PAINFUL DIARRHOEA

Cramps in Stomach

Mr. Fred Funston, Craik, Sask., writes:—"A year ago last harvest I was taken with a sudden attack of diarrhoea which completely laid me out, and in a few hours I had to quit work. The cramps in my stomach were dreadful, the beads of perspiration would stand out on my face at times. I was in such great distress. At last I got a chance to send to town for a couple of bottles of Dr. Fowler's Extract of Wild Strawberry. I used it according to the way I felt and soon obtained a great change for the better, for which I was very thankful. I don't know what the cause of my sickness was except the extremely hot weather and the active work of stooking the wheat.

Several of my neighbors were taken the same as myself and had the doctor attend them, but they didn't get any great relief until I advised them to use "Dr. Fowler's," when they soon experienced a great change."

Dr. Fowler's Extract of Wild Strawberry has been on the market for the past 76 years and many cheap imitations are being offered to the public.

Be sure and get the genuine put up only by The T. Milburn Co., Limited, Toronto, Ont. Price 50c. a bottle.

CAPITALIZE NATURE HERE

(Continued from Page one).

Columbia and make it known to the rest of the wold. He told of having met some tourists from London, England, who were so pleased with the trip up this coast from Vancouver that they made it twice before leaving for home. There was a general movement throughout the whole province to commercialize this great asset.

Told Victoria People.

On his last trip here, which was also his first, he told the people of Victoria of what he had seen and interested them in this part of the province. In this movement it was necessary for all to move together. One municipality could not do much but by a concerted movement they would attain their object.

Mr. Neild then spoke of the efforts that had been made to establish a steel industry on this coast. He said that shipbuilding naturally followed from this industry. There were the raw materials here and the workmen were here. There was no reason why this province should not compete with the east and become an industrial province.

Speaking of the ships that were being built here, Mr. Neild mentioned that the Canadian Scottish would compare favorably with any and especially so in the fittings of the vessel which were excellent. Capt Hocking of the Canadian Prospector, who was here to take over this vessel, had told him of the interest taken in British Columbia lumber on his recent visit to Egypt and of the advertising the province got in Australia and other countries from the home built ships that visited the ports.

Keep Dock Working.

There was a fine drydock and a plant equalled by no other on the coast here. He urged that efforts should be made to have that plant kept busy by other industrial work if shipbuilding did not continue. It had been built at great expense and should be utilized for the benefit of the people as a whole and Prince Rupert in particular.

Vancouver would be a great ocean port, Mr. Neild declared, and there was no reason in the world why Prince Rupert, with all her advantages, should not also be a great port.
