DAILY EDITION

Tuesday, August 30, 1921.

Efforts Being Made To Line Up People.

Efforts are being made to line up the people in readiness for the Dominion election, whenever it may happen to be held. Every group would like to be in power, and some of them are willing to do almost anything to get control.

This is a period of change. A few years ago we found the farmers of this province asking to have indentured labor introduced from the Orient because it would give them an opportunity to make money easier.

Much Speculation Regarding Future.

If the Liberals do not control the next parliament, it seems quite sure they will be the dominant party and that after the next election Mackenzie King will be called on by the Governor-General to form a government.

Passing the Buck Common Failing.

Passing the buck is a common failing. In the game of life as in the game of cards each one has a chance, though sometimes the cards are stacked.

World Divided Into Doers and Talkers.

The world is divided into two principal classes, those who do things and those who talk about doing them or kick at the ones who do them.

Cannot Swallow Everything You Say.

Recently the editor of this paper was told by a friendly critic that he could not swallow some editorial article that had recently been written.

In the Letter Box

NOT AGAINST MILL.

Editor Daily News:
In an editorial in the News of Friday last the unfortunate suggestion is made that there is some opposition to the establishment of a pulp plant here.

The statement that the water it is proposed to use is now going to waste is not sufficient reason. I or any other citizen might by use of this argument ask for free water for a new house.

During the early years of the war Canada and later the United States made the sad discovery that with our "Open Door Immigration Policy" we had induced to our country many who in the emergency proved to be undesirable.

We in this province were and are particularly alive to the Oriental danger. We remember the prosperous community of white fishermen lining the banks of the Fraser River from Steveston to Chilliwack; we remember the Japanese invasion of that industry and their eventual complete victory.

The pulp and paper industry in this Province is in its infancy and it will soon be a tremendously important item commercially and industrially.

It is sometimes claimed that Orientals must be employed to make an industry a commercial success. In other words we are asked to admit the superiority of the yellow races.

There are many in British Columbia who two and three years ago proclaimed with much display what they intended to do for the "returned man."

Returned Men.
There are many in British Columbia who two and three years ago proclaimed with much display what they intended to do for the "returned man."

have not been kept, and doors of opportunity have not been opened as they might have been. So today we hear much of radicals, reds and unrest.

Oriental exclusion is not the howl of a disinterested labor element. It is the demand of merchants, farmers and everyone who sincerely desires this to remain a white land.

We are not opposed to industries entering our city because we wish them to operate under certain restrictions any more than we are opposed to a man owning an automobile because we insist on certain regulations to govern its use.

Rewart, Maple Bay and Swamp Point.
FOR-
Saturdays p.m.
FROM-
Sunday p.m.

Let your child's foot develop Naturally

Crippled feet caused through incorrect shoe work in childhood.

How nature intended the foot to grow - the Hurlbut way.

THE natural foot is not ungraceful - it is a perfect piece of mechanism. The toes are straight and strong, the instep high and pronounced, the sole tough but resilient.

Ill-fitting shoes - shoes that pinch and distort the toes - shoes that harden and callose the sole will give your child an awkward, graceless carriage. Fit HURLBUTS and insure the free graceful walk nature intended.

HURLBUTS are made with soft cushioning, natural shape toes, and are well-ventilated. They insure the lowest cost per day of wear.

Write for booklet about Hurlbut "Re-built Soles" and we will tell you the name of the Hurlbut dealer nearest to you.
