Tuesday, October 18.
High—2:12 a.m., 20.4 feet.
14:05 p.m., 21.6 feet.
Low—7:58 a.m., 6.4 feet.
20:33 p.m., 3.6 feet.
Wednesday, October 19.
High—2:49 a.m., 19.9 feet.
14:38 p.m., 21.5 feet.
Low—8:31 a.m., 6.8 feet.
21:09 p.m., 3.8 feet.

The time used is Pacific Standard for the 120th Meridian west. It is counted from 0 to 24 hours, from midnight to midnight.

The table given is for Port Simpson but the time for Prince Rupert varies only a few minutes on some days and on others is the same. The range of tide may be computed as 5 per cent greater at Prince Rupert than at Port Simpson both at springs and neaps. Therefore the rise in the Prince Rupert harbor is slightly greater than Port Simpson.

The height is in feet and tenths of feet above the average level of lower low water.

Many people read newspapers as much for their advertising columns as they do for news.

NOT SERIOUS**

Edmonton Has Few Out of Work,
Says Head of Labor
Bureau.

EDMONTON, Oct. 18.—No serious unemployment condition exists in the Edmonton district at the present time, according to reports received from Superintendent Paterson of the Alberta Government Labor Bureau.

"While we have not many jobs to offer, we are not receiving many applications for work," was the way in which Mr. Paterson described present circumstances. Close to 130 men are still unemployed, the majority of these being clerks, mechanics and men of similar calling who desired to get employment in the city.

For the most part, men who were sent out to work in the harvest fields are still employed and have not returned to the city. Men who came here from Vancouver in the hope of obtaining city employment have either accepted work on the farms or have returned to the coast.

What the situation will be in a month or six weeks from now the superintendent of the labor bureau would not care to hazard. He does not look for severe conditions, however, and is hopeful that the present winter will not

find unemployment any more acute than during previous winter seasons.

**GOES TO GROCERY;
MISSING A MONTH**

NEW WESTMINSTER, Oct. 18.—Arnold V. Newton, aged 71, went to the grocery on an errand on the afternoon of September 12 and has not been home since. He was in his shirt sleeves and carried only a few dollars. Despite his advanced years, Mr. Newton was in robust health and able to ply his trade as a carpenter and saw-filer. A family friend says the old man was seen in Seattle recently and the police of that city are aiding the search.

Notice to Public

Owing to building alterations we have to move. We have till Wednesday noon to vacate the basement. This clearance sale will be a short one and full of real bargains. It will not pay us to move these goods to storage, so we are going to sell them at prices that will make it worth your while to get here early on Tuesday and buy a whole month's supply, as it will be at least thirty days before we will reopen.

**PROTECTION FOR
ALL PEOPLE OF
CANADA TODAY**

That is What is Needed Says
Hon. Dr. King, Minister of
Public Works.

VICTORIA, Oct. 18.—The Meighen forces were trying to blind the people as to the many important issues confronting the people of Canada today, said Hon. J. H. King, minister of public works, who addressed the annual meeting of the Victoria Liberal Association. The inability of Premier Meighen to run successful by-elections was sufficient indication of what the result would be at the forthcoming poll.

The Meighen Government was trying to keep the public eye fixed on the tariff question but that is not by any means all that offends the country. Meighen says we are free traders, which he knows is not true. We believe in the tariff revision and the people of Canada will demand on December 6 next that there be a tariff revision. We do not want a tariff wall about the country. We must trade with other countries on a fair and equitable basis.

However, apart from the tariff we never hear anything about the railways or the 20,000 miles of railway taken over by the Meighen Government without authority from the people and the consequent annual loss of between eighty and one hundred millions of dollars.

Development of Resources.

As a new country the development of our resources is one of the most important. We need people to come here from the old country to help us open up our enormous reserves. Before 1896 our own people were actually leaving Canada. During Sir Wilfrid Laurier's regime this was changed, yet we are again today faced with the same problem and thousands of our young men have been forced to go across the border to earn a living. The only way to save Canada from its railway situation is to get people to come in and develop the resources of the country. But do we hear Mr. Meighen discussing any of these important matters? No.

"Mr. Meighen's tariff policy will be to protect a few industrial interests. What we want is protection for the whole people—not for a few small favored sections," declared Dr. King.

Tolmie Must Go.

The speaker referred in friendly terms to Hon. Dr. Tolmie, the Meighen candidate in Victoria. "But, the doctor's days as Minister of Agriculture are about over, because his position will go with the Meighen Government. We should have a representative at Ottawa who is in sympathy with the Government in power, and it is not boastful to say that it will be a Liberal Government when we consider the situation in Eastern Canada, where it is impossible for Mr. Meighen to succeed. You have seen members breaking away from the Government and forming all sorts of parties, which would certainly not be the case if conditions were satisfactory at Ottawa, concluded Dr. King.

**LOW WHEAT PRICES
HINDERING SHIPMENT**

Eighty-four Thousand Bushels
Sent Out of Peace River
Country So Far.

EDMONTON, Oct. 18.—While 84,000 bushels of this year's wheat crop has been shipped out of the Peace River country over the lines of the Edmonton and British Columbia Railway, officials of the railway system declare that grain shipping generally has been considerably retarded on account of the present low prices being paid to the farmers for their product.

Seventy cars of grain have been shipped from the Peace River country since September 20 last, the last days of September having seen an exceptionally good movement on account of the fair price offered. Since that time, however, when the price began to fall the shipments have been intermittent and light.
