how a clever old lawyer brings about a reunion of a young couple who had almost agreed to separate. It bears a real heart interest and the acting of the three principals—Robert Athon, Miss Effie Johnson and Cliff Lancaster—is really clever.

The Convict's Daughter. "The Convict's Daughter," the second playlet on the program, brings about some rather interesting crises. The hero happens to be an escaped convict, sent to jail for his brother's sin, and there is also a society villain who would force his attentions on the pretty heroine. The curtain falls on a happy development of affairs which pleases everyone.

Neil McKinnon appears in a line of vaudeville patter which is lively indeed and closes his act with the recitation "The Bomber," by Robert W. Service. His educational work in this piece is alone worth seeing.

The feature picture, "The City Sparrow," depicts some interesting situations in city and country life. From beginning to end the entire program is most pleasing.

The Athons will continue playing here next week.

LIQUOR WAS FROZEN IN BLOCKS OF ICE

NEW YORK, May 21.—In the contest to discover the most ingenious means of deflecting attention of prohibition enforcement agents, customs officers here believe this contrivance deserves at least honorable mention:

In their search of the steamship Glendora, the inspectors obeyed a "hunch" and rummaged through the ship's cold storage plant. Frosting on the large cakes of ice, rendering them quite opaque, whetted their suspicions, and they scraped off the coating. An improvised "X-ray" made by attaching reflectors to electric light bulbs, revealed bottle-shaped black spots within the translucent blocks. More than 200 bottles of whiskey had been thus frozen into these glacial hiding places, they said.

ANIMALS BURNED AT BRADFORD FAIR

KEWANEE, May 20.—One hundred exhibition animals, including racehorses, cows, sheep, perished in a fire last night which destroyed the barn in the Bradford Fair grounds.

Ten Years Ago in Prince Rupert

May 21, 1911

William Campbell, a well known English journalist, commissioned by the Dominion Government to write up Canada from sea to sea, spent today sightseeing in the city.

Actual construction on the new marine station at Digby Island has been started, the site having already been cleared. W. Stehman, the contractor in charge, and F. J. Jennings, government engineer, say they are confident that the station will be finished this season.

John Thornhill, a fellow of the Royal Geographical Society, is in the city preparing to visit the Portland Canal country.

Buy advertised goods and buy them from the local merchant who advertises.

PRINCE RUPERT TIDES

Sunday, May 22.
 High, 1:22 a.m., 21.7 feet.
 Low, 14:13 p.m., 19.3 feet.
 Monday, May 23.
 High, 1:59 a.m., 21.4 feet.
 Low, 8:35 a.m., 19.2 feet.
 20:34 p.m., 7.6 feet.

The time here is Pacific Standard, for the 120th Meridian west. It is counted from 0 to 24 hours, from midnight to midnight.

The table given is for Port Simpson but the time for Prince Rupert varies only a few minutes on some days and on others is the same. The range of the tide may be computed as 5 per cent greater at Prince Rupert than at Port Simpson both at springs and neaps. Therefore the rise in the Prince Rupert harbor is slightly greater than Port Simpson.

The height is in feet and tenths of feet above the average level of lower low water.

MAIL SCHEDULE

For the East.
