Impossible to Know Condition of Affairs.

From the statement issued by the official receiver it is impossible to tell exactly the financial condition of the drydock company and what may be expected for the creditors. Just what stand the Dominion Government will take in regard to it is not very clear. What seems certain is that there will be a very substantial loss. Perhaps when the receiver has made his promised trip to Ottawa he may be in a better position to say what will be done, and what the prospects for payment of the outstanding accounts are.

Good Meeting, For Nickerson.

There was a large and enthusiastic rally in support of the candidature of George Nickerson at the committee rooms last night. Among those present were a number of fishermen and boat owners, all of whom are interested in the waterfront development schemes. Mr. Nickerson was frank in his statements and as a result of the meeting he certainly has gained strength. He effectively disposed of many of the rumors set afoot for the purpose of defeating him. One of his supporters emphasized that Mr. Nickerson would have no selfish interests to serve and that he would go to the new duties with an open mind and without bias.

Orme's Retirement Is Regretted.

General regret was expressed last evening and this morning when it was learned through the medium of the Daily News that C. H. Orme was unable to qualify as a candidate for alderman. It was generally expected that he would lead the polls and his enforced retirement from the field is a loss to the community. Next year, however, he will be ready, it is to be hoped.

Good Weather Here Compared With Outside.

In Prince Rupert there have been stormy days such as are experienced everywhere. Compared with other places, however, there has been a good season so far. Recent visitors to the south complain bitterly of the treatment accorded them by the weather man and have welcomed their return to the more northerly clime where Boreas, Jupiter Pluvius and the other weather gods are moderate in their demands on the attention of the people.

Price Decline Discussed by Bank.

Discussing the price decline, the monthly letter of the Royal Bank says:

"The Canadian official record shows that the increase of wholesale prices reached in May of 1920 over the average prices of the year 1913 was 163 per cent, and that, as between the figures for May and December, a decline of almost fifteen per cent, was recorded. The decline was especially noticeable in the prices for grains, fresh vegetables, breadstuffs, tea, coffee and sugar; certain items in the textile group—cotton, silks, jutes, etc., also show declines.

"Results of a more advanced character are shown in Bradstreet's table of United States prices. The period from February to May, 1920, marks a decline of 10 per cent, while the period from February to 1st December, 1920, indicates a decrease of no less than 35 per cent. British prices are down 16 per cent; the decrease in French prices amounts to 13.9 per cent.

"Here and there are found people who cannot believe that the old levels are definitely gone, and who expect higher prices in the future. The better opinions are against this view. Only war could make demand outrun supply to the extent that it has in the last few years. Disregarding minor fluctuations, there are few commodities whose sale can be deferred to advantage. Those who have a market for their goods, but will not sell, are in most cases showing doubtful business judgment."

HIS LIFE RUINED BY DYSPEPSIA

Until He Tried "FRUIT-A-TIVES"
The Wonderful Fruit Medicine

MR. FRANK HALL

Wyevale, Ontario.

"For some two years, I was a sufferer from Chronic Constipation and Dyspepsia.

I tried every remedy I heard of without any success, until the wife of a local merchant recommended 'Fruit-a-tives'.

I procured a box of 'Fruit-a-tives' and began the treatment, and my condition commenced to improve immediately.

The Dyspepsia ceased to be the burden of my life as it had been, and I was freed of Constipation.

I feel that I owe a great debt to 'Fruit-a-tives' for the benefit I derived from them."

Low, 7:2 a.m., 8.9 feet.

12:10 p.m., 4 feet.

The time used is Pacific Standard, for the 120th Meridian west.

It is counted from 0 to 24 hours from midnight to midnight.

The table given is for Port Simpson but the time for Prince Rupert varies only a few minutes on some days and on others is the same.

The range of the tide may be computed as 5 per cent greater at Prince Rupert than at Port Simpson both at springs and neaps.

Therefore the rise in the Prince Rupert harbor is slightly greater than Port Simpson.

The height is in feet and tenths of feet above the average level of lower low water.

MEN LOOKING FOR WORK AT SHIPYARD

The office of the Provincial government employment agent, J. M. Campbell, is being besieged by men anxious to learn about the chances of obtaining employment now that authoritative information is given out that the shipyards are to resume operations. It has not been given out yet by Wallace Bros. representatives here whether they will have their own employment agent at the work or whether men will be taken on through the Provincial government employment agent.

The Man in the Moon SAYS:-

THAT an old pessimist suggests the reason the year 1920 went out under a cloud was because it was leap year.

THAT it is better to stay here and buy another \$35 suit than to go south for the winter.

THAT the first issue of the Cow Bay Gazette caused quite a stir.

THAT Prince Rupert sometimes has bad weather, but it is a Gale for Vancouver.

THAT "Love your enemies and do good to those that despitefully use you" will be the motto for the Board of Trade meeting Friday night.

THAT if a man with one drink of bootleg can drive a car forty miles an hour, how many miles will he go to the gallows?

THAT there was no evidence of a buying strike during the holidays now happily past.

THAT advertising is usually effective.

THAT a man once advertised for a night watchman and during the night burglars broke in and cleaned out his store.

THAT the city council has as yet taken no steps to regulate aviators.

THAT there are said to be a number of high fliers here, but why regulate them?

Ten Years Ago in Prince Rupert

January 7, 1911

News has been received in the city of the deaths of Robert Penney, of Victoria, and Matthew Lightner, of Vancouver, who perished from exposure while making their way from the Naas Valley to Stewart. A third member of the party, Charles Gordon, reached Stewart safely, but is in a precarious condition.

Ald. Mobley, candidate for mayor, outlined his platform at a rousing meeting in the Empress Theatre last night. Ald. Naden was in the chair and other speakers were W. H. Montgomery, W. E. A Laundry Service Within Every Woman's Means

It is here for you in this Family Service we offer.

What is most disagreeable on washday? Isn't it the mussiness of wash water; the steam of boilers and tubs, the lifting and hauling?

And it's of that we relieve you—at a cost truly moderate.

We take your family bundle, wash it sweetly clean in soothingly soft waters and billows, glistening suds; and rinse it many times in more water sparklingly pure.

Next we daintily iron the flat pieces; the things like bath towels we dry softly and fluffily—they need no ironing; and other pieces that require it we starch and make ready for you to iron in your own home.

In a word, we do all the toilsome, mussy work of washday, and leave for you only the milder, pleasanter task of ironing the lighter pieces.

It's a truly economical service within the means of every woman—we're sure you'll like it immensely.

Telephone, we'll welcome an opportunity to tell you more about it.
