## SOLID FIVE DO GOOD WORK

Bringing Resources of North Before People of Southern B.C.

VICTORIA, Mar. 3.—(Special by Mail)—More has been accomplished in the interests of the northern half of British Columbia through the work of the government's "Solid Five" in the present Legislature than is seen on the surface. Hon. T. D. Pattullo, minister of lands and member for Prince Rupert; Hon. A. M. Manson, Speaker of the Legislature and member for Omineca; Bert Kergin, of Atlin; Harry G. Perry, of Fort George, and John A. Yorston, of Cariboo, are bringing repeatedly before the other members the tremendous wealth of the northern districts, pointing out the climatic advantages, the riches of forest, sea, mine and farm and fostering and developing an interest in that part of British Columbia which promises to ensure greater government assistance during this and coming years.

### Concerted Effort

With the session scarcely "down to business," little of a constructive nature has been accomplished, but the northern members are working hard in the interest of their ridings. There is a concerted effort noticeable this year which has not been in evidence heretofore and it promises to bear good fruit. The completion of the Pacific Great Eastern Railway to Prince George has been provided for, through the introduction of a bill by the minister of finance to borrow four million dollars for that purpose.

### Progress Loans

Agricultural development will receive greater support from the government than in the past, and the lands of the Skeena, Bulkley, Nechako and Fraser Valleys will be developed through government assistance. The minister of agriculture, Hon. E. D. Barrow, is completing plans for a system of "progress loans," which will be available for all classes of settlers. Under the supervision of the provincial land settlement farms and commenced their development may acquire financial aid from the government sufficient to enable them to go ahead with

land clearing, cultivation, the construction of buildings and the stocking of their holdings. This will be along the lines followed by the department in soldier settlement work and it is expected that plans will be completed with the opening of the spring season.

### Out for Atlin.

Mr. Kergin is fighting for the interests of Atlin with promise of success. His outlining of the resources and needs of that riding has resulted already in a decided display of interest. In Omineca and Fort George road construction will be pushed to the limit, states Hon. Dr. King, minister of public works; while the probable establishment of pulp plants along the northern coast and near Prince George predict big things in an industrial way for those sections. Cariboo is rapidly changing from the home of the miner into a dairying and general agricultural country, with the farmers' interests safe in the hands of Mr. Yorston.

### Pressure to Bear.

The work of these members is well under way. Their success will depend largely upon the pressure they can bring to bear upon the ministers of the cabinet and the Premier, but certain it is, never before have the voices of Atlin, Omineca and Cariboo; the timber of Prince Rupert, and her fisheries; and the farmlands of the central plateau been so much in the public eye. And if they do nothing more this year the northern members have made a splendid start.

 16:50 p. m., 6.8 feet.

The time used is Pacific Standard, for the 120th Meridian west. It is counted from 0 to 24 hours from midnight to midnight.

The table given is for Port Simpson but the time for Prince Rupert varies only a few minutes on some days and on others is the same. The range of the tide may be computed as 5 per cent greater at Prince Rupert than at Port Simpson both at springs and neaps. ## WAR RELIC

### Capt. Hersey Presents Interesting Token to Montreal Regiment

MONTREAL, Mar. 3.—A war relic that will be highly prized has been presented to the officers' mess of the Royal Montreal Regiment by Capt. A. G. Hersey, of the Canadian Grenadier Guards. It is a brass plate, fashioned from the case of a three-inch shell and inscribed with the names of 120 officers and men of the regiment which had been affixed to a memorial cross erected by the R.M.R. to its heroic dead in the Tara Hill Cemetery on the Somme. The plate was carved by one of the battalion's N.C.O.'s who had survived the engagement in which the others were killed.

Capt. Hersey, with his wife, was in France last year on his honeymoon, and visited the battlefields of the Somme, where he had also served. During his tour he went through the cemetery at Tara Hill and saw the memorial cross. After election this had been subjected more than once to enemy shell fire, of which it now showed numerous traces. Capt. Hersey noticed that the plate was missing. On walking round the cross, however, he found the plate some distance away, scarred by the shell fragments that had torn it away from the cross and which had also deeply scarred the cross itself. Capt. Hersey took a photograph of the cross, denuded of its plate and with its marks of shell fire, and brought the plate itself with its tragic inscription back to Canada. This he presented, with a reproduction of the photograph of the cross, artistically framed in a mahogany case, to the officers' mess of the Royal Montreal Regiment.
