PLATINUM, because of its durability and purity, has been termed "The Metal of Heaven." Surely then platinum is a most appropriate material for an engagement ring.

In any event it has become the most popular.

Sport Chat

Smithers and Telkwa are staging regular baseball games every Sunday and a good deal of interest is taken in the matches. A good brand of ball is also being put up, with the Telkwa boys having slightly the best of it so far this season. A junior team is also being organized in Smithers by James Kennedy and there are a number of promising lads whipping into shape.

Willie Meehan, California heavyweight, who holds a decision over Jack Dempsey, dopes the big battle on July 2 as follows: Dempsey is the greatest infighter ever developed among the heavies. "SHIMMY" IS OLD AS HILLS

Prehistoric Melody-Loving Inhabitants of Peru Invented Jazz

NEW YORK, May 21.—The shimmy, the one-step and the jazz music are as old as the hills and the ancient melody-loving inhabitants of Peru were the first to produce them. And to make their claim secure for all time they inscribed the figures of the dance on their prehistoric pottery and metal, so that when future archaeologists sought proof of their claim there would be no doubt about it.

Sure enough, their claim to fame as the originators of the trots that make life worth living for a lot of light footed persons has been found by Charles W. Mead, assistant curator of the Department of Anthropology in the American Museum of Natural History.

This discovery, incidentally, blasts the theory that jazz was first a product of the now extinct Barbary Coast of San Francisco, where adventurers since the days of '49 whirled with the girls of the dance halls.

Digging Up Jazz.

And that isn't all—they have dug up from the ruins of old Peru such instruments of jazz as the drum, the cymbal, the rattle, the pipe, the flute, the whistle, the trumpet and other devices of sundry character.

It also is recorded that the Huancos, a particularly warlike Peruvian tribe, made their drums from the skins of their enemies and the music, it is declared, was even more terrible than the jazz of today.

The ancient popularity of the jazz and shimmy is attested by the abundance of dancing figures on most of the pottery which has been unearthed and is in possession of the American museum of Natural History.

Think of all the prominent firms whose products you see in the stores and ten chances to one every firm will be a daily newspaper advertiser. They know it pays.
