## DAILY EDITION

Wednesday, Oct. 26, 1921.

Good News in  
Regard to Shipyard.

It is splendid news that no matter what happens the shipyard and drydock will not close down. The railway company has announced its intention of carrying on the repair and shipbuilding business. Competent men will be engaged and everything will go on as before. The Wallace Company has made a second offer to the Government and there seems a possibility that the company now operating here will be able to secure a lease. It is to be assumed that the railway company is not anxious to run the plant, but if there is not a suitable offer it will have to do so.

As between government ownership and private ownership, most people in the city would like to see the Wallace Company carry on. They seem to be an enterprising concern and they go out after business, and when they get it they give good satisfaction. That is their record. They are anxious to build up the business so that they may make a big thing of it. There is a possibility of the railway company doing the same thing, but precedent gives few examples of works carried out successfully under government control.

The satisfactory thing to know, however, is that the shipyard is not to be closed and that there is a likelihood of the business developing under some auspices, either the lessees or the railway company.

Austrian Condition  
Very Unsatisfactory.

The condition of affairs in Austria and Hungary and even in Germany are anything but satisfactory. How could it be otherwise after the war condition which affected them so adversely? The wonder is there has not been more trouble in those countries. If we in Canada and the United States are somewhat restless after the great upheaval, how must it be in countries where there have been constitutional changes and where many of those with wealth and power were deposed? Such a condition of unrest is bound to follow a great war.

Reign of Charles  
Was Very Short.

Three days ago Charles was proclaimed king of Hungary. Today he is in prison and his queen with him. Such is the fate of kings. It is a matter for congratulation to the people of Hungary that they were able so quickly to dispose of the rebellion.

What shall be done with Charles now they have him? He has caused hundreds if not thousands of deaths in Hungary by his rash act. The only safe way of dealing with such a man, after he had been given two previous chances to behave, is to let him share the fate of his misguided followers. As long as he is alive he will be a danger to the country. It perhaps may seem a little barbarous to advocate such a method, but it is the only effective one.

Liberals to Have  
Good Majority.

All signs seem to indicate that the Liberals under W. L. Mackenzie King will make a pretty good sweep of Canada from one end to the other. The Maritime Provinces will be almost solidly Liberal, Quebec will be Liberal, Ontario will send a number of Liberals, and there will be several from the prairies independent of the farmer group. In British Columbia it is safe to say we shall go at least fifty-fifty. That is a pretty safe prophecy made recently by one who is careful in his calculations. Others who have considered the matter have come to the conclusion that there will be a considerable Liberal majority. With this in view it is wise for Prince Rupert to fall in line.

FIRST BREACH OF  
PROMISE CASE TO BE  
TRIED IN THIS CITY

Case Will Come Before Court  
Next Month; Special Coun-  
sel Engaged.

The date has been set for hearing in a special court of the first breach of promise trial ever held in Prince Rupert. The court will sit on November 23. The parties implicated are local people, although the plaintiff has only been in town for the last few months. The defendant is very well known in town, where he has resided for several years, and strange to say, he is already a married man with a family. Counsel for the plaintiff will make his first appearance in a Prince Rupert court and has been working on the case for some considerable time. As the matter has not been placed before His Honor yet, the plaintiff's counsel considered that it is not yet sub-judice, and therefore has no hesitation in talking about the available evidence.

## Injured Client.

When seen by a Daily News representative, he intimated that he intended to place his great reliance upon the personal appearance of his injured client and the sweet tones of her voice.

Quoting an old song he said that "to see her was to love her" and he had no doubt that the jury would be impressed favorably by his client from the moment they set eyes on her. "The defendant is a snob" he continued "and a great snob, too."

The plaintiff's counsel intimated that he would cite precedent from the time of James the Second. The defendant had intimated that he was quite willing to marry the plaintiff, but being already married under the law of the time of James II, he would be guilty of burglary. Counsel considered that he was giving nothing away in thus discussing the case publicly beforehand, as the defendant will conduct his own case.

## Legal Fireworks.

An interesting display of legal fireworks is expected. As the public is already considerably interested in the case as well as in the interested parties, Court will be held in the Westholme Theatre on November 23 to give the community an opportunity of hearing the evidence, which will be well worth listening to, as both plaintiff and defendant, as well as judge and counsel are members of the Prince Rupert Musical Society.

HOMESTAKE MINE  
IS CLOSED DOWN

ALICE ARM, Oct. 26.—The Homestake mine closed down last week. The close down was earlier than the management had expected and was due to the exceptional early fall of snow at the Kitsault Glacier.

The work done on the property this summer has been highly satisfactory. Ore was encountered in the No. 1 tunnel at a distance of 115 feet and ore was in sight when operations ceased, so that it is impossible to estimate the size of the ore body.

It is the intention of the Homestake Mining Co. to commence operations next spring about the first week in May and considerable development work will be undertaken then.

SCHOOL BOARD  
FINANCES ARE  
NOT CORRECT

Edmonton Secretary-treasurer Is  
Arrested for Falsifying  
the Books.

EDMONTON, Oct. 26.—Following the suspension of W. D. Bradley as secretary of the Edmonton school board, information was laid by the board of trustees before Magistrate Primrose charging Mr. Bradley with false pretenses in connection with funds belonging to the city.

Chairman William Rao of the school board had very little to say in connection with the case. He admitted however that the school board had decided to proceed with the laying of definite charges against the suspended secretary-treasurer, and formal evidence has been placed in the hands of the Crown.

The charge against Bradley is that on or about June 4, 1921, at the city of Edmonton, he did unlawfully, fraudulently and by false pretenses obtain from the Edmonton School District No. 7 of the Province of Alberta the sum of \$291 with intent to defraud and injure the said school district contrary to the provisions of the Criminal Code of Canada.

## Was Arrested.

Following the information and complaint of the school board, a warrant was issued for the arrest of the accused, which was effected at 12 o'clock by Chief Detective Shaw of the city police force at the office of Bradley's lawyers, Walbridge & Renwood. Bail was immediately arranged and the accused secured his liberty pending his arraignment in the police court. Accused's own security in the sum of \$500 cash was accepted as a sufficient bond.

RELIEF WORK  
IS GOING ONSYNOPSIS OF  
LAND ACT AMENDMENTS

Russian Famine Committee of  
This City, Had Meeting Last  
Evening

There was a meeting of the Russian Famine Relief Committee in the McIntyre Hall last evening. Reports were received and J. Stevenson was appointed permanent chairman.

Telegrams from New York and Winnipeg establishing the local branch officially were read.

A circular letter is to be issued and will be sent to all religious, fraternal and labor organizations in the city. Although the efforts of the local body have hardly commenced as yet it was reported that there was already \$131.75 on hand.

Delegates reported that the Longshoremen's Union, the Painters' Union, the Trades and Labor Council and the Carpenters' Union had been interviewed and that they had been given a favorable reception. All promised that they would do what they could towards raising funds and giving assistance generally. The Painters' Union had given a donation of \$10 and the Trades and Labor Council had been especially cordial.

The next meeting will be on Sunday evening when delegates from all societies in the city will be invited. A house to house canvas will be then arranged for and the work will be proceeded with at once in order to get funds off soon, as the months of November and December, it is felt, will be the worst in Russia. It was reported that the Winnipeg committee had already raised \$10,000 which was being forwarded to the Russian Red Cross Society.
