ROCK QUARRIES ARE COMPARED

Ald. Perry Asks Questions Which Aldermen do Not Consider Are Justified.

A series of questions by Ald. Perry regarding the rock quarry negotiations in which the Board of Works has entered for the proposed surfacing of the streets brought down upon the utilities chairman's head the hearty objections of several of the city fathers at the council meeting last night. The questions which were exceeded in volume only by the answers provided by the city engineer, took up a good portion of the time at the meeting last night and were finally relegated back to the board of works for their information.

**Aldermen Surprised.** "I am surprised that Ald. Perry would submit a bunch of questions like this to the council when he could have obtained the same information from the chairman of the board of works," said Alderman Kelly. "If Ald. Perry has not enough to do as chairman of the utilities committee I would suggest that he join the Board of Works and give us some of his valuable assistance which we could use very well."

**Price of Quarries.** According to the figures submitted by the city engineer it was shown that the Smith Island quarry of 61,433 acres could be purchased from C. Christiansen and T. J. Davidson for \$2,800, while the lease on the Tye quarry of 47,966 acres was originally offered by A. C. Garde at \$7,500 with a subsequent quotation of \$2,700.

It was brought out in the answers that the city engineer considered the Tye rock might have the most favorable appearance as a building stone but the more uniform grain of the Smith Island rock would make it a better road material. The crushing strength and weight of the Smith Island rock was greater than Tye. Distance and transportation of the Smith Island rock was also in its favor, it being accessible by means of scows through a sheltered course, the quarry also being closer to town.

**CONTRACT FOR NEW WORKSHOP AWARDED** McKinnon & Strome Get Job at Lowest Tender of \$3,214.

The contract for the building of the utilities workshop was let last night by the city council to C. A. McKinnon and J. T. Strome, their tender of \$3,214 being the lowest submitted. A resolution was brought in by Ald. Kerr and Ald. Perry for the work to be done by day labor but this met with short shrift when Alderman Parker, Dybbavn, Silversides and McNeill pointed out that it would be unfair to the contractors. Ald. Dybbavn moved and Ald. Parker seconded that the lowest tenderer be awarded the work, it being but \$44 over the estimated cost.

The following were the tenders received:

John McKechnie, \$4,050; Mitchell & Currie, \$3,700; William Watts, \$3,950; McKinnon & Strome, \$3,214.

**INTERESTING GAMES OF BASKETBALL TO FINISH THE SERIES**

This evening's games in the Exhibition Hall will complete the season's basketball schedule. The following games will be played: Tillieums vs. King Edwards, Motors vs. Telephone Girls, Sons of Canada vs. a select team made up of E. Crangs, H. Charlton, V. Menzie, E. Smith and Dick Green, v.ell, with G. Mitchell and Art Eason spares.

There is a good deal of interest attached to the first girls' game as the Tillieums require to win to be champions of the Junior League for a win by the King Edwards would tie them in the standing with the Tillieums. Presentations of the cups to the Sons of Canada, Seniors and Colts, Juniors, will also take place during the evening.

STOP THAT TICKLING IN THE THROAT

by using Dr. Wood's Norway Pine Syrup

That tickling in the throat sensation is most distressing and annoying. Irritating, dry cough that not only keeps you in misery all day long, but also prevents you enjoying a good night's rest.

Dr. Wood's Norway Pine Syrup, which is composed of the most soothing and healing expectorant herbs and berries combined with the lung-healing virtues of the world-famous Norway pine tree, will give almost instant relief in all cases of this nature.

NOTHING new in Ireland today, just a few men killed and a building or two burned.

A DOCTOR down in the state of Pennsylvania is reported to have removed his own appendix. Apparently he was afraid to trust a doctor to do it. He knew the profession too well.

ABOUT the only real quiet place around town is in the store of a merchant that does not advertise.

SOME people procrastinate so much they even put off the hour of death to the latest possible moment.

IN Alberta they used to talk about wine, women and song. Now when they wish to be poetic they speak of raisin, Jack, chickens and jazz.

THEY say the reason the Government lost the Peterboro election was that they had too many huts on the political machine.

SPEAKING of the work of the secretary of the Lord's Day Alliance who was in the city recently, a Victoria paper quotes him as saying he wished to put the sun in Sunday. It goes on to suggest he might have said he was going to put the ban in band, and possibly take the bath out of Sabbath.

IF this practice of putting dynamite in coal cottages, fuel may go higher.

In answer to the letter sent by the city council regarding the filling of Cow Bay and the city's attitude on the action, a reply was received last night from the Provincial Government stating that the public works department would take the question up with the resident engineer before the matter would be taken up with the railway commission.

The offer of E. H. Mortimer for the purchase of half interest in lot 2, block 30, Section 1, at \$204.39 was accepted last night by the city council.

GRADING ROCK AT ACROPOLIS GROUND

Board of Works Recommends the Starting of Work Under Government Relief Scheme.

A request from the Board of Works asking permission to commence the grading of the rock at the Acropolis grounds under the government relief funds, whereby the federal, provincial and municipal governments pay jointly to provide work for the unemployed, was laid over for a week.

Ald. Kelly was in favor of permission being granted at once so that some work may be given to the 500 or so unemployed in the city.

Alderman Dybbavn opposed the granting of the permission for it was not known how much money it would take and it was not desirable to use up all the city's money now. He did not believe that this work would come under the terms of the government relief scheme anyway.

Mayor Rochester felt the same way, favoring the leaving over of the recommendation for a week. In the meantime, the work on the playground at McBride and Sixth Avenue was commencing this morning.

The old steps between Fulton Street and Fraser Street known as the "midway" are to be removed and a cinder path put in, according to the decision of the council last night on the recommendation of the Board of Works.

**NATURAL GAS AND PETROLEUM NOTICE.** DISTRICT OF QUEEN CHARLOTTE ISLANDS.
