## "HUMORESQUE" IS ONE OF GREATEST PICTURES OF YEAR

Attracted Crowds at Westholme Theatre Last Night—On Again Tonight.

There was a crowded house at the Westholme Theatre last night when the great motion picture, "Humoresque" was put on for the first time in the city. Tonight the feature will be repeated.

"Humoresque" is one of the biggest photoplays of the year and it is impressive with its sincerity and intense heart appeal. It is a story of human beings as they are. Tears and laughter intermingle in it, as they do in every day life. The story of the genius of the violin who, aided by that beautiful gift, mother love, rose from obscurity and poverty to the heights, strikes a responsive chord in every heart.

To round the program out there is a sunshine comedy, "Pretty Lady." This should, rather have been called, "Pretty Ladies," for there is a boy of them playing baseball on the beach. There is also the Pathe Review showing interesting topics of the day.

For the feature a special musical program has been arranged which in itself is a treat. Sam Brail plays the violin solo, "Humoresque."

## PRINCE GEORGE THE COMMERCIAL CENTRE OF VAST INTERIOR B. C.

(Continued From Page One.)

reasonable rate, and with the advent of cheap power other industries should follow. Power is the key that unlocks the gate to prosperity and Prince George is forging the key.

**Everything Big.**  
The city of Prince George is located at the junction of two mighty rivers. Everything there is big, including the rivers, the extent of country, and the vision of the people. Under these conditions there must follow a big city with wide ideals.

At present the population of Prince George is probably about three thousand or a little more. The property is assessed at a little over two million dollars and the tax rate is thirty-seven and a half mills on the dollar. The rate may seem high but it must be remembered that there is no local improvement tax in the city, all new work charges being taken from general revenue. This makes the rate a low one compared with many other centres.

**Settlement Needed.**  
Prince George is just beginning to find herself. She suffered severely from townsite promotion and from the depression of the war period. She has also suffered from the fact that while lands in other districts have been settled and cleared, the lands of this district have, with a few prominent exceptions, been neglected. What is needed now is a comprehensive settlement scheme to bring the lands under cultivation, especially those within easy reach of the city. The Board of Trade, it would seem, might well take this matter in hand. A sales bureau where these lands could be registered free of charge, accompanied by maps and descriptions might be useful.

**Rupert's Greetings.**  
It was at Prince George we joined the Dairymen's Association and drove out with them as the guests of the Board of Trade to see some of the farms, places that gave promise of what might be done in the district. I met the Board of Trade on the night of our arrival and conveyed to them greetings from Prince Rupert and the desire of the coast centre to co-operate with the interior. The Prince George people were extremely hospitable and we took back to the visit with the keenest appreciation. We remember the splendid townsite, the excellent roads, the picturesque situation, but especially the optimistic people, with a wholesome discontent, anxious to improve, yet with a pride in the city and surroundings which will carry them a long way.

Prince George has a location similar to Winnipeg and in time should rival that city in importance.
