Make Home Town An Attractive Place.

"Stick to your home town; make it so attractive to live in and do business in that your young men will stay in it and prosper with it," is the theme of an address delivered by Herbert Cuthbert, executive secretary of the Pacific Northwest Tourist Association.

Mr. Cuthbert pointed out that the prosperity of the state depends upon the development and prosperity of the communities of the state, both urban and rural and that the state cannot prosper as it should when the business and the young people of the smaller communities are diverted to the larger communities of the state and the business and young men of the larger communities in turn are diverted to the greater cities of the United States.

Mr. Cuthbert advocates a movement to include each community in the Pacific Northwest, sponsored by its commercial organization, leading citizens and its newspapers to make their towns cleaner, more attractive and more up-to-date in appearance not only to hold its young people but also to attract settlers; to keep business at home and to enlarge the opportunity of its citizens for the enjoyment of life and of profitable business and employment.

Civic Pride is Most Desirable.

This is where we make our living and if Prince Rupert is good enough to induce us to stay here, it should be good enough to say a good word for whenever possible. It is desirable, not only to try to improve our home town, but also to take enough pride in it to be able to tell of its merits. If the city is not desirable as a place of residence, why remain here?

Prince Rupert is far preferable to many places as a residential city. As someone remarked recently, it is far superior to many a prairie town of its size, particularly in the class of people who reside here and in the activity of the inhabitants. We have in this city a class of people that for intellectual ability cannot be outclassed. The people here, speaking generally, have seen the best of everything, have heard the finest music, have met the best people and have lived much more largely than the average. There are few places of its size to equal it.

Shut In But Not Isolated.

We are shut in here, undoubtedly. It is impossible to take a drive beyond the confines of the city, but we can take a ride in a motor boat. While we are shut in, so far as roads are concerned, we meet a lot of people. Visitors come here from all over the world, attracted partly by the natural wealth of the country and partly by the scenic route. Statesmen stop off here, who would not think of stopping off at places the same size on the prairies or in Ontario. Being the industrial centre for the North Pacific coast we are important. Owing to the immensity of our production, compared with our population, we are known and recognized far and near.

Must Have Roads In Near Future.

We must have roads leading out of the city in the near future. We shall not long be content with the present condition. Indeed we are not content with it now. There is a wholesome discontent with the condition, which is constantly manifesting itself. This year we expect to see work commence on our government buildings. Next year we shall expect to see work commence on our roads. It is absolutely necessary that this city be connected with the district at the mouth of the Skeena river. It will not all be done at once but a beginning must be made soon. The surveys will take some time. Happily our member is fully alive to the need and will certainly do what he can to have the work done. We must not be content to allow him to play a lone hand, however. We must make our influence felt wherever possible and whenever possible, but in a reasonable way.

ANOTHER VICTIM OF RHEUMATISM

Entirely Well After Six Weeks' Treatment With "FRUIT-A-LIVES"

MR. AMEDEE GARCEAU

32 Hickory St., Ottawa, Ont.
"I was for many years a victim of that terrible disease, Rheumatism. In 1913, I was laid up for four months with Rheumatism in the joints of the knees, hips and shoulders and was prevented from following my work, that of Electrician."

I tried many remedies and was under the care of a physician; but nothing did me any good. Then I began to take 'Fruit-a-lives' and in a week I was easier, and in six weeks I was so well I went to work again.

I look upon this fruit medicine, 'Fruit-a-lives', as simply marvellous in the cure of Rheumatism, and strongly advise everyone suffering with Rheumatism to give 'Fruit-a-lives' a trial."

The time used is Pacific Standard, for the 120th Meridian west. It is counted from 0 to 24 hours from midnight to midnight.

The table given is for Port Simpson but the time for Prince Rupert varies only a few minutes on some days and on others is the same. The range of the tide may be computed as 5 per cent greater at Prince Rupert than at Port Simpson both at springs and neaps. Therefore the rise in the Prince Rupert harbor is slightly greater than Port Simpson.

The height is in feet and tenths of feet above the average level of lower low water.

TO ABROGATE MORATORIUM

Manitoba Legislature to Deal with War Measures at Coming Session

WINNIPEG, Jan. 22.—Amendments to the Moratorium and War Relief acts during the 1921 session of the legislature and return to normal peace conditions are under consideration by the government of Manitoba.

An act respecting contracts relating to lands or more commonly known as the Moratorium act, was passed by the legislature immediately following the outbreak of war, which provided that mortgages could not be foreclosed until an instalment of interest, taxes or insurance had been owing for more than a period of one year, or in cases where annual instalments set out in the agreement were left unpaid.

A tentative proposal is now before the government providing that the Moratorium act be amended to provide for the repayment of the principal of mortgages by instalments. The instalments would probably be 10 per cent, for the first year, 25 per cent, for the second and 50 per cent, for the third years.

The War Relief act provides that no action could be brought against a soldier for a period of one year after his discharge or one year after the close of the war. In 1919 an amendment was passed when a clause was inserted to the effect that no soldier should be subject to civil actions for at least one year after his discharge. Amendments for a return to more normal conditions are now being considered by the government.

The Man in the Moon SAYS:

JUDGING from appearances, it seems necessary for a woman to remove a good deal of her clothes in order to display her artistic talents.

IT is remarked that in Vancouver you can buy a thirty dollar suit for \$49.85 marked down from \$65.

THE only person who does not seem to object to the modern young woman, is the modern young man.

THE previous generation always seems to think that the coming generation is going to the demolition howlows and exceeding the speed limit in making the trip.

YOU can bet your bottom dollar that Elsie, or whatever Eve called her youngest daughter, led Adam and his wife a Dickens of a time seeing that she was not too prone to flirt with the sons of Nod.

A MAN waits patiently for the right girl to turn up, but the girl goes gunning and carries home the game.

SWAPPING kisses may be all right for young people, but it is very vulgar if done in public and the party that tells is worthy of excommunication.

THE man who is always looking for an opening so that he may get on in life, should take courage from Jonah, who, when taking passage inside the whale, found the opening at the right time.

"CANADA for the Canadians" is a good motto as long as it is the "ganz" of Canadians of which the Man in the Moon is an honored member.

THE weather may be annoying sometimes, but do not blame the rest of the family for the discomfort.

SLUSH, slush, slush, In tramping through the snow, Slush, slush, slush, No matter where you go, The weather is bad; Everybody feels sad Or mad

When tramping through the snow.

THERE are a lot of queer people in the world besides men and women and stool pigeons.
