**EFFECT ON BOND PRICES**  
 Prior to the issue of the Kidd report British Columbia government bonds were selling better than the bonds of several other provinces. Since that time they have fallen off in their relative positions. A list just received from Toronto shows them quoted at a price to bring an interest return of \$5.84 only Manitoba being below them, the return on those being \$5.90. Alberta bonds bring investors \$5.78.

**BAROMETER OF BUSINESS**  
 A report on the results of the Canadian National Exhibition at Toronto this year indicates that there was renewed interest by inquirers and that actual business was greater than for two previous seasons. While luxury lines were generally down, the interest in pianos and cosmetics was up. The chief increase was in agricultural implements, in while line 95% of exhibitors reported better business.

**VALUE OF DOLLAR**  
 A Minneapolis firm reports as a result of investigations made by them that the dollar of 1926 will purchase today \$1.55 worth of goods. This is the lowest since 1917. Food costs are about the same as in 1913; clothing the same as in 1916 and rents are down to 1919 levels. This means that the salaried individual has his purchasing power increased by more than one-half since the depression commenced.

**THE TOMATO**  
 The tomato was once only an ornament. The fruit was grown by the natives of Mexico since the earliest known times. They were then known as Xitomatoes or Zitotmates from which the present name is probably derived. The Italians were the first to discover its food value but many feared to eat the fruit because of its close relationship to the deadly nightshade. Today the tomato is recognized as one of the means of securing for the body minerals and vitamins, both necessary to health.

# SCHMELING VICTOR OF WALKER BY TECHNICAL K. O.

## Toy Bulldog Beaten Near Into Pulp Before Bout Was Called In Eighth of Fifteen Rounds

NEW YORK, Sept. 27.—Max Schmeling, the German former world's heavyweight champion, more than justified the confidence of his supporters at Madison Square Garden's Long Island Bowl last night by reducing Mickey Walker to a blinded and quivering pulp to end their scheduled fifteen round engagement in the eighth round by a technical knock-out. Walker's defeat was so decisive that even his manager, Jack Kearns, agreed with the action of the officials in mercifully calling the bout to a halt. Although he went down for the count of seven in the first round, Walker actually carried the fight to Schmeling in the fourth and fifth rounds. At the close of the fifth, Schmeling closed one of Walker's eyes with a long jolt to the head which had the Toy Bulldog reeling. Playing on Walker in the seventh and eighth with long range rights and lefts, the German effectively beat his short but stocky American opponent down. In the eighth, Schmeling closed Walker's other eye and put him down for the counts of six and nine before the referee awarded the technical knock-out decision. After the fight it was revealed that Walker was almost totally blinded and would have been unable to carry on in any case.

## WORKERS' DEMANDS

**List Presented to Council Two Weeks Ago Laid on Table For Another Fortnight**

A set of five demands from the central council of employed and unemployed workers' unions of Prince Rupert in regard to relief matters and working conditions which was presented to the city council two weeks ago was further laid on the table for two weeks on coming up again at last night's council meeting. Members of the council held the view that a number of the matters brought forward were more essentially problems to be dealt with by the federal government. On the motion of Ald. Macdonald, the list was laid on the table for a further two weeks. The demands are in effect as follows: The institution by the federal government of adequate unemployment insurance. The setting up of a six-hour day and five-day week without reduction of pay. Adequate relief allowances for the unemployed: \$8 per week for single persons; \$10 per week for married couples with \$2 per week for each child. Payment of union wages on public relief projects. An end to eviction of unemployed workers for non-payment of rent, and exemption from taxes and interest of unemployed workers' homes.

Benny Windle and Nina Gurvich have completed preliminary training for their forthcoming bout at the Empress Arena and are commencing heavy work-outs. # Support Farmers of Central B. C.

The farmers and gardeners of Central British Columbia are making an effort to supply the Prince Rupert market with vegetables, fruit, potatoes, poultry and eggs and other products of the district.

Prince Rupert people are asked to encourage this movement by asking for Central British Columbia products whenever practicable. Co-operation in this matter encourages merchants who buy from farmers and if the farmers are prosperous it will be an encouragement for others to take up land and thus add to the buying power of the whole northern and central part of the province.

**Householders can help by keeping this in mind**

and asking merchants for Central B. C. products whenever possible.
