VICTOR Bi-acoustic Radio

Most radical radio development since the advent of the all-electric set... a striking revelation in

TONE

brilliant... thrilling... human

You must hear it to believe it!

VICTOR Bi-acoustic RADIO, Model R-22, complete with 12 tubes, \$189.50

Other Victor models range in price from \$69.50 up.

HERE'S radio that lives—that breathes—that pulses with realism, so human in tone that it enthalls both the trained and the untrained ear. The New Victor Bi-acoustic Radio, an improved super-heterodyne.

We invite you to hear it—to judge it for yourself. Any Victor dealer will be proud to show you the new Victor Bi-acoustic Radio. You will be amazed—thrilled—for you will hear radio finer than you have ever heard before.

Eight great advances... "B" amplification gives you the power for "thrill peaks" without loss through distortion. Extended musical range brings in two more octaves. Automatic tone compensators take out "tinniness"... new tone equalizers remove cabinet "boom".
 Dual automatic volume control counteracts fading. A new dynamic speaker for the first time handles all frequencies at all volumes. Twelve new-type tubes make possible more power, greater fidelity, smoother performance. And new cabinets, executed in beautiful woods, are tuned acoustically to give you finer, truer tone. All these extra features combined give you twice the power, twice the range, twice the tone quality!

BEFORE YOU BUY ANY RADIO hear the new Victor Bi-acoustic Radio. Compare its power, its range, its tone with any other. Complete with tubes \$189.50. Easy terms.
