DAILY EDITION Thursday, August 18, 1921.

What Is Wrong With Body Politic?

What is wrong with the body politic? That is a question which is bound to be asked at a time like this when there is a certain amount of unemployment and consequent suffering in the world. It is a time when the faddist gets busy and tries to show that he has a remedy for all the ills. He will show how iniquitous is the present system and how the system which he advocates will bring the millenium.

And yet in spite of that we find an ideal republic, that of Georgia, swallowed up by a bigger republic, that of Soviet Russia, and in that same Soviet Russia the people are starving and the Soviet, which was to be the cure-all for the diseases of the body politic there, has to appeal to the nations of the capitalistic world for help. It is only because the rest of the world is capitalistic that it is able to help.

One Way to Change The Body Politic.

There is only one way to bring about a permanent change in the body politic and that is to change the people. There has to be a growing away from the things which have made all governments bad and a movement toward those things which make for betterment. The growth is partly moral and partly intellectual, and the intellectual development has to be equally as great as the moral development. The time will come when it will be considered immoral for people to spend money on their own pleasures when there are other people hungry. The time will also come when intellectually people will be developed and their visions broadened so that they will be able to distinguish between the false and the true. They will be able to analyze for themselves and not allow the spellbinder or the agitator to carry them away. No one likes to think that he has not enough mental ability to weigh the pros and cons and think for himself, and yet it is true that very few have that ability. An adventurous voyage on the intellectual sea is very likely to prove disastrous, and it is only when we have that sea properly charted and danger marks put on the shoals, with safeguards against the storms of adversity and preparations to meet the dangers of tropical sunshine and the doldrums, that we can begin to use our intellectual faculties with advantage to ourselves and without danger to the rest of the world.

Visionary Schemes Are Attractive.

There is no short cut to this development. Experience is the only teacher. We see all sorts of visionary schemes which are attractive, but which on being tried prove failures. We have to experiment in order to find out. The unknown is always attractive or else people could not sell oil stocks, neither could they sell stock in the world to come. Just as there are growing pains in youth, so in the intellectual growth of the nations there have to be these growing pains, sometimes convulsions and occasionally national extinction, all part of the process of intellectual development of the mass of the people. A little knowledge is dangerous. Safety comes with the wider education which gives power to see things in their relation to other things. Intellectual forces have to be harnessed, just as we have harnessed electricity and are beginning to harness radium and other physical forces.

Nothing to Cause Worry.

Some people are worried because they think the world is going to the bowwows. There is no need to worry. The whole civilized world, as we call it, is becoming active. There is a gradual speeding up of all activities and in the working out there is bound to be a certain amount of suffering. To aid in the making of the inevitable changes and at the same time to prevent too great suffering in the process is the work of the great men of the day. Think what a great work Lloyd George has done in getting the various classes together and moulding them to accept changes, and that without friction. Think what other great men can do. There is a wonderful work to be done in the future.

WELCOME RELIEF FROM ECZEMA

Complete Treatment That Gives Gratifying Results

WASINO, ONT.
"I had an attack of *Weeping Eczema* so bad that my clothes would be wet through at times.
For four months, I suffered terribly, I could get no relief *until I tried "Fruit-a-tives" and "Sootha-Salva"*.
Altogether, I have used three boxes of "Sootha-Salva" and two of "Fruit-a-tives", and am entirely well." G. W. HALL.
Both these favorite remedies are sold by dealers at 50c. a box, 6 for $2.50, or sent on receipt of price by Fruit-a-tives Limited, Ottawa.
"Fruit-a-tives" is also put up in a trial size which sells for 25c.

FALL SESSION A PERMANENCY

Expected to Take Place of Usual Spring Sitting of Legislature at Victoria.

The fall session of the Legislature which will be held this year it is expected will take the place of the usual spring session, Hon. Speaker Manson stated this morning. It will take up all the work usually done in the spring and will mean the commencement of a permanent change in the time of holding the sessions of the Legislature. The change has been contemplated for some time and it is expected will become a permanent feature.

It is pointed out that a fall session instead of one in the spring will enable the government to get the finances into better shape for the closing of the fiscal year, and bonds may be floated and got on the market earlier. This will prove advantageous.

Premier Oliver and Finance Minister Hart are now working hard on the financial problems which are likely to come up and especially that connected with the adjustments with the municipalities with a view to relieving the latter to some extent of their burdens.

HON. DR. KING COMING HERE

Will Pass Through City Wednesday on Way to Interior B.C.

Hon. A. M. Manson has received word that Hon. Dr. King, minister of Public Works, will be here on Wednesday next enroute to the interior to inspect the progress made on public works and to ascertain if his department is keeping pace with the settlement which is going on there. He will have only an hour in the city but during that time he will inspect the work being done on the new Provincial Government buildings here.

Owing to the fact that a fall session is being held and that unemployment has been a much discussed question the ministers have been almost all confined to Victoria in order to get their departments in shape and to formulate legislation that will come before the House. Dr. King has however, taken sufficient time to visit the north, which is looked upon as the coming agricultural section of the province. He is always keen to have the work of his department keep pace with the development of the districts and to apportion the public money according to the actual needs. For several years past he has taken a keen interest in the Omineca and Fort George ridings and much road building and other work has been done there. This year a large program is being carried out and the roads of the district are being gradually improved.

Ten Years Ago in Prince Rupert

August 18, 1911.

The delegates to the Comox-Atlin Liberal nominating convention to be held at Nanaimo tomorrow sailed for the south this morning on the Prince Rupert. They were: G. R. Naden, J. S. Cowper, A. J. Morris, H. B. Campbell, J. J. Sloan, F. G. Dawson, S. P. McMordie, Frank Keeley, Dr. W. S. Hall and Frank Mobley.

* * *

Royal Blue Ribbons rampantly conquered the Crescents in last night's indoor baseball game by a score of 42 to 20.

* * *

Fire Chief McInnis is today wearing the first uniform to be ordered for the fire department.

* * *

George Macdonald, dry goods merchant of Stewart, died yesterday at Goose Bay and his body was brought to Hayner's morgue here.

* * *

Wallace Bros. are building a new cold storage plant at Claxton for McKenzie & Mann.

* * *

H. S. Clements was chosen conservative candidate for Comox-Atlin at the convention held yesterday at Nanaimo. On the third ballot he was chosen over S. M. Newton by 32 to 19.

CANCELLATION OF RESERVE.

Notice is hereby given that the reserve against the acquisition of Coal under the "Coal and Petroleum Act" established by notice dated 11th of February, 1920, and published in the British Columbia Gazette on the 12th of February, 1920, is cancelled, except in so far as the same relates to the following areas:

1. All the lands lying within the boundaries of the drainage areas of the Skeena River above and including Owli Creek, the East Fork of the Nass River, the Little Klappen River, and the Spatsizi River, above and including Kinayetz and Indian Creeks.

ALL that portion of Vancouver Island lying easterly of the following described boundaries:

Commencing at a point on the West Coast of the Island at the mouth of Muir Creek, thence following the western boundary of the Esquimalt and Nanaimo Railway Belt to the southeasterly corner of the Strathcona Park Reserve, thence west following the south boundary of the said reserve to its southwest corner; thence north following the west boundary of the said reserve to its northwest corner, thence west along the south boundary of Sayward and Rupert Districts to the westerly boundary of the watershed of Nimpkish River, thence northwesterly along the westerly boundary of the watershed of said Nimpkish River, Nimpkish Lake and Keogh River to the south boundary of Township 3, Rupert District, thence west along the south boundaries of Townships 3, 4 and 10 to Marble Bay, thence northwesterly along the centre line of Marble Bay and the West Arm of Quatsino Sound to the mouth of Spruce Creek, thence along Spruce Creek to the east boundary of Township 37, Rupert District, thence north along the east boundary of said Township 37 to the northeast corner thereof, thence west along the north boundaries of Townships 37, 41 and 44 to the Pacific Ocean, and including all the foreshore and lands covered by water adjacent to the East Coast of Vancouver Island, together with all Islands lying between the Mainland of the Province south of the 51st parallel of north latitude and Vancouver Island and all the lands within the boundaries of the Districts of Otter, Goldstream, Metchosin, Esquimalt, Victoria, Lake and North and South Saanich, Sooke and Highland.

The cancellation of this reserve shall not take effect and staking for coal shall not be lawful until notice of such cancellation is published for sixty (60) days in the British Columbia Gazette and in a newspaper published or circulating in each of the Land Registration Districts of the Province of B. C.

This notice shall in no wise affect the reserve against the acquisition of Coal, Petroleum and Natural Gas in the Peace River District, established by notice in the British Columbia Gazette on the 27th of March, 1919, which reserve is still in force and effect.

G. R. NADEN,
Deputy Minister of Lands.
Department of Lands,
Victoria, B. C.,
July 20th, 1921.
