WILLIAM HALE WAS DROWNED

Well Known Taxi Man of City Met Death at Cannery Near Ketchikan.

News of the death by drowning of William Hale at Ketchikan on Saturday reached the city by wire yesterday. Details are lacking, but it seems that the deceased had been working at Clawac Cannery and was drowned at a creek mouth from a small boat.

Mr. Hale was very well known in the city and formerly carried on a taxi business in partnership with Huntley Tate. He took a great interest in athletics and was an accomplished boxer of the heavyweight class. He appeared last at a Sons of Canada smoker and was to have been here for Labor Day. He left here about three months ago and went to Stewart and then to Ketchikan. He was about 22 years of age and was the son of Mrs. Ben Stone, whose husband was drowned while fishing off the mouth of the Skeena River several months ago. Mrs. Stone and family sailed for Vancouver on Sunday night.

Canon Rix on the one hundred years of peace between this country and the United States. There was a formal salute to the flag and the singing of the British and Canadian national anthems. At the new Hays Cove School the pupils gathered in the new assembly room under the new principal, H. Campbell, and were addressed by Rev. Dr. Grant, who also gave a short address to the pupils at Borden Street School on the same subject, mentioning particularly that whatever nationality the people of this country might originally have been, they lived together under the one flag here.

KING OF THE HEDJAZ TO OPPOSE GREEKS.

A holy war has been proclaimed by the King of the Hedjaz as a measure for assisting the Turkish Nationalists in their fight against the Greeks in Asia Minor. The monarch in his call appeals for the saving of Islam. A Moslem call for a holy war, in which Mohammedan would be arrayed against Christian, has been an eventuality which the European Powers have feared since 1914. The photograph shows the King of the Hedjaz—"The Kaimakon," as he is called—at his capital, Akabaha. He is surrounded by members of his

Crisis Reached In Irish Affairs Following Failure to Agree to a Settlement on Dominion Status

LONDON, Sept. 6.—Sinn Fein's reply to Lloyd George rejects the British terms on the ground that they are not based on Dominion status for Ireland. It leaves the way open for further negotiations by offering to appoint immediately plenipotentiaries to negotiate on the basis of government by consent of the governed.

LONDON, Sept. 6.—While Premier Lloyd George held conversations with cabinet members and the civil and military authorities today, there were indications that the Irish controversy had virtually reached a crisis and that tomorrow's meeting of the British ministry might prove to be historic.

Some people believe that De Valera and his colleagues will be given a limited time in which to accept or reject the British Government's offer of Dominion status as a basis of settlement.

Wonderful Time at Telkwa Barbecue

Thousand People Visited Town and Saw Baseball, Football, Races, and Other Events then Danced Till Late Morning

TELKWA, Sept. 6.—The Barbecue yesterday was a huge success. The weather was fine on Sunday, with the result that on Monday morning everyone set out for the hub of the Bulkley Valley, the visitors numbering approximately one thousand people. People came from Prince George, Prince Rupert and intermediate points, arriving on horseback, wagons, automobiles, handcars and on the trains.

The event was held on the new grounds, which had been specially prepared for the occasion, and at the track, which was in fine condition.

The barbecue proper consisted in the roasting of the best steer from Frank Dockrill's herd and hot beef sandwiches were served free to everybody by Master of Ceremonies Beck and his staff of assistants.

The town and grounds were decorated for the occasion with evergreen trees and flags. Refreshment booths were conducted on the grounds by the ladies of the Anglican Church and the ladies of the Union Church. In addition there were wheels of fortune and all the sideshows which bring joy to the hearts of the young people.

Several Games. Great interest was taken in the baseball game, in which Hazelton beat Telkwa by a score of 14 to 12.

Races and broncho busting were followed by a football match, in which the home team again lost, this time to Smithers, the score being Smithers, 8; Telkwa, 0.

Nor were the Telkwa lads any more successful in the baseball game on Sunday, in which Smithers beat Telkwa by 11 to 3.

Last evening there was a grand dance in the Community Hall at which 250 people attended. T. J. Thorp managed this affair and there was first rate music by a local orchestra consisting of Mrs. Douglas Campbell at the piano; Miss Fairbairn, violin; Clarence Burns, drums. Confetti and balloons gave the event a carnival touch. Mr. Spouce had charge of the ice cream and general refreshments which were served at midnight and the event closed this morning at 3.30. Over \$200 was cleared from the dance.

Single Accident. During the day there was one accident, E. J. Wilson, a rancher, from near Telkwa, was riding into town on horseback when the horse fell in front of McNeill's store throwing the rider and breaking his leg. He was immediately taken by auto to the Smithers hospital, where the bone was set.

The Poplar Council had refused to levy taxes to carry on the business of the district under the London County Council.

POLAR BEAR TO STAY FOR FAIR

Negotiations in Progress Between Fair Board and Visiting Aviators.

The biplane "Polar Bear," with Aviators C. O. Prest and L. M. Bach from Mexico to Siberia, will likely remain in Prince Rupert until after the exhibition next week if negotiations that are now pending between the Agricultural Association and the flyers are brought to a successful conclusion. An offer has been made Mr. Prest, which he will probably accept. In the meantime, a delegation will meet the city council tonight to ask for assistance in financing the attraction.

A few minor alterations will be necessary at the Acropolis Hill Grounds to allow the plane to land and take off from there. These will be made and the plane will work from there making flights daily and doing stunts. The latter can be better done with the airplane than with a seaplane which was at first proposed. This and the fact that the plane is already here ready to fly, is why the Fair Board is endeavoring especially to keep the Polar Bear in Prince Rupert.
