Transfer Salmon From Fraser River.

Instead of transferring the salmon eggs from the Skeena River to the Fraser, along comes a man who suggests transferring the few eggs laid in the Fraser to other Canadian rivers where the neighbors from the south would not get a chance to capture them. It seems useless to go on cultivating salmon in that river and have hardly any of them get through the traps to the Canadian side of the line. The fool salmon do not have to go to the Fraser by way of Puget Sound and the Juan de Fuca Archipelago, but that is what they always do. The result is they are nearly all caught before they reach Canadian waters. The gentleman who made the suggestion says that if they were placed in the Skeena and other all-Canadian rivers then Canadians would get them all.

The proposal to take salmon eggs from a Canadian river and place them in a river on the boundary is one of the most foolish suggestions we have yet heard. What we have we'll hold should be our motto in this case.

Viscount Grey for British Premier.

Viscount Grey is spoken of as a possible British Premier to follow Lloyd George. There is no man who has such outstanding ability and who has the confidence of the British people like Lord Grey. He is the most radical in many respects of the Liberal-Unionists and has never had any aspersions cast on his actions by the members of any party. He is respected by high and low, rich and poor. He is not a good mixer and there is none of the demagogue about him, but he is keen on a policy which will give power to the people and will curb the selfish ambitions of the few. Grey is the only outstanding man in Britain with the exception of Lloyd George.

Quitting Business To Enjoy Life.

Our attention is once more drawn to the fallacy of thinking of quitting work in order to enjoy life. Work is the most enjoyable thing in the world. Inactivity is misery. The healthy man wants to do things. Accomplishment is his ambition. It is the ambition of every man with red blood in his veins. The strenuous life is the happy life, and for the man who has once led the strenuous life to quit is to die.

The physician who caters to a community of retired men has the most difficult task possible. He can of course prescribe golf and travel, but there his usefulness ceases. If he can not get his patient to take up some other hobby, he is pretty sure his patient will die. There are other hobbies, of course, but not many of real value.

The busy man who has devoted his life to one line of work is in a parlous condition if he gives that up. Happy is the man at such a time if he has a hobby that will carry him one until time and eternity merge one in the other.

Action of States May Lead to Trouble.

There is in the United States today a tendency to deal summarily with any movement of the workingmen in case of an industrial struggle. While there are many who sympathize with that method, they do not realize its danger. It is the usurpation of rights by the wealthy that leads to the movement for usurpation of rights by the workers, more commonly known as the dictatorship of the proletariat. Neither are right. Class rule is always wrong. Rule by the farmer class, the working class, the manufacturing class or any other class is not in the interests of the country. Every class must stand up for its rights and see that it is not oppressed by any other, but it is just as bad for one to get all the power as for the other. The tendency in the United States to use unjust or illegal force against the workers in any particular industry is bound to lead to reprisals which will have a bad effect.

GREETINGS!

To my friends and patients

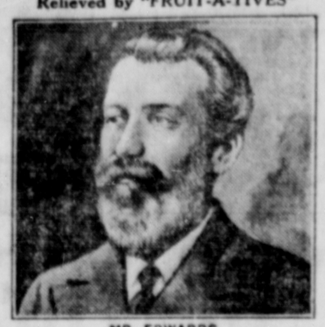
STOMACH ULCER AND GALL STONES

After Suffering 25 Years, Completely Relieved by "FRUIT-A-TIVES"



MR. EDWARDS

MAPLEHURST FARM, HILLHURST, P.Q.

"I am in my 78th year. *About 25 years ago, I began to have trouble with my Stomach.* One doctor said I had Cancer; another said, Ulcer of the Stomach; another, Gall Stones; others, Ulcers of the Liver and Inflammation of the Gall Bladder.

Three years ago, I consulted one of the best specialists in Montreal. He said I must go to the hospital, have an Ulcer cut out of my stomach and gall stones removed. I was then 74 years old. I said "NO."

Then, I began to take "Fruit-a-tives". I found they helped me a lot, and I still take them occasionally, and I am so much better that my old friends often ask me what I have done to myself to look so well. I am gaining in weight and enjoying life very much"

H. W. EDWARDS.

50c a box, 6 for $2.50, trial size 25c. At dealers or sent postpaid by Fruit-a-tives Limited, Ottawa.

CLUB BAGS for Christmas Gifts

Large Stock on hand. Prices very low.

UNEMPLOYMENT FIRST PROBLEM

Liberal Leader Will Have Big Task in Dealing With Out of Works.

OTTAWA, Dec. 23.—Unemployment, it is expected, will be one of the first problems to be tackled by the incoming government. There has lately been a slight improvement in employment, but the situation is admittedly one of great difficulty. In Ontario alone it has been estimated that there are 30,000 out of work. A year ago so pronounced had unemployment even then become, the Meighen government announced a policy of relief under which municipalities throughout Canada were to be reimbursed one-third of the amount each found it necessary to expend to relieve distress. On this scheme, over $600,000 has been expended. At the opening of the present winter season, the federal government submitted proposals to all the provincial governments under which, to encourage employment, the federal government would bear part of the actual cost over estimated normal cost of work provided by municipalities. Under the proposals, the excess cost was to be borne equally by the municipal, provincial and federal governments.

To these proposals, it is understood, the only provinces which have so far acceded are Manitoba, Alberta, Saskatchewan and British Columbia. The other provinces have not so far taken up the Dominion government's proposals.

May Evolve New Scheme.

What scheme for meeting the situation the new government will evolve remains to be determined. The Liberal leader is engrossed in the preliminaries leading to cabinet formation. But, once the new ministry is sworn in, there is little doubt that the difficult problem of unemployment will be one of the first for consideration.

Paul Aivazoff left last night for the south enroute to Europe where he will spend four months visiting the principal cities. He was given a send-off at the boatside where many of his friends had gathered.

VISITORS AT ROTARY CLUB

Dr. Sager and New Engineer Guests at Luncheon Yesterday.

There were two guests at the Rotary Club luncheon yesterday afternoon, Dr. Sager of Port Simpson and F. J. Whittaker, the city engineer. Dr. Sager said although he lived in a more ancient city than this they had there no rotary club. They had one thing and that was one of the finest hospitals on the coast. He was surprised that so few Prince Ruperi people visited Port Simpson.

Dr. Sager said the success of Port Simpson largely depended on the success of Prince Rupert. He was proud of Prince Rupert and said he hoped to spend the greater part of his life in the district. It was useless to discuss what Port Simpson ought to have been. They had to face facts as they found them and make as much of the place as possible.

City Engineer.

Mr. Whittaker, said there were three things that struck him forcibly in regard to Prince Rupert. The first was the great possibilities of achievement; the second the large amount of achievement for the small outlay of money and third the absence of knockers in the city. Under such conditions prosperity was bound to follow.

The Man in the Moon SAYS:-

MANAGING a wife is just as difficult as harnessing a cyclone.

* * *

THE most annoying person in the world is the one who is too conscientious.

* * *

ONE way to make the world safe for democracy would be to kill all chaffeurs and hunters.

* * *

DRIVING an automobile at 40 miles an hour does not always mean that the driver will reach success in life.

* * *

THE thing most of us old fashioned people wonder about is why a lot of women stick to their husbands.

* * *

PUTTING stucco on an old house is like putting paint on a girl's face. It freshens it up a bit but does not renew its youth.

* * *

NOW that the Christmas season is here put away the little hammer and quit knocking until after the year 1922 arrives and then perhaps you may forget it.

* * *

JUST as people were beginning to fear the reputation of Ireland, along comes Belfast and Derry and keeps the country in the public eye.

* * *

THAT man who is threatening to oppose Mackenzie King had better think twice if he wishes to save his political reputation. The planets point to the rise of a king with great progress for Canada during the coming few years.

Ten Years Ago in Prince Rupert

December 23, 1911.

In the past few days the firm of McCaffery & Gibbons have transacted twenty-three sales of Prince Rupert real estate.
