SNOW AND SLEET HAVE NOT DONE ANY CROP INJURY

Sudden Change in the Weather Takes Place Thursday, Concluding Throughout Friday.

Edmonton was visited by a snow and sleet storm Thursday night and Friday morning during which time there was a lowering of the temperature till 6:30 in the morning when sleet came and gradually turned into a fine rain which ceased about eleven o'clock when the sun again put in its appearance.

Green and white was therefore the color scheme which met the eyes of the citizens as they looked out upon their lawns and the trees and the grass that surrounded their homes and they beheld the tender shoots of spring battling with the rigors of winter. This only lasted for a short while and soon the white mantle which covered the flat surfaces to the depth of an inch and a half disappeared under the warmth of the sun's rays.

The precipitation of snow, sleet and rain together amounted to a quarter of an inch and this had an altogether beneficial effect on the growing garden stuffs.

Little or no injury to the crops it is stated, has resulted from the snowfall. None of the grain crops show injury while some of the more tender vegetables, such as tomatoes have not been nipped. D. W. Warner, farmer,

Was Suffering from INDIGESTION

No Fear of Pains Now

Indigestion is one of the worst forms of stomach trouble, and many people suffer terribly after every meal they eat. The rising and souring of the food, pains in the stomach, heartburn, water brash, belching of wind, vomiting shortly after eating, etc., are some of the symptoms.

There is no need for any person to be troubled with indigestion, dyspepsia or any other stomach trouble if they would only take Burdock Blood Bitters, which contains a combination of nature's roots, herbs, barks and berries; a combination that cannot help but put the stomach right.

Mr. H. H. Collins, Norton, N. B., writes: "I was with the overseas forces for four years and two months, and in October, 1916, I was unfortunate enough to be wounded and taken prisoner. I was a prisoner for 2 1/2 years, and the food they gave us was not good at times, and after a few months I found I was suffering from indigestion. When I came home in July, 1919, I was nearly a wreck. I was told to use Burdock Blood Bitters. I did so and found great relief, and can now eat without fear of pains and sickness. I would recommend B. B. B. to all who suffer from indigestion."

Burdock Blood Bitters has been on the market for over forty years, and during that time has made a reputation second to none for relieving all stomach troubles. Manufactured only by The T. Millburn Co., Limited, Toronto, Ont. Advt.

Glover Bar, reports that his corn was not injured by the frost. In some of the low places, he believes, some of the vegetables would be touched by the frost.

The frost did not come until early in the morning and by that time there was a blanket of snow over the sprouting grains. The fact that most of the crops escaped frost is attributed to this.

SMITHERS

The past few weeks has seen many intending settlers looking over the land in the Bulkley valley, and the next few months will see a noticeable addition to the population from this source. The newcomers are mostly from the Canadian prairies and Montana.

J. D. Galloway, resident engineer for the department of mines in this district was in Smithers yesterday, after having spent a few days inspecting the Betty coal property under lease to Mr. Gillespie, and located about six miles from Telkwa. Mr. Galloway expressed both surprise and satisfaction over the coal showing opened up so far at the Betty property. The great need at present is a road to the mine and it was in regard to this that he had been visiting the property. Until the road is made fit for traffic no shipping can be done.

Miss West who has been living with her father at Rose Lake, died on Monday. Deceased had been an invalid practically all her life.

HOLMES MURDER TRIAL STARTED

(Continued from Page One.)

one foot was bare. The shot in the head, in the witness' opinion, was enough to cause instant death.

Upon going out of the cabin Holmes said, "I surrender myself to you for this thing." Witness replied that he did not know whether he had authority to put him under arrest as he was not a police officer, however upon the accused saying that he put himself entirely in his hands witness took the prisoner, together with Mrs. Holmes, to Thurston Harbor and handed him over to the provincial police authorities. Holmes remarked to the witness in conversation that the man Booth had been bothering his wife and that he was a Southerner, and you know what that means.

Returned to Scene.

Witness returned on January 5 to the scene of the shooting together with the prisoner, the coroner and police authorities. He took part in the examination of the shacks, when the revolver and the two papers were found, one of the latter purporting to be a will made out by the deceased in which he said he bequeathed all his worldly belongings to the prisoner and his wife. The other was a note to the prisoner's wife from Booth in which he said he was tired of being the goat, and that he was leaving this world for no particular reason, and requested that his dead body be thrown to the waves of Gushwa Inlet.

W. Fairbairn, of Queen Charlotte City, who was sworn in a special constable and accompanied the provincial police and coroner to the scene of the shooting on the day but one following, gave evidence of a corroborative nature as to the finding of the body and the discovery of letters, shot gun and shells. This closed the crown's case.

Wife's Evidence

Mrs. Irene Holmes, wife of the prisoner, then went into the stand and described plainly and lucidly the entire happenings to her husband and herself from their leaving Vancouver the latter part of last August to the day of the tragedy. Holmes and herself obtained work at a Whalen camp on the Islands, he in the woods and herself waiting on table at the mess house. It was here they met the deceased, Joe Booth, and after a short time became friendly, the latter being fond of music and playing the mandolin with the witness. Everything went well until the first of November when the deceased began to show familiarity towards the witness and from then made her life a misery, persecuting her with his attentions. The reason she did not tell her husband was on account of the fact that the deceased threatened to kill him if she did so.

A. M. Manson is conducting the case for the defence.

PRINCE GEORGE

A fine bunch of cattle numbering 65 head arrived on Sunday morning last, from the Lower Fraser valley for the dairy herds of Beverly and Mud River farmers. The railway corral presented an animated scene as the cattle, mostly milch cows with their udders heavy with milk, were being milked by an army of volunteers, who had received a hurry up call that anyone who could milk a cow would be received with acclaim and could have the milk resulting from his labors gratis. These are the cattle purchased by Trevor H. Bagot, of the farming firm of Seymour and Bagot of the old Miller ranch on Mud River, acting on behalf of the Mud River Farmers' Institute.

It is expected that the Mud River Creamery will open in about two weeks time.

An enjoyable tea was held in the Hills-Keifer hall on Sunday afternoon last, by the girls' auxiliary of St. Michael's Church.

Old timers will regret to hear of the death in Seattle of Mr. J. C. Hutson, which occurred last month. Deceased was a brother of Trafford Hutson of the Canadian Land and Securities Corporation, Ltd., owners of large property interests in this district.

Many people read newspapers as much for their advertising columns as they do for news.
