FIRE INSURANCE is a hobby of ours. We take keen pleasure in making sure that all policies are so written that they cover your property exactly as you intend. If you entrust your fire insurance to careless, inexperienced or ignorant agents you may find, when you come to collect your fire loss, that your policies are so worded that the insurance company is not liable and so will not pay the loss. Why take chances?

NEW MACHINERY FOR VICTORIA LUMBER MILL

Temporary Shut Down Throws 250 Men Out of Work For a Month.

VICTORIA, Dec. 22.—The big mill of the Canadian Puget Sound Lumber & Timber Company has closed down for the Christmas holidays in order that new equipment to further increase the plant's capacity may be installed.

The C.P.S. mill is already rated among the heaviest producers in British Columbia, and this year ran a close second to the big export plant of the Victoria Lumber & Manufacturing Company at Chemainus. The present capacity is approximately 125,000 feet daily. With the new machinery installed, the mill will be capable of manufacturing 170,000 feet a day, according to present estimates.

A horizontal re-saw has been ordered which will increase the production by about twenty-five per cent. The changes to be carried out represent an investment of between $25,000 and $30,000.

Although about 250 men will be temporarily out of work as a result of the shut-down, it is expected that when the mill resumes operations in about a month's time it will carry an even larger personnel, adding substantially to the city's industrial payroll.
