Meet Tonight to Organize.

There is to be a meeting tonight at the Liberal rooms, Pattullo Block, to organize the forces which are opposed to the present Meighen Government and to prepare for the big political fight which has already commenced. The candidate, Fred Stork, will be present and will give an address, and Hon. T. D. Pattullo, who is expected to arrive on the train from the east, will also speak. In addition there will be Hon. A. M. Manson, Speaker of the Provincial Legislature, and H. F. Kergin, member for Atlin, both of whom leave tonight for Victoria to attend to their legislative duties.

This is a time when men and women who have the interests of the country at heart should consider carefully where they stand politically and whether they are prepared to continue the hit or miss methods of the past or inaugurate a totally new regime by returning the Liberals under the leadership of Hon. W. L. Mackenzie King.

Those who are dissatisfied with present conditions have but one option. They can depend that the next Government will be either Liberal or Conservative. They may, of course, elect some kind of an independent, but that will not get them anywhere. Even should the Liberals not be returned by a complete majority they will have the largest group in the new Parliament and Mackenzie King will be the next Premier. How much better then that the constituency of Skeena should be represented by a straight Liberal who would be in sympathy with the Government and in a position to help the district.

Those who think it is time for a change of Government would do well to attend the meeting tonight and hear what the speakers have to say. By doing so they do not bind themselves to support the Liberal candidate, but they show themselves opposed to the present administration. This is not a public meeting for a debate on the public issues, but a gathering of opposition forces to organize for the fight against misgovernment and autocracy of the Conservative group at Ottawa. It is open to all who are against the coeries who are at the beck and call of the big financial interests of the east.

Lay Foundation of Big Buildings.

The corner stone of the big Government buildings on Market Square, which will be laid tomorrow, will be an important event and one that will be long remembered, for the monument will be with us always as the central building of the whole city. It will be the administration building for the northern coast district and as such is worthy of the expenditure which is being made on it. It will be a building of which the people of Prince Rupert may be proud.

The Government building will be the fruition of one of the promises made at the time when the city was in its infancy, the only fulfilled promise of the very many made at that time. The hotel and station and drill hall and postoffice and other buildings are yet to be erected. The court house is under construction and good progress has been made on it, and it should be completed next year and used for the purpose for which it is designed. Doubtless a great many will be present on so important an occasion as the laying of the corner stone.

Trades and Labor Council Activities.

S. D. Macdonald has been chosen at head of the labor parliament of this city, the Trades and Labor Council. This body is a most useful institution in that it serves to unify the labor interests of the city and to help direct their activities along lines which are for their mutual benefit. The head of the council is a most important official and his influence is very wide. It is very important that the choice should always be carefully made and that the man who occupies the position should be a leader of the thought of the mass of the labor people of the city and not of a section of it.

Mr. Macdonald has been identified with labor matters for many years and is perhaps better fitted than any other to assume the position. He is generally looked on as a safe man who can be relied on in an emergency and whose interests are those of the majority of the labor men of the city.

Appetite Good, Gained 20 lbs. Could Not Feel Better

From a nervous wreck this man was restored to health, strength and happiness.

He tells his own story in this letter.

Mr. Ralph A. Roberts, Loversburg, Sask., writes:

"In 1917 I had lost all appetite, failed 25 pounds in weight, became very nervous and shaky and in fact given up all hope of recovery. For some time I had suffered from constipation, which kept getting worse, until I was fast becoming a total wreck. Doctors and their drugs were sending me to my grave at the age of 39.

"Then I read about people being restored by Dr. Chase's Medicine and after three months' use of Dr. Chase's Nerve Food and Kidney-Liver Pills I found that my bowels were restored to normal movement each day and the constipation was no more. I had a good appetite, had gained 20 pounds and could not feel better. I shall always be grateful for these benefits."

LAKE DISTRICT AND CREAMERY

Farmers Placed Matter Before Hon. E. D. Barrow at Meeting on Monday.

At a meeting held at North Francis on Monday, the people of the Lakes District laid before Hon. E. D. Barrow, provincial minister of agriculture, their claim for the establishment of a creamery in that section. There were present besides Mr. Barrow, Hon. A. M. Manson, speaker of the legislative assembly, Duncan D. Munro, chairman of the land settlement board, and George H. Outram, managing director of the Vanderhoof creamery.

There was a large and representative attendance and the matter was gone into thoroughly. Mr. Barrow indicated that the department of agriculture sympathized with the claim and stated that he would assist in the bringing in of more dairy stock and that it was planned to establish a Grassy Plains a reservoir of this stock. The establishment of dairy clubs at various places was recommended. Data was brought in at the meeting showing that already there were over 400 head of milk cows in the Lakes District. All the settlers were ready to substitute dairy stock for beef cattle.

A committee was appointed to take up the matter of the establishment of a creamery and carry through the project. Mr. Barrow advised that the settlers bring in more dairy stock and make use of the creamery at Vanderhoof in the meantime. He indicated that a creamery would be a certainty in the Lakes District at no far distant date.

THE PROPHET.

A farmer persuaded one of his town friends to accompany him in his dog-cart on a jaunt to the country. But the horse seemed to resent the stranger's presence and, taking the bit between his teeth, bolted.

"I say, Bill," said the townsman "I'd give five quid to be out of this!"

"Don't thee be so 'andy w' th' brass," replied his friend; "tha'll be out for nowt in a minute."—Novel Magazine.
