WATER POWERS HERE ARE TO BE INVESTGATED

RDINAL LOGUE STATES THAT IRELAND WILL NEVER BE A REPUBLIC

Engineer Coming Investigate Power Possibilities Here

Every man is a potential capitalist," declared Hon. T. D. Clarke, minister of lands, yesterday in an address before the Club. "In every man is producing power and immediately uses that power he becomes a capitalist. The two are antagonistic to each other naturally, but quite the reverse. Ideally their interests are one. To preach otherwise is a contradiction. All know that there is something wrong in relations between them, but some try to use this for their benefit."

Pattullo congratulated the club on its formation here and asked them for asking him to be the first to address them. He pointed out the potent influence of the Club throughout the city.

The Irish republic would never be achieved, he said.

WORLD SOLD FOR \$300,000

Vancouver Newspaper Changes
Hands and Will be Independent
Liberal.

JOHN NELSON MADE
THE PAPER VALUABLE

VANCOUVER, April 29.—Chas. Campbell of Vancouver, is the head of a syndicate that has purchased the Vancouver World for \$300,000. John Nelson, the present managing director, will leave in a few weeks for a holiday. The policy of the newspaper will be independent Liberal, it is said.

The Vancouver World has had a varied career. It was for many years a Liberal paper but when acquired by L. D. Taylor it refused to support the Liberals at an election because it did not get sufficient monetary support from the party. It gradually got into disfavor and with the breaking of the real estate boom, Taylor was fired out, and the paper was purchased by a small syndicate with John Nelson as the titular head with the position of managing director.

Business Basis.
Mr. Nelson at once began to put the paper on a business basis. He rode in on a prohibition wave and for some time celebrated a great deal to the prohibition and church element, bringing the paper to the fore and steadily making it a factor in the newspaper life of the city. The paper was purchased for a very small sum and has been sold for a good round figure, and it has proved a good business venture.
