Lumber Business May Improve.

As a result of the decision of the railways to lower the rate on carrying lumber from the Pacific coast, there may be an improvement in the lumber business of this district. Last autumn the railway commission advanced the rate very considerably and as a result the business was cut off completely, and the railways were idle in so far as that business was concerned. After waiting a long time to see if there would be a revival the railways have decided that they must drop the prices in order to induce business. This was not done by the railway commission but by the railway association which is an organization that includes representatives of all the Canadian railways.

The sad thing seems to be that the railway commission did not use better judgment than to order such an advance in rates as to kill the business. The railways also seem to have been so anxious to extract the last dollar from the business that they injured themselves in doing so.

Strike Settlement

Failure Regrettable.

It seems regrettable that there is to be industrial war in Great Britain as a result of the failure of the negotiations between the Government and the miners. The outcome will certainly be injurious to everyone. If the big strike goes into effect there will be all sorts of hates engendered and it is not improbable that actual bloodshed will follow. This industrial warfare is real war and might is apt to win just as often as right.

Good News

Regarding Cars.

It is good news in regard to the refrigerator cars and those who have given so much of their time and energy to getting the matter under way will feel elated over the outcome. The government, yielding to the pressure of public opinion, seems now to realize that fish cars must be provided and the work is going on. We shall all welcome the sight of the first of them here, after the strenuous time we have had in trying to make the authorities realize the necessities of the business.

Road to Skeena. Is Next Move.

There seems to be a possibility of getting a road built to the mouth of the Skeena River in the near future, this to be the first section of the road to connect Prince Rupert with the interior of the province. It is a momentous move and if we can get it going this summer it will be a great thing for the city.

It is difficult to realize just what it would be like to be able to drive or walk to the back end of the island over a good motor road. We have become so used to the penned in condition that it will be a wonderful change to be able to drive out into the country.

PRINCE RUPERT TIDES

Wednesday, April 13

High, 4:23 a.m., 20.0 feet.
 17:32 p.m., 17.1 feet.
 Low, 11:06 a.m., 1.1 feet.
 23:13 p.m., 8.3 feet.

Thursday, April 14

High, 5:23 a.m., 19.1 feet.
 18:41 p.m., 16.9 feet.
 Low, 12:06 p.m., 5.2 feet.

The time used is Pacific Standard, for the 120th Meridian west. It is counted from 0 to 24 hours from midnight to midnight.

The table given is for Port Simpson but the time for Prince Rupert varies only a few minutes on some days and on others is the same. The range of the tide may be computed as 5 per cent greater at Prince Rupert than at Port Simpson both at springs and neaps. Therefore the rise in the Prince Rupert harbor is slightly greater than Port Simpson.

The height is in feet and tenths of feet above the average level of lower low water.

NO MONEY IN VLADIVOSTOK

Plenty of Necessities But Little Cash With Which to Pay.

TOKIO, April 12.—Residents of Vladivostok have plenty to eat and plenty of clothes, but no money, according to a correspondent of the Kokusai News Agency who has just returned from that city.

"Good beef can be purchased for 20 cents a pound," he says, and continues: "A good suit of clothes costs about one-third what they do in America and other things in proportion. The only thing the people lack is money to spend. Coin has virtually disappeared from circulation and nobody will accept the paper notes. Wages, even of government employees, are paid in food, clothes and tickets for use with the public utilities."

"The plentitude of these necessities is explained by the fact that huge stores have been imported into Vladivostok for shipment into the interior and are being held there indefinitely. These stores are being drawn upon."

Outsiders Starving.

A few miles out of Vladivostok to the north conditions are very different. There the population has neither money nor supplies, and hunger and cold have taken liberal tolls of the Russians. The Chita authorities have been sending clamorous demands that Vladivostok share her supplies with the rest of Siberia, a call to which the local authorities have shown no disposition to respond, even if the Japanese would let them.

"These latter have been taking the stand that until it is certain that Japan will not have to fight China they will not permit the exportation of anything that may later be used against the Japanese forces."

"The lack of acceptable money in Vladivostok is resulting in business stagnation. Anyone with good money can buy anything he wants and cheaply but in its absence nothing can be sold. Business houses are fast closing their doors and factories are shutting down."

SURVEYORS TRICKED BIG BLACK BEAR SO NOW HAVE HIS HIDE

New Westminster Surveyor Kills Bruin with Axe while Assistant Attracts Attention

EDMONTON, April 13.—Without the aid of gun, capturing a bear weighing 200 pounds and putting him to sleep within fifteen minutes of their unexpected meeting, was the feat of Roy Horie, surveyor, and C. L. Latimer, his companion, within a mile of New Westminster's city limits recently. Bruin happened to cross the surveyor's lines. While Latimer attracted his attention with a pole, Horie cautiously advanced with an axe and now has a fine black, glossy hide.

Ten Years Ago in Prince Rupert

April 13, 1911

Alderman T. D. Pattullo has resigned from the city council, having decided to make his headquarters in Victoria. He will continue to conduct his real estate office and holdings here.

R. Brutinel, engineer of the Tsimpsean Power and Light Co., arrived yesterday from the south and will spend a few days here completing plans for the power plant of the company at Port Edward. When the Grand Trunk Pacific Railway is through, Mr. Brutinel says his company will be able to supply the city with power and light.

Duncan Ross is in town on his way to Hazelton on a private business trip. Mr. Ross is boosting the endorsement of the Reciprocity Treaty with the United States.

E. E. Emad, of Montreal, is in the city planning to build a fine two-story business block on Third Avenue opposite the telephone exchange.

"Taxi, sir?"
 "Go to hell."
 "Sorry, sir, can't leave the city limits."
