MACKENZIE KING AND HIS POLICY

Charges Cost of Government is Much Too High—Dollar a Day Each Family.

LONDON, Ont., Nov. 12.—A long disquisition on the railroad situation by Hon. Charles Murphy and a rapid fire speech by Hon. Mackenzie King, reaffirming his attitude on the tariff and charging the government with autocratic and extravagant methods, were the principal events of the Liberal rally tonight at the winter gardens, attended by about 3500 people. Mr. King returned from Ottawa at 10 o'clock and held his audience until nearly midnight. Hon. C. S. Hyman, former minister of public works, and C. R. Somerville, ex-mayor of London, the local Liberal candidate, also delivered short addresses.

Self-Government Issue.

Hon. Mackenzie King, after an allusion to his attendance in Ottawa at Lady Laurier's funeral, spoke of the many issues of vital importance which, he said, shold be discussed on the platform before polling day. The real issue before the electors was the right of self-government and this right Mr. Meighen had taken away. Vast sums had been voted under closure for the railway, and the merchant marine had been established without the people having any choice whatever in the matter. Parliament itself had denied the details for discussion of the expenditures. "Don't complain of autocratic government in future," said Mr. King, "if you tolerate such methods now."

Publicity, and not secrecy, was the absolute essential in the conduct of public affairs.

"Mr. Meighen," exclaimed the Liberal leader, "has ideas of government wholly foreign to the spirit of social justice of this age."

Cost of Government.

The cost of government, directly or indirectly, said Mr. King, was now nearly $1 a day for every family, an amount which represented the difference between a mortgaged home and one free from encumbrance; an amount sufficient to secure protection against sickness and accident. The present government had become so extravagant, so accustomed to spend not millions but billions of dollars, that it could not take small expenses into consideration. Economy and retrenchment, Mr. King said, were the first reforms necessary.

The autocratic methods of the government had been well exemplified by its action in regard to the navy. Hardly had the minister of marine informed Parliament that nothing was to be done until after an imperial conference had been held to decide Canada's obligations relatively with those of the rest of the Empire, when an announcement was made that a small fleet of warships had been accepted as a gift from Great Britain. The gift had been accepted on condition that the ships be manned and kept in commission. Mr. King said he had nothing against Canada doing her part in the defence of the seas, as well as of the land. The people, however, had the right to be consulted before such obligations were assumed.

The Tariff.

Coming to the tariff, Mr. King said his attitude towards the tariff platform today was exactly what it was at the time of the Liberal convention. "Try to carry out anything literatim and verbatim and you destroy the spirit altogether.

Mr. King challenged Mr. Meighen to print in two columns side by side, any two speeches he had delivered on the question of the tariff in any way varied from each other.

CHANGE REGULATIONS MARKING OF GOODS

OTTAWA, Nov. 14.—Customs regulations respecting the marking of imported goods with an indication of the country of origin have been considerably changed in so far as they concern piece goods, carpets and oilcloths, it was announced at the department of customs here. Under the new regulations cloth and material in the web or roll will be marked with an indication of the country of origin on one end of each web and on the piece ticket. Carpets will be marked by means of a protruding ticket attached to the edge of each roll at the centre, and linoleums and oilcloths will be marked at one end of each roll either by stamping, stencilling or adhesive label.

The former regulations called for markings every three yards on piece goods capable of being marked without injury, and every five yards on carpets.

Head and Nostrils Clogged Up.
Could Hardly Breathe

When you become all choked up and stuffed up with a cold your head becomes thick, the nostrils become so clogged up you can hardly breathe, a feeling of weight or oppression in the chest and the cough rasps and tears your lungs and bronchial tubes.

This is the time to take DR. WOOD'S NORWAY PINE SYRUP before things get to be too serious. There is no remedy to equal it for clearing up the cold, making the breathing easy, loosening the phlegm and soothing and healing the lungs and bronchial tubes.

Mrs. Edward Kincade, 60 Bryden St., St. John, N. B., writes:—"I wish to express my hearty thanks to your valuable remedy Dr. Wood's Norway Pine Syrup and what good it did me. Last fall I contracted a severe cold, the like I never had, my head and nostrils were so clogged up I could get no vent, and could scarcely get my breath. I tried remedy after remedy until at last I thought I thought I would try 'Dr. Wood's.' After the first dose I felt relief, and by the time the bottle was finished I was all better. I will always keep it in the house."

Price, 35c and 60c a bottle; put up only by The T. Milburn Co., Limited, Toronto, Ont.

ASK FOR MEDICAL EXAMINATION OF ALL MEN WHO MARRY

LONDON, Ont. Nov. 14—At the closing meeting of the convention of Women's Institutes of Western Ontario today, the delegates favored medical examination of persons desiring to marry, but a difference of opinion arose as to whether such examination should be conducted by the family doctors or a public health officer. The resolution finally was referred back to the society which introduced it, for information as to whom it is proposed to have make the examination.

A motion which aimed to have the age at which young people may marry raised was referred back for further investigation. During the discussion it was suggested that the marriage age be made 18 years where the consent of the parents has been obtained, and to 21 years where such consent is lacking.

A resolution favoring the appointment of women as judges in Juvenile Courts gained only slight support, the delegates taking the ground that it would be unwise to interfere with male magistrates, who are satisfactorily discharging their duties in regard to juvenile delinquents.

Advertising is often expensive, but it is nothing like as expensive as an empty store and idle clerks !!
