Greatest Care
Against Fire.

It is better to be careful than sorry. To prevent fires is much better than to put them out. The fires at Hyder and Port Simpson should be warnings to Prince Rupert people not to take any chances. In the two cases mentioned conditions were good for keeping the fires under control. The next time they may be different and then there will be a holocaust which would be frightful. Happily, Prince Rupert has a good fire brigade that has always done good work and doubtless will do so again. The thing is to be watchful all the time.

Learn to Swim
When Weather Warm.

Now the weather is warm is the time to learn to swim. It is useless to expect anything of the sort in the winter. Summer is the season, and there is no more suitable place than at the Salt Lake. It is not necessary to tell Prince Rupert people that. It is good advice, however, to suggest that this summer should not be allowed to pass before they have learned to swim sufficiently well to help themselves should they fall into the water.

Preparing for
Fall Exhibition.

While the directors and other officials of the fall fair are doubtless making proper preparations for the fall fair, The Daily News would like to call the attention of the people of the city and district to the desirability of making the coming fair a record-breaker. The way to do this is to prepare now. It is impossible to plan an exhibit and prepare it in a few hours or a few days. There is but one way to make it a great success and that is to begin at once and keep it in mind. Whatever we give our best thought to is that in which we shall succeed.

Value of Education
To Community.

The value of education in any community is difficult to estimate. The right kind of education is the most valuable asset a community possesses. Addressing the summer school of teachers the other day Dr. Weir of Saskatchewan province is reported to have said:

"Teachers are the most self-sacrificing people in the world. They are the pioneers of democracy. Their ideals are to aid others as much as they can, despite any inconvenience to themselves. Anglo-Saxons have the greatest democracy, therefore Anglo-Saxons ought to have the best teachers.

"We, the teachers, and the public are going to work in harmony. Education is a subject that deeply concerns and greatly interests the public. It is for their own good and they are beginning to realize it. Education has been making rapid strides along the lines of development that far-seeng men have set for it. These men are teachers and it is the work of this generation to carry on the good work. Men like Socrates began it; men like Luther have carried it on, and now it is for us to attend to.

"Teachers are makers of Canada. They help to bind the country together. They are national developers and not provincial boosters, although they may interest themselves in their own province as well as in the affairs of others. But in Canada our aim covers a wide field. We are a new country and the study of education is also comparatively new, therefore we have a great and important task before us.

"It was once a belief that teachers were born; now we know that they are also made. Although general scholarship is an important essential, specialized training is paramount. A great deal more stress must be laid upon this latter. Education begins with the cradle and ends with the grave. The more a man studies the happier he is, and the more he knows the more he realizes just how limited is his knowledge."

NERVES ALL
GONE TO PIECES"Fruit-a-lives" Conquered
Nervous Prostration

R. R. No. 4, GILBERT PLAINS, MAN.
 "In the year 1910, I had Nervous Prostration in its worst form; dropping from 170 to 115 pounds.

The doctors had no hope of my recovery, and every medicine I tried proved useless until a friend induced me to take "Fruit-a-lives".

I began to mend almost at once, and never had such good health as I have enjoyed the past eight years. I am never without "Fruit-a-lives" in the house". JAS. S. DELGATY.

50c. a box, 6 for \$2.50, trial size 25c. At all dealers or sent postpaid by Fruit-a-lives Limited, Ottawa.

RESIGNATION
IS DEMANDED

Former Superintendent of Education Refuses to Leave Principalship of Victoria High School.

VICTORIA, July 26.—A demand for the resignation of Dr. Alexander Robinson, principal of the Victoria High School, will be made by the Board of School Trustees Mrs. Spofford asking taken at a special meeting of the Board to discuss conditions at that educational institution consequent upon the outcome of the recent investigation by officials of the Department of Education. A resolution presented by Trustee Mrs. Spofford, asking Dr. Robinson to hand in his resignation, met with the opposition of but one member of the Board, Trustee Mrs. Condy-Johnson.

Dr. Robinson was present at the meeting and addressed the Board at length. When the resolution was approved he made known in emphatic manner that he would refuse to comply with the terms of the resolution.

Not Dead Yet.

"You have not killed Dr. Robinson yet, I may tell you gentlemen. May I bid you good-night?" said Dr. Robinson, as he left the Board room. He is under contract with the Board until December next.

Another resolution arising out of the High School imbroglio was one sponsored by Mrs. Spofford, seconded by Trustee Riddell, rapping Frank Andrew, teacher of the High School staff, for alleged criticisms of the Board's administration.

Trustee Mrs. Andrews was the only member of the Board absent from the meeting.

The Ultimatum.

The discussion in consequence of which the Board's action was taken arose out of the letter written by Dr. Robinson to the Board, in answer to one from the Board enclosing a copy of the report of the investigating committee, and drawing attention to the findings of the committee, and asking that the faults reported upon should be corrected. The resolution as presented by Trustee Jay was as follows:

"Having considered the letter of Dr. Alexander Robinson, in reply to the Board's communication of July 12th, having in mind also the very inharmonious feeling that exists at this moment between the principal and nearly all of his staff, and in view also of the results of the matriculation examination now before the Board, which indicate that the inefficiency in the High School is not due alone to the five teachers to whom letters were sent at the end of May last.

The Resolution.

"Be it therefore resolved, "Firstly, that Dr. Robinson be informed that the Board regrets to advise him that it believes the best interests of the Victoria High School demand that he be requested to submit his resignation as principal forthwith.

"Secondly, that the teachers of the High School be advised that the results of the matriculation examinations are very disappointing to the Board and in view of which fact, as well as the recent findings of the investigating committee, careful observation will be kept of their work during the coming term, and an unfavorable report from either the Provincial or municipal inspector will undoubtedly lead to a request for the resignation of the teacher concerned."

Ten Years Ago
in Prince Rupert

July 26, 1911.

Prince Rupert Conservatives met at the McIntyre Hall last night to select delegates for the forthcoming federal election nominating convention. The following were selected: William Manson, Frank Gullin, O. H. Nelson, M. M. Stephens, Dr. McIntyre, J. E. Merryfield, L. Crippen, O. Besner, A. Carss, W. E. Fisher, W. J. Quinlan, J. G. Scott, W. B. Clayton and S. M. Newton.

Mrs. M. B. Queen, wife of the local manager of King Tai, Limited, reached here today. She is the first Chinese woman to reach here and left Canton about a month ago on the steamer Monteleale.
