Irish Situation Still Considered Hopeful PROVINCIAL GOVERNMENT BUSY ON PLANS FOR EMPLOYMENT

Conciliation Board Under Memieux Act to Hear Case For Reduction of Wages

ONTARIO, August 18.—The Minister of Labor has granted a board of conciliation to hear the objection of the five big railway roads against wage decreases in Canada. David Campbell is chosen to represent the men, and the railways will be given 15 days to choose their representative on the board. If no choice is made, the government will name one, and the government and the men will name the third member of the board.

An application for the board was made by the brotherhoods, but the railways, including the government railway, refused to accept it.

MORMON TEMPLE IN ALBERTA TO COST MILLION.

A Mormon temple which to date has cost nearly a million dollars is being built at Cardston, Canada, a place practically unheard of. The town, which is in southern Alberta, on a branch of the Canadian Pacific Railway, is now beginning to attract visitors from all parts of the continent. Cardston has been a centre of Mormon faith since 1887, when a company of Mormon immigrants from Utah, attracted by its agricultural possibilities, made it their home. The temple occupies the highest point in this settlement. The photo shows the temple. The lines of the building are all straight, no curved lines being used in its construction.

British Are Optimistic; Not Yet Convinced That Republicans Will Definitely Refuse Offers

LONDON, August 18.—Optimism in regard to the Irish situation still prevails at the British headquarters, where this attitude is being justified by the lack of definite rejection of the government's terms by Dail Eireann. Eamonn de Valera, the Irish republican leader, has not yet convinced the British of his sincerity in his uncompromising statements of the past two days, and the officials are reluctant to believe that the offer which appears so generous to them would be rejected outright.

The cabinet leaders and members of both the House of Lords and the House of Commons are keeping in close touch with developments at Dublin. It is believed that the King's speech regarding Parliament tomorrow will be largely concerned in Irish affairs.

DUBLIN, August 18.—Peace negotiations between the British Government and the Irish republican leaders were not mentioned at this morning's session of Dail Eireann.

BOTTOMLEY WANTS BILL

Says Holland Should Deliver
ex-Kaiser to Allies for
Punishment.

LONDON, August 18.—A declaration that Holland should be called upon to surrender the former German Emperor was made today in the House of Commons by Horatio Bottomley, the famous writer and Independent member, who raised the question in connection with the recent trials in Leipzig of Germans accused of violation of the rules of organized warfare. Bottomley said that if Holland refused to give up William Hohenzollern and the British Government were unable to deal with the matter efficiently, the members should make way "for men of sterner stuff."

He despatched from the local office tonight to go south on the Prince Rupert.

Unemployment Insurance Forecasted by Attorney General Farris, Vancouver

VANCOUVER, August 18.—Unemployment insurance was forecasted yesterday by Attorney-General Farris as a possible policy of the present government in dealing with the question of unemployment. It was at a meeting of the members of the government with representatives of the workers and returned soldiers for the purpose of trying to work out a scheme for solving the unemployment problem for the coming winter. Mr. Farris expressed the opinion that some insurance system against unemployment was bound to develop in Canada as a result of the experience through which they were now passing.

Unemployment insurance has been in vogue in Great Britain since several years before the war. Its enemies claim that it has been much abused and has caused idleness and aided strikes. On the other hand, there are many who claim it has been one of the greatest laws ever passed in that country and has been an aid in stabilizing industry and improving the condition of the workers.

FAIR PROSPECTS SILESIA AGAIN LOOKING BRIGHT BEFORE PUBLIC

Work of Preparing Grounds for
Sideshows at Exhibition
Building Under Way.

At the meeting of the Fair Committee last night it was reported that the permanent improvement of the grounds adjoining the exhibition buildings was under way under the personal supervision of W. E. Thompson. Already considerable work has been done and something like \$1000 will be spent on this improvement. This will include the erection of 250 feet frontage of outside booths for sideshows.

Applications for concessions for sideshows are already coming in, in addition to the merry-go-round and shooting galleries.

Bids are being called for inside and outside refreshment concessions, and for this a schedule and classification is being worked out. At the meeting last night a representative of the Football League was present and arrangements are under way with a view to suitable matches during fair week.

Preparation of the inside of the building is under way, and the committee in charge of that department announced last night that all the booth spaces would be taken up.

Committee Reports.

Committees are all working hard and arrangements are well under way for the big event next month. George Bryant had a report from the Sports Committee showing that there is going to be no dearth of attractions in that section. Publicity is being attended to by the committee under John McRae, while H. Pattinson, chairman of the Exhibits committee, reported that department in better shape than ever.

Two local companies, the Edson Coal Company and J. G. Weston, have offered prizes of coal for competition. The Malkin Co. of Vancouver will present several hampers of goods running in value in the neighborhood of \$5 each to exhibitors. They will be suitably allotted by the prize committee.
