HEALTHY INDEPENDENCE

Withdrawal of Free Trade Liberal members from the British cabinet shows a healthy independence. While they have dropped out of the cabinet they will continue to support the Union Government on all questions except that of protective tariff.

There seems no good reason why members of the government should not hold views differing in some points from those of their fellows. While there must always be a certain amount of give and take in any group acting together, there are bound to come times when the differences are of so radical a nature that they cannot be compromised. In such cases the only recourse is to part company. That is what the small group of British Liberals have done. Possibly in so doing they may save the Liberal party from extinction there.

IMPORTANCE OF LOW RATE

The importance of a low rate on transportation of automobiles between Prince Rupert and the present terminus of the highway is being stressed by the Chamber of Commerce and is now before the Board of Railway Commissioners. The commissioners are taking it up with the railway officials and it is hoped that good results may follow.

This is a vital local question and one that should never be allowed to drop until results are achieved. The present rate is prohibitive. Nothing higher than twenty dollars will be finally acceptable to the people of Prince Rupert.

LOWER FREIGHT RATES

There are some anomolies in the local freight rates that seem to need attention. This matter may have to be taken head. up with the higher officials or with the railway board. head Farmers shipping potatoes to Prince Rupert have to pay over 50 cents a sack from some points and 33 cents from George, five head. Terrace. The rate from Vancouver is only 42 cents yet the distance is two or three times as great. When farmers wish to ship their produce to Prince Rupert they find they cannot compete with the south.

Just what steps should be taken to have matters like this remedied does not seem apparent. Turnips from Terrace cost 49 cents a sack of 100 pounds for freight which is more than the farmer gets for growing them. It seems as if a combined effort on the part of the farmers' organizations and the Prince Rupert people could secure some re-

Just now an effort is being made to improve farming conditions in Northern and Central British Columbia. The railway is co-operating in bringing in livestock and they expense. might well take into consideration a revision of the freight rates on staple commodities such as potatoes and turnips. They are entitled to a reasonable profit on the business. Possibly there might be a sliding scale dependent on the price of the articles at the time.

It may be argued that there is more business done with Vancouver than with the interior and therefore they are days entitled to a better rate, but the business will always go south if the rate with interior points is prohibitive. Farmers cannot make good if all the profits go to the railway and none to themselves. If a reasonable rate is given it will encourage farmers to raise the products and ship them in. The whole matter is worthy of serious considera-

HIS CONSTIPATION

Kellogg's ALL-BRAN Brought New Health

Every one who has suffered from constipation should read Mr. P. M. Fisher's letter:

"For many years I suffered from constipation and used, for relief, all kinds of laxatives. After a few days' treatment, I would only find my condition the same as before and at times worse.

"Some time ago I started to use Kellogg's ALL-BRAN regularly, once a day as directed. Since doing this, have found that I do not need any other medicine to procure the desired result, and it keeps me in very healthful condition."-Mr. P. M. Fisher. (Address on request.)

Constipation is caused by lack of two things in the diet: "Bulk" to exercise the intestines; Vitamin B to tone the intestinal tract. ALL-Bran supplies both—and also iron

The "bulk" in ALL-BRAN is much like that in lettuce. Inside the body, it forms a soft mass, which gently clears out the wastes.

How much safer this is than risking pills and drugs—so often harm-ful. Just eat two tablespoonfuls daily - in serious cases, with every meal. If your intestinal trouble is not relieved in this way, see your

Equally tasty as a cereal, or used in cooking. Get the red-and-green package at your grocer's. Made by Kellogg in London, Ontario.

More Heifers For Interior Farmers

ifteenth Carload of Quality Breed ing Stock is Distributed

PRINCE GEORGE, Sept. 30:-The tifteenth carload of good quality reeding heifers shipped into the entral Interior of British Columbia along the Canadian National Railways was distributed on Sepember 23 as follows:

W. F. Sawkins, Sinclair Mills, one

Rotary Club Hears H. F. Pullen Tell of Outstanding Problems of Queen Charlotte Islands

What Queen Charlotte Islands need is population. She cannot get population without transportation and she cannot get good transportation facilities without population, so there you are." That was one of the problems in connection with the development of the Islands set forth in a talk on Queen Charlotte Islands at the regular weekly luncheon of the Rotary Club yesterday by H. F. Pullen, who visited the Islands during the past summer.

One of the hopes for more population and more frequent transportation facilities the speaker saw in the development of the mining properties there. He told of his recent visit to the Skidegate Eunrise mine, which is being developed and of which Dr. Mandy speaks most encouragingly. He expressed the opinion that this was likely to be a real mine that would help to make the Islands famous. If this became shipping mine attention would at once be drawn to the possibilities across Hecate Strait.

Mr. Pullen told of the fine cattle he saw on the Islands, of the deserted farms that might be utilized, of the productivity of the soil, Parties From of the fine type of natives he met, of the holiday resort at Tiell and the holiday possibilities of North Beach near Massett. The people there had much longer stretches of highway than had the people of Prince Rupert and the roads were pretty good. The plank road between Port Clements and Tlell was in excellent condition and would be good for many years to come. He The Seattle charter yachts West-

ritory practically undeveloped, from Seattle early last month. much of which was unknown, it was The party on board the Caroline pert as their market.
