TARIFF SHOULD NOT EFFECT WHEAT PRICES

Cattle Will Be Hard Hit by U. S. Duties, Secretary for Grain Growers' Says.

REGINA, Sask., July 14.—Wheat prices in the Canadian west will not be affected by the new American tariff, except insofar as this interference with free shipment to the United States may be exploited by market manipulators, according to an opinion expressed by J. B. Musselman, central secretary for the Saskatchewan Grain Growers' Association, in a recent interview.

"So long as the United States requires Western Canadian hard wheat for blending with her own winter wheat, it would seem that her own people will have to pay the import duty on it, besides its competitive world value. The United States millers will be under a handicap in competing with Canadian millers when it is considered that imported wheat is used for blending in making flour for export to Europe," Mr. Musselman said.

The meat industry, Mr. Musselman believes, will be hard hit by the new tariff. "The effect of this tariff on our meat industry is likely to be very much more detrimental to the farmers of this country, especially as Canada has practically no other market for live cattle," Mr. Musselman, concluding said: "The thing for Canada to do is leave no stone unturned in building up export markets for her commodities, and in perfecting financial and marketing arrangements that will leave her producers under no handicap in meeting the competition of the United States States in the markets of the world."

PLAYS HARMONICA WHILE OPERATED ON

BOSTON, July 14.—His music soothes Oscar J. Kelley of South Boston that he preferred it to ether while hospital surgeons were probing for a bullet in his thigh. When the doctors started to put Kelley under the influence of the anæsthetic he objected strenuously. Then he called for his harmonica, jumped on the operating table and played gaily while the bullet was removed.

Mr. Barnes.

Mr. Barnes spoke for the University movement which his club was backing in Vancouver. He said that the present condition of the university demanded immediate attention. They were trying to interest the government in it and asked the co-operation of all the other clubs of the province.
