To all other countries, in advance, per year \$7.50.

DAILY EDITION.

Thursday, April 21, 1921.

Fisheries School For the Coast.

According to Dr. L. W. Gill, director of technical education in the department of labor, it is proposed to establish a floating fisheries school on the east coast to operate largely during the winter months. It will move from place to place and give instruction which will be of value to those engaging in the fisheries business or about to take up the work. Halifax, Charlottetown and Sydney are the proposed points for the operation of the school.

Dr. Gill says he has been urging the establishment of such a school on this coast and he expects that in time he will be able to secure it.

The fisheries on this coast have been sadly neglected by all the governments both past and present. The department, coming as it does under Dominion supervision and not under provincial, has been somewhat of an outcast. While farming has received every encouragement, especially along educational lines, fishing has not been thought worthy of any attention, except in the way of protecting the rights of the big interests and studying the habits of the salmon and halibut with a view to protective measures. Now there is growing up an independent fishing population on the coast and especially at this port and this development demands a change of outlook on the part of the authorities. A fisheries school ought to be beneficial.

Miners Strike Still Continues.

Without knowing anything about the right or wrong of the strike of miners in the Old Country, it seems a pity that the whole of the industries of the country should be held up and the people suffer not only inconvenience but great hardship because the two factions, the owners and the employees, cannot settle their differences. The whole country suffers for this disagreement. The coal business is the one on which Britain thrives. All her industries are dependent on it. Practically all her transportation is kept going by means of and as a result of the coal industry. Without her coal fields Britain would never have been a commercial country, much less have led the world in commerce. Stop the coal supply and the motive power behind everything is stopped.

Moral Right of General Strike.

The moral right of the general strike is one that is being questioned these days. After many years of experiment, the labor unions have discovered that if they stand together they can control the whole life of a nation, especially of a commercial nation like Britain. It is rather different in a country like this. The unions have discovered that this power can be used in connection with other than industrial questions. It is sometimes used politically. It has been threatened to use it to prevent war. A section of the community, by means of a power which it has just realized, is able to coerce the rest of the community into a line of action of which it disapproves. By means of direct action it can force its views on the country.

When used for the purpose of righting wrongs, this power is all right. It is legitimate. But when it goes beyond that it becomes tyranny. A minority is able to dictate to a majority.

In the past minorities have always been able to dictate to majorities but it was not the same minority nor the same majority. Now the shoe is on the other foot and the former minority having joined the oppressed majority does not like the new condition. The socialists justify the condition by saying that because the workers produce everything they should control everything, the definition of the word worker being the pivot on which they play. The new condition is a most interesting one and is deserving of much more attention from statesmen and economists than it is receiving today. It is useless, ostrich like, to cover our eyes and say the condition does not exist. It is with us and the next problem is to so regulate it that it will not endanger the life of the nation and the happiness of the people.

OPERATION WAS NOT NECESSARY

"Fruit-a-lives" Restored Her To Perfect Health

188 PAPIREAU AVE., MONTREAL.
"For three years, I suffered great pain in the lower part of my body, with swelling of bloating. I saw a specialist who said I must undergo an operation. I refused.
I heard about "Fruit-a-lives" so decided to try it.

The first box gave great relief, and I continued the treatment. Now my health is excellent—I am free of pain—and I give "Fruit-a-lives" my warmest thanks."

Mme. F. GAREAU.

50c. a box, 6 for \$2.50, trial size 25c. At all dealers or sent, postpaid by Fruit-a-lives Limited, Ottawa.

ALICE ARM IS RATHER QUIET

People are Waiting Anxiously for Word of Resumption Dolly Varden Work.

ALICE ARM, April 21.—The people of Alice Arm are waiting anxiously for news as to whether the Dolly Varden Railway and mine is to resume active work this season under the Taylor Mining Co. Since the sudden close down last Christmas the reopening of the mine has been a matter of a good deal of concern in which the business and development of the town and most of the properties in the Kilsnault River section are concerned. A. J. T. Taylor, president of the Taylor Mining Co., is in England at the present time and it is understood that his mission there is in connection with the future of the Dolly Varden.

Unless the Dolly Varden Railway is in operation the development of the district will be seriously impeded. With a glut in the copper market and silver prices down a good deal of doubt is expressed as the extent of the work that will be carried on here this season either on active production or development.

Only Road Work.

The stores here have stopped giving credit. Local merchants on their hands due to the large amount of credit business done last year. Until some definite news of operations to be carried on this summer are received they are, necessarily, carrying on as carefully as possible. Outside of the government road work and a couple of small logging camps operating there is little going on here at present.

SWANSON BAY

A. Moore was the host at a most enjoyable launch picnic to the flats beyond Kantz Inlet last Sunday afternoon. The following made up the party: Mr. and Mrs. Murray and children, Mr. and Mrs. Lange and children, Mr. and Mrs. Alleck and son, Dr. and Mrs. Lawrence, Mrs. Taylor, Miss Nellie Watson, Mrs. Brown, Miss Isabel Smith, Miss Jessie Beyer, Miss Alma Macdonald, Mrs. J. W. Ford, Major Mackenzie and Major Ford.

Several Swanson Bay people drifted for a few hours six miles out of Swanson Bay when their launch broke down last Thursday at midnight. Mr. Ohmstead came to the rescue and towed the disabled launch in.

The general store here now closes at noon on Thursday of each week to comply with the half holiday law.

There have been a few lucky catches of salmon here already this season. The small boys spend a good deal of time fishing for eel off the wharf.

Mrs. Grieg, E. Grieg and Mr. Brown spent a few days in Rupert last week.

Mr. Colter, auditor for the Whalen Co., returned to Vancouver last week.

VANDERHOOF

J. B. Armishaw has been chosen president of the Nechako Creamery here in succession to John Goldie who resigned. Geo. H. Outram has been appointed permanent secretary.

A party of Edmonton mining men consisting of J. B. Slessor, P. Lout and H. H. Valens arrived here last week and after outfitting have left with fifteen pack horses to explore the mineral district north of Fort St. James.

Inspector G. H. Gower, of Prince George, visited the local schools last week.

George H. Outram is soliciting shares of \$10 each for a company to establish a community hall. Over \$500 has been raised already.

The Nechako Hotel changed hands last Sunday. Mr. and Mrs. Hugh Willson who have built up a good business have sold out to Mr. and Mrs. J. W. H. Day who came here from Saskatchewan a few months ago.

PRINCE RUPERT TIDES

Wednesday, April 20.

High, 12:15 p.m., 20.1 feet.
Low, 6:16 a.m., 3.9 feet.

Thursday, April 21.

High, 6:26 a.m., 21.7 feet.
Low, 12:59 p.m., 20.5 feet.

Low, 7 a.m., 2.8 feet.
19:1 p.m., 4.8 feet.

The time used is Pacific Standard, for the 120th Meridian west. It is counted from 0 to 24 hours, from midnight to midnight.

The table given is for Port Simpson but the time for Prince Rupert varies only a few minutes on some days and on others is the same. The range of the tide may be computed as 5 per cent greater at Prince Rupert than at Port Simpson both at springs and neaps. Therefore the rise in the Prince Rupert harbor is slightly greater than Port Simpson.

The height is in feet and tenths of feet above the average level of lower low water.

LAND ACT.

Notice of Intention to apply to Lease Land.

In Range 5, Coast Land District, Recording District of Prince Rupert, and situated in Middle Passage off the North West shore of Kennedy Island.

Take notice that I, Alfred E. Wright, of Prince Rupert, B. C., occupation land surveyor, intend to apply for permission to lease the following described lands:—Commencing at a post planted on the east end of the Sand Bar known as "Bigsand," 40 chains west of the North East corner of Lot 518, Range 5, Coast District; thence around the entire Sand Bar, taking in all that part above Low Water Mark, and containing 200 acres, more or less.

Dated this 1st day of April A. D. 1921.
ALFRED E. WRIGHT.

LAND ACT.

Notice of Intention to apply to Lease Land.

In Range 5, Coast Land District, Recording District of Prince Rupert, and situated in Middle Passage, 1¼ miles southwest of Oceanic Cannery, Smith Island, and 1¼ miles east of the east of Kennedy Island.

Take notice that I, Alfred E. Wright, of Prince Rupert, B. C., occupation land surveyor, intend to apply for permission to lease the following described lands:—Commencing at a post planted on the northwest end of a sand bar 1¼ miles S.W. of the southwest corner of Lot 518, Range 5, Coast District; thence around the entire Sand Bar, taking in all that part above Low Water Mark, and containing 40 acres, more or less.

Dated this 1st day of April A. D. 1921.
ALFRED E. WRIGHT.
