

VANCOUVER AFTER BUNKERS

Would Export Yellowhead Coal from That Port.

Vancouver is also trying to establish coal bunkers and the harbor commissioners of that port for some time past have been considering the matter. Various conferences have been held with engineers with shipping men and engineers' plans have been prepared.

It is understood the commissioners at a meeting held recently considered the proposition to create a bulk to be used in the bunkering. This scheme is said to be feasible, and the question of the cheapest and most easily available craft may result in some of the commissioners taking a run over to Seattle to inspect the fleet of wooden war-built hulls in Lake Washington, which the United States Shipping Board is anxious to dispose of.

Permanent Bunkers.

Though the harbor board officials make no statements on the subject it is believed the arrangements now under consideration for meeting the situation temporarily, the ultimate aim being to establish permanent bunkers at some advantageous position on the waterfront.

Conferences have been held between the commission and Capt. and Mr. Baird, and other shipping men on the subject of the best methods of bunkering.

It is understood that the activity of the board is partly inspired by the fact that one of the Yellowhead Pass mines has sent a representative to this port who has urged the establishment of bunkers, declaring if these bunkers could be obtained, his company could assure the port of a demand for the coal. It is reported that the coal will be exported, and in large quantities. Yellowhead Pass is the route of the Canadian National railway into British Columbia through the Rocky Mountains.

VISITORS HAD GREAT TIME

P. Malkin, President Vancouver Board of Trade Expresses Thanks.

Yesterday turned out to be a beautiful day as regards weather, despite all forebodings to the contrary, and the visiting members of the Board of Trade excursion could not have had a better opportunity of seeing the city and surroundings than was afforded them. The morning was spent in touring the city and inspecting the various industrial points of interest, the dry dock, cold storage and fish plants and the new wharf dock.

The afternoon was taken up with a visit to the Salt Lakes and a run around the harbor, a number of gasoline launches being chartered for the purpose. The day was enjoyed by the visitors who were loud in their praises and enthusiasm about all they had seen and learned of the city and the North.

Big Dance.
The evening dance was given by the Board of Trade at the Andrew's Hall in honor of the visitors. It was in every way a most successful affair. There were between three and four hundred people present including most of the members of the visiting Board of Trade. The orchestra which is accompanying the excursion from Vancouver, furnished most excellent music till 2 o'clock, when they gave place to the Western orchestra, the former having to join the rest of the excursionists on the boat which left at midnight to continue its trip to Anxoy and Stewart. An excellent buffet supper was served, under the able direction of Mrs. H. O. Greve, assisted by Mesdames Hubert Ward and A. Gibson and Misses Fulton and Erskine.

Just before midnight, J. P. Malkin, president of the Vancouver Board of Trade, made a brief speech thanking the people of Prince Rupert for the fine reception that had been accorded.

What the Red Cross Has Done -- Is Doing and Will Do!

THE RED CROSS has won the everlasting love of every British Columbian who fought in the Great War. Every veteran who went through the horrors of that titanic struggle of nations knows how the Red Cross nursed the wounded and dying—how it has worked faithfully and untiringly to nurse back to a semblance of their former selves, the crippled, blinded and helpless remnants of those terrible days, that they might once again take their place in the world of industry—how it has cared for the families of these men and brightened their darkest days—how it has faced every task which has confronted it, utilizing every ounce of its energy and resource. This is the Red Cross accomplishment.

THE RED CROSS is still caring for over 800 returned overseas men in the hospitals and sanitariums of this province. It is conducting a workshop for disabled men in Victoria, where, with the aid of specially designed machinery and instructors, they are being taught new vocations, which will make them self-supporting.

IT IS CONDUCTING HEALTH CAMPAIGNS to prevent disease and teach the people how to avoid contagion, and thus prevent pestilence. It is establishing emergency service and outposts throughout the province for relief of those in distress in great disasters. It is maintaining, throughout the province, public health nurses who are ever ready to heed the call of the suffering, care for their needs and teach them how to intelligently direct their future health.

THE RED CROSS will, through its propaganda and educational program, make this whole province a better and safer place in which to live. It will stamp out the evils resulting through ignorance of the laws of health and hygiene so prevalent today, and so improve the general health and living conditions of every community.

THE RED CROSS SOLICITS YOUR SUPPORT AND NEEDS YOUR INFLUENCE. CAN YOU SPEND \$1.00 TO BETTER ADVANTAGE?—ENROLL NOW!

SWISS GLOBE TROTTER WALKED 35,000 MILES

Seven Years Circling Globe on Foot—Cost \$40,000.

MILAN, June 11.—Dr. Massimo Armando Leuret, aged 36, a Swiss physician, has arrived here after walking 35,000 miles in both old and new worlds. He asserts that his tour took him around the globe, commencing on January 1, 1914, and cost him \$40,000.

He says he left Switzerland going north to Germany, Poland and Russia. He was in the last named country when war began and continued the journey across Russia to Siberia. He then visited China and Japan and later crossed the Pacific to America. He claims to have traversed both North and South America on foot. His trip from the Pacific coast to New York was made alternately in Canada and the United States.

When he got to Switzerland he decided that he had not yet seen Italy nor Africa and has commenced now his journeys through them.

BRUCE M'KELVIE CAN ONLY TALK ABOUT B. C.

Refers to His Little Daughter as the B. C. "Made-In."

Bruce McKelvie, the manager of the "Made in B. C." campaign, is just bubbling over with enthusiasm about his work. That's all he finds to talk about and he is boasting the province every chance he gets. He even can't talk about the recent addition to his family, his first and only, without referring to the little lady as a B. C. "Made-in."

GARIBALDI SOLDIER DIES IN LONDON

Was Twice Wounded on Volturno Battlefields.

LONDON, June 11.—James Sammon, aged 84, one of Garibaldi's famous thousand volunteers who fought for the independence of Italy has just died here. He was twice wounded on the Volturno battlefields.

At one time he owned a remarkable collection of ancient objects illustrative of the history of the theatre throughout the ages. This was acquired by the Italian government and now forms the museum of the Scala Theatre in Milan. He was also the author of a notable work on coins.

Sammon married Laura Elizabeth Day, a relative of Charles Dickens and a descendant of Vitus Bering, the navigator.

GUGGENHEIMS TAKE BOND ON FORTY-NINE

Reported Lindeborg Bros. Have Another Mine in Hands of Developing Interests.

STEWART, B. C., June 11.—It is understood on good authority that the Guggenheims have taken a working bond on the Forty-Nine mine on the Salmon River and will carry out preliminary development work this summer. The Forty-Nine was staked by Lindeborg Bros. in 1910.

NEARLY TWO HUNDRED MEN BUSY AT PREMIER

STEWART, B. C., June 11.—Eighty men are employed at the Premier mine now and 100 are engaged on tramway construction work.

Think of all the prominent firms whose products you see in the stores and ten chances to one every firm will be a daily newspaper advertiser. They know it pays.
