Lashed by the Whips of Circumstance

To be lashed into action by the Whips of Circumstance is not an evil.

One needs it periodically to overcome the flatulence of prosperity.

Let us be frank with each other.

Manufacturers, Merchants, Newspaper Proprietors, and Public, we have all had a succession of fat years. Now some of us are timorous at the thought of lean months.

Well, lean months and lean years would be in store if we sat still and waited --- but not if we show fight.

We are pleased to see fighting spirit awakening.

It is shown by the renewal of Daily Newspaper

Advertising Contracts for increased space this year.

But, greater evidence than that---New advertisers are planning to use daily newspapers to reach out for new business with old lines, and to introduce new lines into old established fields.

While such vision, and faith, and courage, is alive in men, there can be no fear for the future.

What of your fighting spirit? What are your ambitions?

Are you going to reach out and fight for business? Well, then, you have one mighty force to aid you---that is Daily Newspaper Advertising.

And Daily Newspaper Advertising welcomes the challenge.

The Daily Newspapers of Canada are resolved to do their part to make 1921 a Banner Year. They invite you to travel in their company.

SPLIT IN RANKS OF PRAIRIE FARMERS

Trouble Brewing Among Agrarians in Manitoba, says Report

WINNIPEG, Feb. 3.—A split in the ranks of the Farmer political party in Manitoba is about to take place, according to political prophets. The Independent Farmer group in the provincial legislature resents the action of the United Farmers of Manitoba convention held at Brandon recently, in ignoring the legislative group and its platform. An open split seems likely to occur and may be precipitated by the Lakeside by-election.

The statement issued by J. L. Brown, president of the United Farmers of Manitoba, to the effect that the United Farmers had taken no part in the Lakeside nomination or election contest, has brought about definite steps for a disruption between the outlawed Farmer members who contested seats in the election last summer and the United Farmer party.

After the "Flu" Four Children Had Whooping Cough

Whooping cough, although specially a disease of childhood is by no means confined to that period, but may occur at any time of life. It is one of the most dangerous diseases of infancy, and yearly causes more deaths than scarlet fever, typhoid or diphtheria, and is more common in female than male children.

Whooping cough starts with sneezing, watering of the eyes, irritation of the throat, feverishness and cough.

Dr. Wood's Norway Pine Syrup is highly recommended by mothers everywhere for the relief of this trouble, as it helps to clear the congested air passages of the mucous and phlegm that has collected, and in this way brings on the "whoop" which brings the so-much-sought-for relief and heats and soothes the lungs.

Mrs. J. M. Bousie, Imperial, Sask., writes: "After the 'flu' last fall, my four children took whooping cough and one of them developed bronchitis. After using two or three bottles of Dr. Wood's Norway Pine Syrup they were greatly relieved of their nasty coughs. It is an especially good remedy for children, and is so nice they take it readily, and ask for more."

Dr. Wood's Norway Pine Syrup is 35c, and one a bottle at all dealers. Put up only by The T. Millburn Co., Limited, Toronto, Ont.
